CITY OF KENNESAW
GEORGIA

ORDINANCE NO. 2025-__

AN ORDINANCE TO AMEND CHAPTER 18, ENTITLED
“BUILDINGS AND BUILDING REGULATIONS,” OF THE CODE
OF ORDINANCES OF THE CITY OF KENNESAW, GEORGIA, SO
AS TO AMEND SECTION 18-72 OF SAID CHAPTER REGARDING
FEES.

**BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF
KENNESAW, COBB COUNTY, GEORGIA, AS FOLLOWS:**

SECTION 1. Chapter 18, Section 18-72 of the Code of Ordinances of the City of Kennesaw, Georgia, is hereby amended by striking and adding the following:

Sec. 18-72. Fees.

- (a) *Prescribed fees.* A permit shall not be issued until the fees as adopted by Mayor and Council ~~as prescribed in subsection 18-71(d)~~ have been paid. Nor shall an amendment to a permit be released until the additional fee, if any, due to an increase in the estimated cost of the building, structure, electrical, plumbing, mechanical or gas systems, has been paid.
- (b) *Working commencing before permit issuance.* Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits, shall be subject to the penalties as outlined in subsection ~~(e)~~ (m) below.
- (c) *Accounting.* The building official shall keep a permanent and accurate accounting of all permit fees and other monies collected, the names of all persons upon whose account the same was paid, along with the date and amount thereof.
- (d) *Schedule of permit fees.* On all buildings, structures, electrical, plumbing, mechanical and gas systems or alterations requiring a permit, a fee for each permit shall be paid as required at the time of filing application, in accordance with the schedule of fees and charges maintained by the city clerk and established by the mayor and council.

~~The multiplier for area adjustment shall be determined as follows:-~~

~~(Building services department budget)(% of budget provided by building permit revenue)-
divided by the total annual construction value (as determined by the previous fiscal year permit
valuations)-~~

~~For example: All budget numbers and construction values are based upon data from FY 2004-
—2005 for this example.—~~

~~Building services department budget is \$359,357.48.~~

~~Expected building permit revenue (building permits, reinspection fees, mobile home setup fees, demolition fees, and foundation only fees) is \$182,221.00 percent of budget provided by building permit revenue is 51 percent (\$182,221.00 divided by \$359,357.48).~~

~~Total annual construction value is \$45,010,091.56.~~

~~$(\$359,357)(51\%) = \$183,272.31$ then $\$183,272.31$ divided by $\$45,010,091.56 = 0.0041$.~~

~~Building permit fees shall be calculated as follows:-~~

~~$(\text{square foot of structure})(\$ \text{ value per square foot}) = (\text{number})(\text{multiplier for area adjustment}) = \text{building permit fee.}$~~

~~The dollar value per square foot is located within Table A of this chapter.~~

~~Plan review fees (commercial projects only) shall be calculated as follows:-~~

~~$(\text{building permit fee})(\frac{1}{2}) = \text{plan review fee}$~~

~~Remodel building permit fees shall be calculated as follows:-~~

~~$(\text{square foot of proposed remodel area})(\frac{1}{2} \text{ of dollar value per square foot}) = (\text{number})(\text{multiplier for area adjustment}) = \text{remodel building permit}$~~

~~The dollar value per square foot is located within Table A of this chapter.~~

~~Commercial shell only permit fees shall be calculated as follows:-~~

~~$(\text{square foot of structure})(\frac{1}{2} \text{ of dollar value per square foot}) = (\text{number})(\text{multiplier for area adjustment}) = \text{building permit fee}$~~

~~The dollar value per square foot is located within Table A of this chapter.~~

~~(e) — Building permit valuations. If, in the opinion of the building official, the valuation of building alteration, structure, electrical, gas mechanical or plumbing systems appears to be underestimated on the application, permit shall be denied, unless the applicant can show detailed estimates to meet the approval of the building official. Permit valuations shall include total cost, such as electrical, gas, mechanical, plumbing, equipment and other systems, including materials and labor. The permit valuation adjustment shall be limited to 25 percent of the calculated value determined by the building official. Building valuation data is included as Table A in this chapter.~~

~~(f) (e) Mechanical, electrical and plumbing permit fees. Calculated separately per schedule listed on each technical trade application type. Reference Table B for these.~~

~~(g) (f) Occupancy permit fees. \$25.00 When a new tenant occupies an existing space where no construction or remodeling is needed. A new inspection is required after approval from the Cobb County Fire Marshal.~~

~~(h) (g) Demolition permit fees. \$75.00 for any Demolition of a structure.~~

(h) *Reinspection fees.* These shall be calculated as follows: As set forth in the fee schedule adopted by the mayor and council and maintained by the city clerk.

(1) ~~First reinspection~~ \$25.00

(2) ~~Second reinspection~~ 50.00

(3) ~~Third reinspection~~ 75.00

(4) ~~All further reinspections shall be \$100.00 per reinspection.~~

(i) *Reserved.*

(k) ~~Foundation only permits. \$75.00 for any foundation only permit. The permit applicant will be proceeding at his/her own risk until the building permit has been issued.~~

(j) *House moving permit.* ~~\$75.00 for a~~ A permit is required to move or relocate any house or structure either within the City Limits of Kennesaw or outside of the City Limits of Kennesaw. All utilities must be disconnected prior to applying for this permit. All applicable agencies (Kennesaw Police, Kennesaw Public Works, Cobb DOT, Cobb Police, etc.) must approve prior to the house moving permit being issued by the building official.

~~(m)~~ (k) *Mobile home permits.* ~~\$75.00 for a mobile home set-up permit.~~ All applicable utility permits will be issued separately as outlined in ~~(f)~~ (e) above.

~~(n)~~ (l) *Construction trailer permit.* ~~\$50.00 for a construction trailer permit.~~ The zoning department must approve prior to the construction trailer permit being issued by the building official.

~~(o)~~ (m) Any person who violates the provisions of this article shall, upon conviction, be punished as provided in section 1-11, up to the maximum penalty allowed under state law. Each violation shall constitute a separate offense and each day that such violation continues shall constitute a separate offense.

LOCATION:

The 4.547 +/- acre tract lies at the intersection of Old 41 Hwy and N. Roberts Rd. Surrounding uses to the south zoned county General Commercial (GC), county Low Rise Office (LRO), county Light Industrial (LI) and county Heavy Industrial (HI) with various commercial and office uses including Advance Auto Parts, Loud Security Systems and LGE Community Credit Union. To the north and east are zoned county Light Industrial (LI) with the FedEx Ground Warehouse to the north and office uses to the east. To the west is currently zoned county General Commercial (GC) and county Tourist Services (TS) district with uses including a Shell gas station and Waffle House.

BACKGROUND:

In 2018, the site was rezoned from General Commercial (GC) to Planned Village Community (PVC). The intent of the rezoning was to develop a mixed-use development consisting of a four-five story hotel, two (2) one-story retail building consisting of approximately 22,000 sq. ft, three (3) four-five story multifamily buildings and two (2) office condominium buildings consisting of 9,750 sq. ft.

The applicant submitted a rezoning application in 2022 to amend the master plan approved in 2018. The application requested to replace the hotel requirement with a mixed-use development consisting of 12,000 sq. ft. of ground floor commercial component and multifamily with no more than 208 additional units. The request was approved by Mayor and Council on November 21, 2022 with added stipulations including outdoor plaza spaces, a parking deck with enough spaces to meet the minimum standards found in [section 6.06.09](#) for the multifamily units and square footage of either commercial retail, office and/or eating and drinking establishment and an eight foot multi-use trail.

PLANNED VILLAGE COMMUNITY(PVC)

The parcels were rezoned from General Commercial (GC) to Planned Village Community (PVC) in 2018. The Planned Village Community district is intended to create a vibrant, pedestrian-friendly commercial area within a village setting. The intent is to promote a mix of retail, dining and service businesses that fosters economic development and balances commercial needs with community focused development.

Per the [section 2.01.04](#) of the Unified Development Code, (1) Projects within the PVC should be designed to compact unified retail centers within the center of the community. (2) Projects developed within the PVC should occupy a quadrant of an intersection and only ingress and egress from a major or collector street or state highway. (3) Additionally, the desired quadrant location will provide for planned developments, one destination shopping, and service locations to serve [the] community, and to minimize traffic congestion.

FUTURE LAND USE CATEGORY

These areas provide services to the community but are not as intense as the Regional Activity Center.

FUTURE LAND USE ANALYSIS

The Comprehensive Plan designates the subject property to the property as Community Activity Center (CAC). The Community Activity Center category aims to meet the immediate needs of several neighborhoods or communities. Encouraged land uses include low to medium intensity office, retail, and commercial services. Community Activity Center land uses are primarily located adjacent to Cobb Parkway with a portion of the Moon Station Road included. Cobb Parkway is home to retail and commercial uses, including strip mall retail centers, automobile services, restaurants and motels.

AREA DESIGNATION

COBB PARKWAY COMMERCIAL CORRIDOR

The Cobb Parkway Commercial Corridor is the most significant commercial corridor in Kennesaw. This approximately two-mile-long section of highway runs southeast to northwest through the lower third of the city limits. The corridor's appearance and function has been affected by vacant structures or structures that are in disrepair. Generally, there are no unifying architectural features, gateways or impressionable spaces or buildings that identify this corridor with a unique sense of place that is characteristic of Kennesaw; however, several segments of this corridor show promise.

AREA DESIGNATION ANALYSIS

The site is located within the Cobb Parkway Commercial Corridor. According to the Area Policy Matrix outlined in the Comprehensive Plan, development in this area should encourage redevelopment projects on multi-parcel basis, encourage a diverse mix of products and services and maintain adequate building and landscaping setbacks that promotes safety and market visibility. The project proposed eliminating the office component of the development and shifting the placement of the retail component from Old 41 Hwy to N. Roberts Rd. The intent of a commercial corridor is to enhance economic development by creating a dynamic environment where businesses can thrive by providing accessible commercial spaces and promoting pedestrian-friendly spaces.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2024-04

ORDINANCE #2022-09 (PAGE 6 OF 11)

According to the Project's Multi-Family Developer and consistent with other information gleaned from the operational aspects of Multi-Family Communities in general, a parking ratio of 1.4 - 1.7 parking spaces per unit is sufficient for Multi-Family residents and guests. More specifically, Newport Developer Partners, LLC ("Newport") has stated that its last two Urban Multi-Family Communities were parked at 1.4 -1.41 parking spaces per unit, respectively. Newport's latest surfaced parked developed property is Aldridge Town Village, which is located just north of Town Center Mall. The parking ratio at that particular property is 1.50 for a Multi-Family Luxury Home Development at a density of 30 units per acre.

Ideally, the Multi-Family parking ratios which Newport currently uses provide 1.5 spaces for 1 bedroom homes, 1.75 spaces for 2 bedroom homes and 2.0 spaces for 3 bedroom homes. With Newport's anticipated mix of homes, that yields an overall ratio of 1.63 parking spaces per unit; however, alternatively, Newport also uses a ratio of 1.0 space per bedroom, which results in a 1.50 parking ratio per unit for its anticipated mix.

Evidently, current market indicators and trends are pointing in the direction of less parking rather than more parking particularly in light of ride services (such as Uber, Lyft, etc.) proliferating and the notable aversion of "millennials" concerning the ownership of cars makes sense of having less parking spaces for the overall development and less parking for the Multi-Family Community. Therefore, rather than establishing a "hardship" in connection with the granting of the requested parking ratio variances, it is important to note that the granting of said variances will not set an adverse precedent (and, in fact, are pointing the other way to the future) and do not impair the purpose, spirit and intent of the City's Zoning Ordinance regarding parking ratio requirements.²

16. Notwithstanding anything herein to the contrary, the maximum number of residential units shall not exceed 274 units and no more than 208 units for the proposed 4.316 +/- acre Mixed-Use Development.

17. Minor modifications to the within and foregoing stipulations/conditions, lighting, landscaping, signage, architecture, site fixtures and the like may be approved by the City's Planning and Zoning Administrator or his designee as needed or necessary.

18. In the event that Varner Developers does not close on the Subject Property; is determined to be undevelopable by Varner Developers; or, if at least one (1) developmental permit is not issued within a twenty-four (24) month period from the date of approval by the Mayor and City Council then the Subject Property's zoning classification shall revert to its current classification of GC without further action by the City of Kennesaw or the owner of the Subject Property.

19. Compliance with recommendations from the Manager of Cobb County International Airport ("McCollum Field") with respect to the height of buildings and construction equipment (such as cranes, etc.) utilized in connection with the construction of the Mixed-Use Development.

20. Recognizing the complexity, costs and developmental challenges associated with the development of Kennesaw Crossing, the City has indicated that it will consider

subsequent requests by Varner Developers, together with supporting documentation and evidence to sufficiently demonstrate:

- i. "But -for" the requested incentives, Varner Developers' project would have difficulty going forward;
- ii. Positive economic impact for the City of Kennesaw; and,

² Without a doubt, the consensus among Multi-Family Developers is that parking problems are untenable with the result being that proximity to the targeted demographics' luxury Multi-Family residences is much more important than the extra parking which historically goes unused. Finally, the positioning, configuration and number of parking spaces is a critical design issue inherent with all High-End Multi-family Communities and the Developers of those Communities.

- iii. Any other such material as may be reasonably required by the City of Kennesaw. However, nothing contained herein shall be construed to legally obligate the City of Kennesaw to provide any incentives for Varner Developers' proposed project.

21. Varner Developers agree to voluntarily convey and donate an easement in perpetuity to allow the construction of the Multi-Use Trail as shown on the revised site plan submitted concurrently herewith in order to ensure connectivity between Old Highway 41 and North Roberts Road, traversing the Subject Property, in order to ultimately connect to the Noonday Creek Trail System.

STAFF ANALYSIS:

The applicant, Fabric Housing Acquisition, LLC is requesting to amend the rezoning conditions on parcels 20017501190, 20017501210, 20017500210 & 20017400080. In 2018, Mayor and Council approved the rezoning of the parcels from General Commercial (GC) to Planned Village Community (PVC) with the intent of developing a mixed-used development. The proposal included a four-five story hotel, two (2) one story retail buildings consisting of approximately 22,000 sq. ft. retail commercial space, three (3) four-five story multi-family buildings consisting of 274 units and two (2) office condominium buildings consisting of a total of 9,750 sq. ft.

In 2022, the applicant received approval from Mayor and Council to amend the initial rezoning conditions eliminating the hotel stipulation from the development and replacing it with a mixed-used development to consist of:

1. Multi-family residential of type IIIA construction with a maximum number of 208 units with the average unit size consisting of 975 square feet.
2. A minimum of 12,000 square feet of ground floor retail commercial
3. Outdoor plaza spaces as shown on the site plan prepared by Niles Bolton Associates and dated on October 19, 2022. (Exhibit A, Please see page 31)
4. A minimum of 6,000 square feet for leasing and amenity space for the multifamily residential
5. A parking deck with enough spaces to meet the minimum standards found in section 6.06.09 for the number of multi-family units and the square footages of either commercial retail, office and/or eating establishments. Surface parking as shown on the site plan, may count towards meeting this requirement.
6. Pedestrian access points connecting the proposed mixed-use development with existing multi-family apartment.
7. An eight foot multi-use trail.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2024-04

The submitted application requests the elimination of ground retail from the proposed mixed used development fronting Old 41 Hwy and the relocation of the required 12,000 sq. ft. retail component to parcel with frontage on N. Roberts Rd. The new proposal includes eliminating the two office condominium buildings totaling 9,750 sq. ft. and reducing the number of proposed multifamily units from 208 to 120, with an average unit size of 954 sq. ft.

Old 41 Hwy falls within the Cobb Parkway Commercial Corridor intended to enhance economic development by creating a dynamic environment where businesses can thrive by providing accessible commercial spaces and promoting pedestrian-friendly spaces. The corridor aims to provide accessible commercial spaces and promote pedestrian-friendly areas. It is characterized by multi-parcel redevelopment projects that encourages a diverse mix of products and services while maintaining adequate building and landscaping setbacks to promote safety and market visibility.

Historically, the development pattern along both Cobb Parkway and Old 41 Hwy has been commercial, with office and retail services fronting both sides of these roadways. According to [section 2.01.04.08](#), the Planned Village Community (PVC) zoning district is intended for planned developments serving as destination shopping and service locations for the community and aimed at reduce traffic congestion.

Old 41 Hwy hosts a variety of retail and commercial uses, including retail centers, automobile services, restaurants and office spaces. The development of residential units along Old 41 would be contrary to the existing development pattern of retail, commercial, and office space currently in place; for these reasons, staff recommends denial of the proposed amendments to the master plan.

ZONING ADMINISTRATOR'S RECOMMENDATION: **DENIAL**

Based on the findings outlined in the analysis section of this staff report, City staff recommends **denial** to amend the zoning conditions as outlined in the request case #RZ2024-04.

PLANNING COMMISSION RECOMMENDATION:

The Planning Commission, at their regularly scheduled meeting on November 6, 2024 recommended approval of the request to amend the zoning conditions as outlined by the applicant with conditions that sidewalks be added along the frontage of Old 41 Hwy and N. Roberts Rd.

4. New Business

- A. **RZ2024-04** - Consideration to amend the zoning conditions for the property located at 2112 & 2114 Old 41 Hwy, and 1620 N. Roberts Rd (20017501190, 20017501210, 20017500210, 20017400080) as submitted by Fabric Housing Acquisitions, LLC. Said request is to amend the zoning conditions outlined in ordinances #2018-10 and #2022-09 to eliminate the ground floor commercial requirement and replace the two condominium buildings consisting of 9,750 sq. ft with the remaining 12,000 sq. ft of retail along N. Roberts Road. Property consists of 4.57 +/- acres and lies in land lot 174,175, 206, and 207 tax parcel 21, 121, 119, and 8.

Mr. Darryl Simmons approached the podium and stated Ms. Chanelle Campbell will be presenting this agenda item. He also stated he would be available to answer any questions from the Planning Commission or the public.

Ms. Chanelle Campbell introduced this agenda item; a rezoning application submitted by Fabric Acquisition Housing, LLC to amend the zoning condition from Ordinance #2018-10 and Ordinance #2022-09 on parcels located at 2112 and 2114 Old 41 Highway and 1620 North Roberts Road. Ms. Campbell shared that in 2018 the site was rezoned from General Commercial (GC) to Planned Village Community (PVC). The intent of the rezoning was to develop a mixed-use development consisting of a four to five-story hotel, two one-story retail buildings consisting of approximately 22,000 square feet, three four-to-five-story multi-family buildings, and two office condominium buildings consisting of approximately 9,750 square feet.

The construction of the multifamily development known as "The Ellison" was completed in 2021. The project consisted of three four-story buildings totaling 250 units with singular access from North Roberts Road. The same year, the construction of a 10,000 square foot retail building was completed on parcels fronting Old 41 Highway.

The applicant subsequently returned in 2022 to amend the master plan previously approved in 2018. The application at that time requested to replace the hotel requirement with a mixed-use development consisting of 12,000 square feet of ground floor commercial component and multifamily with no more than 208 additional units. The request was approved by Mayor and Council on November 21, 2022 with added stipulations to include outdoor plaza spaces, a parking deck, and an eight-foot multi-use trail.

The application before the Planning Commission today requests to eliminate the ground floor commercial requirement along Old 41 Highway, and place the remaining 12,000

square feet of required retail along North Roberts Road. The applicant is also requesting to eliminate the two-story office condominium building consisting of 9,750 square feet. The applicant additionally requests to construct a multifamily building consisting of 120 apartment units, which is less than what was approved in 2022, where the cap was 208 apartment units.

All the required public notice procedures were completed, including the placement of public notice signs on the property and an advertisement in the Marietta Daily Journal on October 18th.

Ms. Campbell noted that the ground retail component along Old 41 Highway will be eliminated in the revised plan. There is presently 10,000 square feet of retail that was developed as part of the mixed-use. The remaining 12,000 square feet of retail will be placed on North Robert Road as part of the new proposal.

Ms. Campbell continued her presentation and displayed the site plan submitted with the request for an amendment in 2022. The site plan detailed the multi-use trail, plazas, a parking deck, and a mixed-use component with retail on the ground floor.

Ms. Campbell stated that the development pattern along Cobb Parkway and Old 41 Highway has historically been commercial with office and retail services fronting both sides of the roadway. The intent of this area is to promote a mix of retail, dining services, and business that fosters economic development and balances commercial needs with community-focused developments. Because the development of a completely residential unit along Old 41 Highway would be contrary to the existing development pattern, staff recommends a denial of the proposal to amend the master plan that was approved back in 2022 with the remaining conditions from 2018.

Ms. Campbell announced that the applicants were present and will be able to answer any additional questions from the Planning Commission.

Chairman Jackson asked if the applicant wishes to make any additional comments.

Kevin Moore, representative of the applicant Fabric Housing, LLC., approached the podium and reintroduced the project, noting that the original approval in 2018 included a mixed-use development with a hotel, multifamily apartments, and retail, and that the 2022 amendment removed the hotel and replaced it with a multifamily building of 208 apartments, 12,000 square feet of ground floor retail, and an office component designated for 9,750 square feet.

Mr. Moore expressed that the applicant is looking at how the master plan can be executed successfully. He explained that the two parcels have been sitting vacant since the old cowboy shopping center was torn down and redevelopment began.

Due to changes in the market and economy, as well as the impacts from covid, the

office market has seen an increase in vacancy rate from a 7 percent vacancy rate to a 50 percent vacancy rate. Thus, building new offices next to already existing office spaces on North Roberts Road would not be economically feasible.

The 12,000 square feet of retail on fronting Old 41 Hwy has been marketed and has not received the reception it needs to be successful along Old 41 Highway. The applicant shared that the developers plan to reposition the 12,000 square feet of remaining retail to North Roberts Road so that it can be more successfully marketed. The project also downsized the entitled number of apartments from 208 to 120 units for consistency in the development.

Mr. Moore reiterated the applicant's belief in the necessity of a new vision for the redevelopment to ensure its completion. The applicant proposes relocating various elements of the master plan to more suitable locations while preserving key components approved by the Mayor and Council. These crucial elements include mixed-use areas, the multi-use trail, and plaza spaces, which were conditions of the master plan amendment in 2022.

Mr. Moore announced that John Gray of Fabric Housing, LLC is present and can speak to the overall vision, of the project. He also shares that Zack Gober from Lavista Associates, the broker and retail broker for the project, is present and can provide further details in response to any questions.

Mr. Moore respectfully requested the Planning Commission's recommendation of approval of this master plan amendment. He explained that while he understands staff's position there are other factors such as economics challenges that impacts the success of a project.

Chairman Jackson opened the floor to the public for comment. Hearing no public comment, Chairman Jackson closed the floor to public comment and opened the floor to Commissioner comments.

Vice Chair Bodenhamer asked if the overall retail square footage in the proposal was less than it was before and how it compares with the retail plus the office space component.

John Gray, CEO and Founder of Fabric Housing, LLC, approached the podium and explained that the originally approved retail space was 22,000 square feet. The total retail square footage remains the same, comprising 10,000 square feet of existing retail space and an additional 12,000 square feet to be developed along North Roberts Road.

Vice Chair Bodenhamer asked if the designated office component would be completely removed from the project.

John Gray confirmed that the designated office space is no longer part of the project.

Vice Chair Bodenhamer asked for clarification on whether or not the retail proposal would absorb the office square footage.

John Gray confirmed that the retail square footage would remain unchanged, while the overall commercial square footage would decrease by just over 9,000 square feet due to the elimination of the office component. He explained that with the current occupancy rate of 60 to 70 percent for the office condos to the southeast of the parcel on North Roberts Road, it would be inappropriate to construct new office buildings. He believes there is a better opportunity for retail. Additionally, he noted that having retail adjacent to the existing office park increases marketability and enhances walkability on the Cobb Commercial Corridor from the apartment community and office park.

Vice Chair Bodenhamer requested further explanation from staff regarding denial of the request.

Mr. Simmons approached the podium and explained that the role of Planning and Zoning staff in the rezoning process is to help guide not just the Boards and Mayor and Council, but also the development community. He shared that the applicant did their due diligence and met with the Plan Review Committee. During the meeting, staff shared other examples of successful mixed-use in the City of Kennesaw with ground floor retail and multifamily. He shared that staff acknowledge the hesitation for developing the office component, but he shared that staff provided additional uses such as medical, institutional, education and consulting that could benefit from the office space.

Mr. Simmons stated that due to prior concessions resulting in the elimination of the hotel for the development of mixed-used development along with the pre-existing pattern on Old 41 Highway established for retail, they stand on the approved Master Plan agreed upon by the applicant. Mr. Simmons explained the city has provided as much guidance as it can to promote the redevelopment, including agreeing to removing the hotel portion from the project.

Vice Chair Bodenhamer inquired whether staff's concern was related to the removal of the office component and the introduction of retail on North Roberts Road, or if it was about the lack of a retail component on Old 41 Highway. He also asked if staff would advise against retaining the proposed retail component on North Roberts Road while adding more retail on Old 41 Highway.

Mr. Simmons asked for further clarification.

Vice Chair Bodenhamer indicated that he was referring to placing retail on North Roberts Road, as proposed by the applicant, and adding ground floor retail on Old 41 Highway.

Mr. Simmons stated that staff is repeating the expectations from Mayor and Council and the City of Kennesaw back from 2018 to 2022, but expressed staff's openness to exploring the Vice Chair's suggestion.

Vice Chair Bodenhamer reiterated that he was exploring whether staff would agree to retail on North Roberts Road or if they wanted to keep retail on Old 41 Highway.

Mr. Simmons stated that staff always leaves the door open for solutions, and that the Vice Chair should direct his question to the applicant to see if they are amicable.

Mr. Gray shared that the master plan re-envisioned in 2022 had 10,000 square feet of retail on the ground floor of the proposed mixed-use apartment on Old 41 Hwy. Since its completion in 2021, one third of the existing 10,000 square foot retail building has remained vacant. He expressed that creating the mixed-use building became unappealing because they would be adding more retail in addition to retail that has not been successful in leasing.

Mr. Gray explained that some of the site's difficulty stems from the building being at the backside of a gas station and the Waffle House dumpster site. Retailers have expressed a lack of interest in being on the hidden side of Cobb Parkway where nobody is entering activated retail. This was part of the reasoning for moving the retail to the southeast portion of the master plan. Mr. Gray added that from a buildability perspective, the layout of the existing multifamily buildings would mean losing a quarter of the units to add more retail when the number of multifamily units has already been reduced by 42 percent going from 208 units to 120 units.

Vice Chair Bodenhamer noted that, although he is not involved in real estate or development, he speculates that the current retail building may be struggling due to the adjacent vacant parcel and the potential difficulty accessing the site with only one entrance. He suggested that if the area appeared more complete, it might attract more businesses.

Mr. Gray expressed that the accessibility is great for the 10,000 square foot building due to two entrances and surface parking at the front door of the space. He thinks it is a combination of the access and what's on the street that's prevented the leasability of the space.

Commissioner Trim requested the applicant provide further details on the vacancy rate for office uses.

Mr. Zack Gober, President of Lavista Associates, approached the podium and introduced himself and his brokerage firm. Mr. Gober explained that he ran an exercise on CoStar, a product that shows the availability of office space immediately to the east of the site and near Chastain Road, which includes approximately 30 buildings. The exercise showed 50 percent availability for office space on the market for lease and sublease. Mr. Gober conveyed that the office market is currently struggling, estimating that about 90% of office buildings are likely experiencing financial distress. Mr. Gober noted that placing the retail on North Roberts Road could serve as that walkability immediately to the office park.

Mr. Gober stated that Lavista Associates had been leasing this space since 2018; however, a new group took over leasing and they were also not able to get any leasing activity.

Chairman Jackson asked if there were additional comments from the commissioners. Hearing no further comments, Chairman Jackson called for a motion.

Commissioner Vande Zande made a motion to approve the zoning request as presented.

Seconded by Commissioner Ragus.

Mr. Simmons approached the podium to make an additional request if the Chairman would allow it.

Chairman Jackson agreed.

Mr. Simmons explained that if the Planning Commission decides to approve the request, the Public Works director, Ricky Stewart, requested the incorporation of sidewalk connectivity along the frontage of Old 41 Highway due to the change in use to residential. Mr. Simmons stated that the addition of sidewalks would continue the overall theme of connectivity throughout the development as it pertains to access to Old 41 Highway.

Commissioner Trim asked if the Planning Commission could add conditions as part of the rezone such as requiring each unit to have a pre-built grease trap.

Mr. Simmons responded that the relevant building and fire requirements will kick in based on use.

Commissioner Vande Zande asked if staff's request was to attach a condition to the motion requiring the installation of sidewalks along the Old 41 Highway. He asked where the sidewalks would lead.

Mr. Simmons responded that with new development, sidewalks are usually put along the frontage of the development.

Commissioner Vande Zande asked the applicant whether they would agree to the sidewalk condition.

Mr. Moore confirmed that they would be agreeable to installing new sidewalks along Old 41 Highway.

Commissioner Vande Zande retracted the first motion. He made a new motion to approve the zoning request with the condition of installing sidewalks along the frontage of the property. He asked Mr. Simmons if that was correct.

Mr. Simmons stated the sidewalk would be along Old 41 Highway and reiterated that the motion includes the removal of the office component on North Roberts as the applicant requested.

Commissioner Vande Zande asked if the sidewalks would extend to the North Roberts Road portion of the project.

Mr. Simmons confirmed.

Commissioner Vande Zande restated that the sidewalk will run from North Roberts Road to the end of the project on Old 41 Highway. He asked whether there is a trail head on Old 41 Highway.

Mr. Simmons stated that there is a previously approved trail that the sidewalk will tie into.

Chairman Jackson asked whether the sidewalk would be 8 feet or 5 feet.

Mr. Simmons stated that the minimum width is 5 feet, but staff would prefer wider sidewalks given the number of units to be added to the development. Depending on the engineering, curb cuts required to make the sidewalk safe, and space available, staff would prefer 8 feet sidewalks, but the minimum requirement is 5 feet.

Commissioner Vande Zande stated that he would not want to mandate 8ft. He stated that 5ft is the minimum requirement.

Chairman Jackson called for a motion.

Motion by Commissioner Vande Zande to approve with the condition that 5ft sidewalks be added along the frontage of Old 41 Highway and North Roberts Road.

Seconded by Commissioner Ragus.

Chairman Jackson proceeded with a roll call vote.

Vote taken, Commissioner Ragus, Commissioner Patterson, and Commissioner Vande Zande voted in favor. Vice Chair Bodenhamer and Commissioner Trim voted against.

Motion approved 3-2. Motion carried.

Mr. Simmons reiterated that the Planning Commission's recommendation will go to Mayor and Council for their November 18th meeting, at which time they will take action on this request. Mr. Simmons thanked Chairman Jackson.

- B. **MISC2024-03** - Consideration for approval of a text amendment request as submitted by the City of Kennesaw. Said request is to amend the Unified Development Code, Appendix A, " Unified Development Code" Section 2.03.00 and Section 8.04.00 of said chapters as submitted by the City of Kennesaw.

Mr. Simmons introduced this agenda item. This is a text amendment request submitted by the City of Kennesaw. Said request is to amend the Unified Development Code, Appendix A, "Unified Development Code," Section 2.03.00 and Section 8.04.00 of said chapters as submitted by the City of Kennesaw. This is a text amendment that will dissolve the Kennesaw Art and Culture Commission, which was put in place in 2013 to act as the approval and review arm for the City. The commission will be replaced with an Arts Programming Coordinator, which is a staff level position. An art advisory committee will be added and used, as needed, to assist staff to review. The purpose of this text amendment is to create a more efficient review process. Currently, anything approved for public art has to go through an extensive public notice process including the posting of signs and mailing of letters. Staff believes it would better serve the public to have a better, more efficient, and less arduous process. Staff took over a year looking at different models throughout the region, and came up with this language that went through our legal department. Staff believes this is a good solution to bring art programming downtown and create an easier process for local and national artists.

Vice Chair Bodenhamer disclosed that his wife served on the Kennesaw Arts and Culture Commission within the past year but no longer serves. He asked staff if there is a conflict of interest.

Mr. Simmons responded that there was not a conflict of interest.

Chairman Jackson asked if the purpose of the text amendment was to hire a new staff person.

Mr. Simmons responded that Ms. Vanita Keswani, who is acting as an art program coordinator for the city and possesses extensive experience in arts programming, will be appointed.

Chairman Jackson commented that he has enjoyed past art exhibits in Kennesaw and asks Mr. Simmons to introduce Ms. Keswani.

Mr. Simmons introduced the proposed Arts Programming Coordinator Ms. Vanita Keswani.

Ms. Vanita Keswani, Education and Exhibits Manager at Smith-Gilbert Gardens, approached the podium and introduced herself. Ms. Keswani shared her extensive background and experience in arts programming including creating a loan agreement program for Smith-Gilbert Gardens, growing partnerships with arts organizations in Metro Atlanta, exhibiting the works of professional artists at the gardens, and writing grants to provide stipends to artists. She noted that the current process, including the challenge of obtaining quorum for a commission meeting, adds additional time that can cause a loss of opportunities with partners.

Ms. Keswani provided additional details on the proposed text amendment. She shared

that there is a system for working with the City Manager's office and a committee created to ensure acquisitions are appropriate for the city and our community.

Chairman Jackson opened the floor to public comment. Hearing no public comment, Chairman Jackson opened the floor to Commissioner comments.

Commissioner Trim asked if the definition for "artist" in the proposed text amendment would exclude student artists.

Mr. Simmons stated that student artists can be added to the definition.

Vice Chair Bodenhamer inquired if the text amendment means public art applications are no longer brought before Mayor and Council.

Mr. Simmons responded that the proposed structure has applications going to the City Manager's office.

Vice Chair Bodenhamer further inquired if the approval process is shifting from approval by Mayor and Council to approval by the City Manager.

Mr. Simmons confirmed.

Ms. Keswani added that the ordinance provides staff with the ability to work with other departments. She explains that cooperating with other departments helps identify challenges and suggestions, which also improves the process.

Vice Chair Bodenhamer expressed that he is in favor of creating a more efficient process. He asked about the role of committee and how members are chosen.

Mr. Simmons responded that the committee is used as needed. Members would be appointed and approved by the City Manager's office. Members would have a background in art and programming. There is a structure on how to appoint an advisory committee, and they would meet as needed as determined by the coordinator.

Chairman Jackson asked for any additional comments or questions.

Chairman Jackson called for a motion.

- C. **PP2024-01** - Consideration for approval of a preliminary plat as submitted by Tyler Shoop located at 3057 N. Main Street (Parcel ID: 20012702300) for the

development of a 38 unit townhome community. The property is located on 5.98+/- acres, and lies in land lot 127, tax parcel 23.

Mr. Simmons introduced this agenda item. This is a preliminary plat application submitted by Tyler Shoop located at 3057 North Main Street for the development of 38 townhome units. This property is located on 5.9 +/- acres in land lot 127, tax parcel 23.

The total project is 14.34 +/- acres and was done in two phases. The completed first phase, titled "Cantrell Crossing," has 70 townhomes on 8.36 +/- acres. This preliminary plat is for part two of the master plan approved in 2018. This phase has 38 units, which will meet the overall density and unit restrictions and zoning conditions for the whole master plan. The preliminary plat identifies potential issues with the proposed streets, access, layout, and greenspace. It is not a recorded document, but it requires review and approval by the Planning Commission. This preliminary plat went through plan review committee, public works, stormwater, and planning and zoning and meets all of our requirements. Staff recommends approval of the Preliminary Plat.

Mr. Simons noted that all identified and labeled roads will remain private.

Chairman Jackson asked for clarification on the verbiage on a road being public or private.

Mr. Simmons explained that when a development constructs roads to city standards, the city can choose to accept the roads, known as a dedication, or allow them to remain private. In the case of this Preliminary Plat, the city and the public works department have decided not to accept these roads, preferring they remain private and be maintained by the HOA and residents.

Chairman Jackson asked if there will be requirements for improvements along Rutledge Road.

Mr. Simmons responded that Rutledge Road will be part of a future S.P.L.O.S.T project. It will not affect access to the proposed townhomes or to the existing Cantrell Crossing townhomes.

Mr. Simmons shared that the roads for phase 2 "Towns at Cantrell", will share the main circular road with phase 1 "Cantrell Crossing". Private roads will then connect to the 38 units. Access will not be compromised. There will still be access off Rutledge Road.

Chairman Jackson asked if the HOA has to maintain the private roads and if the roads must be maintained to a specific standard.

Mr. Simmons responded that the HOA has to maintain the roads. They are required to put it into their covenants, have access, and have appropriate financing for future upgrades and paving.

Chairman Jackson commented that there is already a desire for pedestrians to cross

North Main Street for Swift Cantrell and Pelican's Snoballs. He expressed concern that more development will attract more pedestrians, particularly children, and create an increased safety risk, especially given the lack of a playground on the preliminary plat.

Mr. Simmons explained that the preliminary plat includes a substantial amount of green space fronting North Main Street, available for residents to use, featuring a walking area, a track, and other pedestrian-friendly amenities. This greenspace also acts as a landscape buffer between the homes and North Main Street and is a specific amenity for the new tenants. The city of Kennesaw is evaluating long-term transportation solutions and options for Rutledge Road and Cathey Lane, given the presence of the multi-million dollar facility, Swift Cantrell, across the street. The city's goal is to accommodate pedestrians who wishes to visit the park.

Mr. Simmons informed the Planning Commission that a preliminary plat is not a public hearing.

Vice Chair Bodenhamer commented that he would like staff to look at the line of sight on Rutledge Road. He stated there are visibility issues when turning left onto Rutledge Road that may become more problematic with more development.

Mr. Simmons thanked the Vice Chair for his comment.

Vice Chair Bodenhamer asked if there are sidewalks along the development's side of North Main Street.

Mr. Simmons stated that there are sidewalks.

Vice Chair Bodenhamer asked if the sidewalks fronting North Main Street continue to Pelican's and if the sidewalks will be connected by a crosswalk.

Mr. Simmons responded that a crosswalk would be the City's responsibility and part of the transportation plan.

Vice Chair Bodenhamer commented that he would like staff to look at a way to get pedestrians across North Main Street safely. He noted that currently pedestrians have to walk down to a 4-way stop to access a crosswalk.

Commissioner Trim commented that the distance is too short from the closest crosswalk to justify installing another crosswalk.

Chairman Jackson commented that kids on skateboards are unwilling to travel far to cross the street.

Commissioner Trim commented that the distance is less than a mile and cautions against putting too many crosswalks in one spot. He referenced the crosswalks in front of Revival on South Main Street as an example.

Vice Chair Bodenhamer stated that he wants to ensure people get across the street safely because kids run across the street to Pelican's. He noted that it is an issue worth looking into.

Mr. Simmons responded that ensuring safe pedestrian crossing will be a key part of the solutions being considered for that area. As more programs are introduced at Swift Cantrell and redevelopment continues on North Main Street, the city plans to accommodate increased traffic and pedestrian movement.

Chairman Jackson asked if the preliminary plat needs to be approved by the Planning Commission.

Mr. Simmons confirmed the preliminary plat requires approval by the Planning Commission. He noted that the document is not recorded and is used to identify infrastructure and roads. He added that there is a final plat process that goes before Mayor and Council to establish property lines and fee simple lines for townhomes.

Chairman Jackson called for a motion.

Motion by Vice Chair Bodenhamer to approve

Seconded by Commissioner Trim.

Chairman Jackson proceeded with a roll call vote.

Vote taken, Motion unanimously approved 4-0. Motion carried.

5. Staff Comment

Mr. Simmons thanked the Commissioners for their service and notified the Commissioners that staff would send out notifications to any of the Commissioners whose term expires at the end of this year. Commissioners will be emailed and asked if they would like to continue to serve.

KENNESAW HISTORY

Kennesaw's First Bank

The first bank in Kennesaw was established in September 1908. Simply known as the Bank of Kennesaw, it counted some of the town's most prominent citizens among its founders. In fact, several of the founders served as mayor, and as such have photos inside the council chambers.

The arrival of the bank was seen as heralding a new era of prosperity for the community. It was also novel to some: the *Atlanta Semi-Weekly Journal* recorded in January 29, 1909 that J. T. Carrie, at sixty-two years old, had not "done any banking business" before he opened his account.

For the first two years, all was successful. However, in early 1910, a scandal emerged when it was revealed the bank's cashier had stolen \$10,000 and fled town. This eventually led to a manhunt, and, much later, a small siege on a Main Street House. The bank closed soon after the embezzlement was revealed. Two months later, in March 1910, a new bank was founded by many of the same individuals. This bank, the slightly larger Kennesaw State Bank, would remain open until 1952.

A NEW BANK.

As will be seen in the items from Kennesaw, Ga., in this issue, a new State bank is being organized at that thriving little town, the money being rapidly subscribed by the citizens there. Some of the most prominent citizens are identified with the movement.

John W. Bennett was elected president; J. G. Lewis, vice-president; B. H. Hill, secretary and treasurer. Directors—W. M. Webb, W. P. Whitaker, B. H. Hill, B. H. Carrie, J. H. McClure, Dr. J. W. Ellis and S. J. Baldwin.

This will give this splendid and growing town good financial facilities for all business purposes.

This will give to Cobb county six banks—one State bank at Marietta, one at Powder Springs, one at Roswell, one at Acworth and one at Kennesaw, and one National bank at Marietta.

3.4 Environmental Assessment: The inspections under Section 3.4 may include a non-invasive, complete Phase I environmental inspection of the Property (a “**Phase I**”) at Purchaser's expense, but no Phase II environmental inspection or other invasive inspection or sampling of soil or materials, including, without limitation, construction materials, shall be performed without the prior written consent of Seller, which may be withheld in Seller's reasonable discretion, and if consented to by Seller, the proposed scope of work and the party who will perform the work shall be subject to Seller's review and approval. If requested by Seller, Purchaser shall deliver to Seller copies of any Phase II or other environmental report to which Seller consents as provided above. Seller's consent shall not be required with respect to a customary and reasonable Phase I environmental audit and code compliance review of the Property except for any face-to-face meetings, at which Seller shall be given at least two (2) days prior notice and an opportunity to be present at any such meeting.

3.5 Termination of Agreement: If, on or prior to expiration of the Due Diligence Period, Purchaser finds the Property unsuitable for any reason, in Purchaser's sole discretion, Purchaser may terminate this Agreement by written notice to Seller on or before the expiration of the Due Diligence Period. which would appear in an Owner's Title Policy, if issued, accompanied by true, correct and legible copies of all recorded instruments affecting title to the Property, and committing to issue such Owner's Title Policy to Purchaser in the full amount of the Purchase Price. No later than thirty (30) days prior to the expiration of the Due Diligence Period (the "**Title Review Period**"), Purchaser may advise Seller in writing as to what exceptions, if any, shown on the Title Commitment or matters shown on the Survey, if obtained by Purchaser, are not acceptable to Purchaser (the "**Objections**"). Any matters shown or disclosed on the Title Commitment or the Survey to which Purchaser does not object in writing prior to expiration of the Title Review Period other than Monetary Liens (hereinafter defined) shall be Permitted Exceptions. Seller shall have five (5) business days after receipt of Purchaser's Objections to give Purchaser notice that (a) Seller will remove any Objections from title or cure any Objections related to survey matters (or afford the Title Company the necessary information or certifications to permit it to insure over such exceptions), at Seller's cost (provided that Seller shall have no obligation to cure or remove any Objections (or incur any cost to do so) except the Monetary Liens (defined below)), or (b) Seller elects not to cause such Objections to be removed or insured over or cured. If Seller so notifies that Seller will not cure, remove or cause the Title Company to insure over any or all of the Objections, Purchaser shall, prior to the expiration of the Due Diligence Period, determine whether (i) to proceed with the purchase and take the Property subject to such Objections (in which event the uncured Objections shall be Permitted Exceptions) or (ii) to terminate this Agreement in its entirety, and if so terminated, the Earnest Money shall promptly be refunded to Purchaser, and all rights and obligations of the parties under this Agreement shall expire except for obligations that expressly survive termination. Purchaser's failure to give Seller notice shall be deemed to be an election by Purchaser under clause (i). "**Permitted Exceptions**" shall mean: all title exceptions shown in the Title Report, all items shown on the final, updated Survey, zoning ordinances and regulations and other laws or regulations governing use or enjoyment of the Property; matters affecting title created by or with the consent of Purchaser; exceptions for easements, utility facilities, declarations and covenants affecting the Property or Improvements, liens to secure taxes and assessments not yet due and payable; provided that Permitted Exceptions shall not include, and Seller shall remove at Seller's sole cost and expense on or prior to the Closing Date, any liens for monetary obligations incurred by Seller. After the Effective Date, Seller agrees not to grant or otherwise create or consent to the creation of any easement, restriction, lien, assessment, encumbrance, or other matter materially or adversely affecting title to the Property or any portion or portions thereof except as agreed to by Purchase in writing, which such agreement shall not be unreasonably withheld.

4.2 Survey. No later than forty (40) days prior to the expiration of the Due Diligence Period, Purchaser, at Purchaser's sole cost and expense, may obtain a current or updated as-built survey of the Land and the Improvements (the "**Survey**") prepared and certified by a duly licensed engineer or land surveyor acceptable to Purchaser.

5. REPRESENTATIONS, WARRANTIES AND COVENANTS.

5.1 Seller's Representations and Warranties. Seller represents and warrants to Purchaser as follows (which representations and warranties shall be true and correct as of the date hereof and as of the Closing Date):

(a) Seller owns a fee simple interest in the Property and at Closing will convey or cause to be conveyed to Purchaser marketable fee simple title to the Property subject only to the Permitted Exceptions, in accordance with Section 4.1 hereof.

(b) Seller is a political subdivision of the State of Georgia and is authorized to transact business in the State of Georgia. The execution and delivery of, and Seller's performance under, this Agreement are within Seller's powers and authorized following approval by the Cobb County Board of Commissioners at a regular public meeting. The person executing this Agreement on behalf of Seller has the authority to do so. This Agreement constitutes the legal, valid and binding obligation of Seller enforceable in accordance with its terms. Performance of this Agreement will not result in any breach of, or constitute any default under, or result in the imposition of any lien or encumbrance upon the Property under, any agreement or other instrument to which Seller is a party or by which Seller or the Property might be bound.

(c) To the knowledge of Seller, there are no existing or pending litigation actions, or claims, with respect to any aspect of the Property nor have any such actions, suits, proceedings or claims been threatened or asserted.

(d) Seller has not received written notice of, nor are there, to the knowledge of Seller, any facts or circumstances which could give rise to any pending liens or special assessments against any of the Property by any governmental authority.

(e) To the knowledge of Seller, no tenant or other occupant and no other person, firm, corporation or other entity has any right or option to acquire the Property, or any part thereof, from Seller.

(f) To Seller's knowledge, Seller has not received, with respect to the Property, any written notice from any insurance company, governmental agency or any other party of (i) any condition, defect, or inadequacy affecting the Property that, if not corrected, would result in termination of insurance coverage or increase its cost, (ii) any violation of any restrictive covenant or deed restriction affecting the Property and any building codes and/or zoning ordinances or other Governmental Requirements (as defined in Section 13.1 (b) hereof), (iii) any pending or threatened condemnation proceedings, and (iv) any proceedings that could or would cause the change, redefinition, or other modification of the zoning classification, or of other legal requirements, applicable to the Property or any part thereof.

(g) To Seller's knowledge, there are no unpaid charges, debts, liabilities, claims or obligations arising from the construction, occupancy, ownership, use or operation of the Property which could give rise to any mechanic's or materialmen's or other statutory liens against any of the Property which will not be paid by Seller at the Closing, or for which Purchaser will be responsible.

(h) To the knowledge of Seller, without inquiry, the Property is in compliance with all restrictive covenants and deed restrictions affecting the Property.

(i) To Seller's knowledge, all water, sewer, electric, natural gas, telephone, drainage facilities and all other utilities required for the current use of the Property are installed to the Property, are connected with valid permits, comply with all Governmental Requirements and are adequate to service the Property for its current use.

(j) Seller has received no written notice of, and, to Seller's knowledge, there are not, any plans to widen, modify or realign any street or highway that would affect the Property.

(k) Seller is not a "foreign person" within the meaning of Sections 1445 and 7701 the Internal Revenue Code of 1986, as amended (hereinafter, the "**Code**").

(l) To the knowledge of Seller, the Property is not within any area determined by the Department of Housing and Urban Development to be flood prone under the Federal Flood Disaster Protection Act of 1973.

(m) During the time of Seller's ownership of the Property, Seller has not received written notice of the violation of any Hazardous Materials Laws or of the discharge of any Hazardous Materials on the Property in violation of Hazardous Materials Laws. To Seller's knowledge without investigation, no portion of the Property is presently being used for the disposal, storage, treatment, processing or other handling of Hazardous Materials in violation of Hazardous Materials Laws nor is there any Hazardous Material Contamination in violation of Hazardous Materials Laws. To Seller's knowledge without investigation, there are no underground storage tanks located on or under the Property.

5.2 Changed Conditions. At any time before Closing, if Seller shall obtain actual knowledge that any of Seller's Representations shall be untrue in any material respect at any time after the Effective Date because of events that have occurred thereafter which are beyond Seller's reasonable control or because of new information of which Seller has become aware (a "**Changed Condition**"), Seller shall promptly give Purchaser notice thereof. If Purchaser does not approve of the Changed Condition, Purchaser shall notify Seller of such disapproval and Seller shall have ten (10) days to attempt to cure the Changed Condition ("**Seller's Changed Condition Cure Period**"). If Seller is unable to so cure the Changed Condition through no fault of its own, or in the event Seller attempts to cure such Changed Condition but does not complete said cure for reasons outside its control, Seller shall not be in default, however, within ten (10) days after receipt of written notice by Seller that is unable to continue said cure or the expiration of Seller's Changed Condition Cure Period, Purchaser's sole right shall be to elect, by written notice given to Seller within ten (10) days after Purchaser's receipt of Seller's notice of the Changed Condition to terminate this Agreement, in which event the Deposit shall be refunded to Purchaser. Upon such termination, neither Party hereto shall have any further rights against, or obligations to, the other under this Agreement except those obligations expressly surviving a termination of this Agreement. If after receipt of notice from Seller of any Changed Condition or if after Purchaser otherwise obtains actual knowledge of a Changed Condition, Purchaser does not elect to terminate the Agreement as provided above, Purchaser shall be deemed to have waived any right to terminate the Agreement under this subsection with respect to the Changed Condition.

Knowledge Defined. References to the “knowledge” of Seller shall refer only to the actual knowledge, without investigation or inquiry, on the Effective Date and on the Closing Date, as applicable.

5.3 Purchaser's Representations and Warranties. Purchaser represents and warrants to Seller as follows (which representations and warranties shall be true and correct as of the date hereof and as of the Closing Date):

(a) **Organization and Authority.** Purchaser is a municipal corporation of the State of Georgia and is authorized to transact business in the State of Georgia. The execution and delivery of, and Purchaser's performance under, this Agreement are within Purchaser's powers and authorized following approval by the City of Kennesaw Council at a regular public meeting. The person executing this Agreement on behalf of Purchaser has the authority to do so. This Agreement constitutes the legal, valid and binding obligation of Purchaser enforceable in accordance with its terms.

(b) **Conflicts and Pending Action.** There is no agreement to which Purchaser is a party or, to Purchaser's knowledge, binding on Purchaser that is in conflict with this Agreement. There is no action or proceeding pending or, to Purchaser's knowledge, threatened against Purchaser that challenges or impairs Purchaser's ability to execute or perform its obligations under this Agreement.

(c) **Financing.** Purchaser shall have on the Closing Date immediately available funds in an amount sufficient to pay the Purchase Price to Seller and to consummate the transactions contemplated hereby.

6. CONDITIONS.

6.1 Conditions For Purchaser's Benefit. The obligations of Purchaser to consummate the transaction contemplated hereby are subject to the following conditions, any of which, if not fulfilled by the Closing or as otherwise provided herein, shall entitle Purchaser (at its option) to terminate this Agreement:

(a) The transactions contemplated under this Agreement to be effected on the Closing Date shall not have been restrained or prohibited by any injunction or order or judgment rendered by any court or other governmental agency of competent jurisdiction, provided that any such proceeding or action contemplated by this Section 6.1(a) shall not be deemed to include any proceeding or action brought by, through or under Purchaser.

(b) No material and adverse change shall have occurred, without Purchaser's written consent, in the state of title matters disclosed in the Title Commitment and the Survey which are not cured by Seller at or before the Closing.

(c) Seller shall have timely complied with its obligations hereunder.

(d) All warranties and representations made by Seller herein shall have been and remain truthful in all material respects.

(e) **Environmental Site Assessment.** Seller is not in possession of any Phase I and Phase 2 environmental reports. Purchaser, at Purchaser's expense, shall have the right to conduct Phase I (and II environmental site assessments if approved by Seller pursuant to the terms of Section 3.4 above) of the Property. In the event such environmental assessments indicate the presence on the Property of any hazardous substance, hazardous waste or other toxic substance or materials as defined by applicable federal, state or local laws or regulations ("**Hazardous Materials Contamination**"), Purchaser shall have the right to terminate the Purchase Agreement on or before the expiration of the Due Diligence Period.

6.2 Conditions for Seller's Benefit. The obligations of Purchaser to consummate the transaction contemplated hereby are subject to the following conditions which, if not fulfilled by the Closing Date or as otherwise provided herein, shall entitle Seller, at its option, to terminate the Agreement:

- (a) Purchaser shall have timely complied with its obligations hereunder.
- (b) All warranties and representations made by Purchaser herein shall have been and remain truthful in all material respects.

6.3 Conditions for Mutual Parties' Benefit. In the event the Board of Commissioners or the City of Kennesaw Council fails to approve this transaction prior to the expiration of the Due Diligence Period, this Agreement shall terminate automatically without further action of the Parties, whereupon the Earnest Money shall be refunded to Purchaser and the Parties shall have no further rights or obligations hereunder except those that explicitly survive termination of this Agreement.

7. CLOSING.

7.1 Closing. The closing of the transaction contemplated herein shall be held on the date which is thirty (30) days after the final day of the Due Diligence Period, or such other date as agreed to by the Parties, (the "**Closing Date**" or the "**Closing**"). (iv) All other documents or things reasonably required to be delivered to Purchaser by the Title Company to evidence Seller's ability to transfer the Property to Purchaser.

(v) An executed copy of Internal Revenue Service Form 1099 as required by the Tax Reform Act of 1986, and all regulations applicable thereto.

(vi) A Purchase and Sale Closing Statement.

(b) At the Closing, Purchaser, or its permitted assignee, shall do the following:

(i) Pay to the Seller the Purchase Price set forth in Section 2.1 by wire transfer in immediately available funds.

(d) The form of all documents to be executed and delivered by Seller and Purchaser at the Closing shall be agreed upon by Seller and Purchaser during the Due Diligence Period.

7.2 Delivery of Documents, Possession, Keys and Other Items. At the Closing, Seller shall provide Purchaser with the originals of all available documents in Seller's possession, if any, copies of which were provided to Purchaser pursuant to Section 3.2 hereof, shall deliver possession of the Property to Purchaser; shall provide Purchaser with all keys to the Property; and shall deliver to Purchaser all books and records pertaining to the Property in the actual possession of Seller, provided any internal records pertaining to Seller shall not be delivered. All such documents which are located at the Property may be delivered with the Property. Any other such documents shall be made available to Purchaser by Seller at a mutually convenient time and place.

7.3 Closing Costs. Purchaser shall pay the cost of the title search, title policy and Owner's Policy of Title Insurance. Purchaser shall pay all costs and expenses of platting or replatting the Property if such platting or replatting is required in connection with Purchaser's acquisition of the Property. All revenue stamps, transfer tax, and sales tax payable in connection with the sale contemplated by this Agreement shall be paid by Seller. Each party shall pay its own attorney's fees incurred in connection with the transaction which is the subject of this Agreement.

7.4 Possession. Purchaser shall be entitled to full and exclusive possession of the Property at the Closing, subject only to the Permitted Exceptions.

7.5 Brokers. Any brokerage fees and commissions related to the transaction on behalf of the Seller under this Agreement shall be paid by Seller. Any brokerage fees and commissions related to the transaction on behalf of the Purchaser under this Agreement shall be paid by Purchaser.

8. PRORATIONS.

8.1 Taxes. General real estate taxes, if any, for the then current year relating to the Property shall be prorated as of the Closing Date based on the 2024 tax assessment and rate and shall either be a credit or a charge against the Purchase Price as appropriate and consistent with the customary practice in the Metropolitan Atlanta area. All special taxes or assessments assessed prior to the Closing Date shall be paid by Seller and those assessed after the Closing Date shall be paid by Purchaser.

8.2 Survival. This Article 8 shall survive the Closing for one year.

9. SURVIVAL.

9.1 The Seller's Warranties set forth in Section 5.1 shall survive the Closing for a period of six (6) months (the "**Survival Period**"). Notwithstanding any provision to the contrary contained in this Agreement, no claim for a breach of any of Seller's Representations hereunder shall be actionable or payable (a) unless the valid claims for all such breaches collectively aggregate more than Twenty Five Thousand and No/100 Dollars (\$25,000.00), in which event the full amount of such valid claims shall be actionable, up to but not in the aggregate exceeding the amount of the Cap (as defined below), and (b) unless an action shall have been commenced by Purchaser against Seller within the Survival Period. As used herein, the term "**Cap**" shall mean the total aggregate amount of One Hundred Thousand and No/100 Dollars (\$100,000.00). In no event shall Seller's aggregate liability to Purchaser for breaches of Seller's Representations exceed the amount of the Cap. The provisions of this Section 9.1 shall survive the Closing (and not be merged therein).

10. FURTHER INSTRUMENTS.

Seller will, whenever reasonably requested by Purchaser; and Purchaser will, whenever reasonably requested by Seller, execute, acknowledge and deliver, or cause to be executed, acknowledged and delivered, and all conveyances, assignments and all other instruments and

documents as may be reasonably necessary in order to complete the transaction herein provided and to carry out the terms and provisions of this Agreement.

11. TERMINATION AND REMEDIES.

11.1 Seller's Default. If prior to or at the Closing, Seller defaults hereunder, then Purchaser's sole remedy shall be to either (a) terminate this Agreement, in which event Purchaser shall be entitled to the return of the Earnest Money or (b) enforce specific performance of Seller's obligation to execute and deliver the documents required to convey the Property to Purchaser in accordance with the terms and covenants of this Agreement. Purchaser shall be deemed to have elected subsection (a) above, if Purchaser fails to file suit for specific performance against Seller in a court having jurisdiction in the county and state in which the Property is located, on or before sixty (60) days following the date upon which Closing was to have occurred, provided however, in the event that full specific performance is unavailable as a remedy to Purchaser because Seller has conveyed the Property to a third party or Seller cannot fulfill its obligations to consummate the transaction pursuant to the terms of this Agreement, then Purchaser shall be entitled to bring an action against Seller for equitable relief and damages to the fullest extent permitted by law.

11.2 Purchaser's Default. If the Purchaser has not terminated this Agreement pursuant to any of the provisions hereof authorizing such termination, and Purchaser defaults hereunder, Seller's sole and exclusive remedy in such event shall be to terminate this Agreement and to retain the Earnest Money as liquidated damages. The parties acknowledge that Seller's actual damages in the event of a default by Purchaser under this Agreement will be difficult to ascertain and that such liquidated damages represent the parties' best estimate of such damages. Such retention of the Earnest Money by Seller is intended to constitute liquidated damages to Seller.

12. RISK OF LOSS, DAMAGE AND CONDEMNATION.

12.1 Risk of Loss. Except as otherwise provided herein, Seller shall bear the risk of loss with respect to the Property until the Closing.

12.2 Casualty Prior to Closing. If any time prior to the Closing any portion of the Property is destroyed or damaged by fire or any other casualty whatsoever, Seller shall give notice thereof to Purchaser. The rights and obligations of the Parties by reason of such destruction or damage shall be as follows:

- (a) If the "cost of repair and restoration" (as such term is defined in Section 12.3 below) of such destruction or damage shall be \$100,000 or less, and if the Due Diligence Period shall have expired (or at such time as it does expire) without the exercise by Purchaser of any right to terminate, this Agreement shall remain in full force and effect and the transactions contemplated by this Agreement, shall be effected with no further adjustment, except that upon the Closing, Purchaser shall receive a credit in the amount of any applicable insurance deductible (in the case of a casualty), Seller shall assign, transfer and set over to Purchaser any insurance proceeds that may thereafter be made for such damage or destruction.

(b) If the "cost of repair and restoration" of such destruction or damage shall exceed \$100,000, Purchaser may (i) proceed with the Closing with the damaged Property "AS-IS" and take an assignment of Seller's interest in any insurance proceeds and Seller shall credit Purchaser with Seller's deductible amounts, or (ii) terminate this Agreement and receive a refund of the Earnest Money, and the parties hereto shall be relieved of any further obligations or liabilities under the terms of this Agreement except as otherwise expressly provided herein.

12.3 Determining Cost of Repair. The term "**cost of repair and restoration**" shall mean an estimate of the actual cost of repair and restoration obtained by Purchaser (with Seller's cooperation), within twenty (20) days of receipt of notice from Seller of such destruction or damage, from a reputable contractor, reasonably acceptable to both Purchaser and Seller, regularly doing business in the Metropolitan Atlanta area. If the Closing Date is to occur within twenty-five (25) days of the occurrence of the casualty, the Closing shall be deferred by the amount of time required to obtain the cost of repair and restoration estimate.

12.4 Condemnation. Immediately upon obtaining actual knowledge of the institution of any proceedings for the condemnation of the Property or any portion thereof, Seller will notify Purchaser of the pendency of such proceedings. If Purchaser has not terminated the Agreement on or before the expiration of the Due Diligence Period, Purchaser may participate in any such proceedings, and Seller shall from time to time deliver to Purchaser all instruments reasonably requested by it to permit such participation. If (a) the whole or any part of the Property or any interest in the Property is taken by condemnation or right of eminent domain prior to the Closing (or if any such taking is threatened) and (b) in Purchaser's reasonable determination the Property is rendered unsuitable for Purchaser's intended use (or would be rendered unsuitable if the threatened taking occurs), at Purchaser's option this Agreement shall terminate. If Purchaser elects not to terminate this Agreement, the transaction contemplated by this Agreement shall be closed in accordance with the terms of this Agreement notwithstanding any such taking, but at the Closing, Seller shall pay to Purchaser any awards collected in connection with such taking and shall assign to Purchaser all of Seller's rights to collect any awards which thereafter may be payable as a result of, or to recover against others for, such taking.

12.5 Control Over Conflicting Statute. The provisions of this Article 12 shall control the rights and duties of the Parties, in lieu of any contrary provisions of any other law applicable to the Property and/or this Agreement.

13. PROVISIONS REGARDING HAZARDOUS SUBSTANCES.

13.1 Definitions. Unless the context otherwise specifies or requires, the following terms shall have the respective meanings herein specified:

(a) The term "**Hazardous Materials**" shall mean (i) any "hazardous waste" as defined by the Resource Conservation and Recovery Act of 1976 (42 U.S.C. Section 6901 et seq.), as amended from time to time, and regulations promulgated thereunder ("**RCRA**"); (ii) any "hazardous substance" as defined by the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. (d) The term "**Hazardous Materials Laws**" shall mean all Governmental Requirements, including, without limitation, RCRA and CERCLA, relating to the handling, storage, existence of or otherwise regulating Hazardous Materials.

14. NO ASSUMPTION.

Purchaser is not and is not to be deemed to be, a successor of Seller, it being understood that Purchaser is acquiring only the Property; and it is expressly understood and agreed that, except as may otherwise be expressly agreed to by Purchaser elsewhere in this Agreement and in the documents delivered at the Closing, Purchaser has not and does not hereby assume or agree to assume any liability whatsoever of Seller.

15. NOTICES.

The Initial Period and each Renewal Period will be automatically extended for subsequent one (1) year periods unless the CITY provides written notice to the Engineer of its intention to terminate this Agreement not less than sixty (60) days prior to the expiration of the then-current Period, or as otherwise set forth herein. This Agreement is subject to the multi-year contractual provisions of O.C.G.A 36-60-13(a). Subject to the renewal and termination provisions set forth herein, the Agreement shall terminate absolutely and without further obligation on the part of the City at the close of the calendar year in which it was executed and at the close of each succeeding calendar year for which it may be automatically renewed.

2. Rate. The Fee Schedule (Attachment 1) is agreed upon by the City and the Engineer.

3. Engineer Performance Standard - All services performed in connection with this Agreement shall be performed in a manner consistent with the standard of care applicable to those who specialize in providing such services for projects of the type, scope, and complexity of the Project.

4. Authority of the Engineer - The Engineer's authority to act on behalf of the City is limited to its scope of authority set forth in this Agreement and the agreement between the selected contractor and the City for construction of the project. Notwithstanding anything else stated in this Agreement or any of the contract documents, the Engineer does not have the express or implied authority to obligate the City to any expenditure of money or extension of contractual time periods, including, without limitation, any adjustment to the price or time of performance of any contract between the City and the selected contractor, separate contractor or City consultants or any other third persons or parties.

5. Ownership of Documents

a) Property of the City. The Engineer warrants that it shall be the author of the design documents prepared by it for the Project and that it holds the copyright therein, subject to the last sentence of this Section. All design documents prepared by the Engineer and its subconsultants, and the designs depicted in them, shall become upon their creation the property of the City whether the project is constructed or not. Without limitation to the foregoing, the City shall hold, and the Engineer shall be deemed to have irrevocably assigned to the City in perpetuity with no reserved or retained rights to the Engineer or to any other persons or entities, all copyrights to the design documents and to the designs depicted in them.

b) Use by the Engineer. The City hereby grants to the Engineer and its subconsultants a license, revocable at will by the City, to use and copy the design documents, and the designs depicted in them, during the term of this Agreement for the sole purpose of performing the services required under this Agreement. Except for (i) standard and generic details in the design documents and (ii) other designs or details that do not involve a replication of the overall building design or aesthetic appearance, the design

documents shall not be used or replicated as a whole, or in substantial part by the Engineer on other projects.

c) Use by City. The City may use the design documents, and the designs depicted in them, without the Engineer's consent, in connection with the project, including, without limitation, future additions, alterations, connections, repairs, information, reference, use or occupancy of the project. Any such use of the design documents without the Engineer's participation shall be at the City's sole risk. The Engineer shall not be responsible for losses arising from the City's modification of the documents without the Engineer's participation.

d) Termination. In the event of termination of this Agreement by either party for any reason, the City reserves the right to receive, and the Engineer shall promptly provide to the City, all drawings, specifications, models, and other design documents prepared to the date of termination by the Engineer and its subconsultants for the Project. The Engineer shall be permitted to retain copies, including reproducible copies, of the design documents for information and reference. Any dispute regarding the amount of any payment to be made by the City under this Agreement shall not diminish, restrict or limit the right of the City to own, receive and use the design documents, and the designs depicted in them. The City may withhold any payments due to the Engineer upon termination until all design documents prepared through the date of termination are furnished to the City.

6. Applicable Laws and Orders of Governmental Authorities. The Engineer shall, always, in its performance of its obligations under this Agreement, comply with all applicable laws and lawful orders of appropriate authorities and agencies. All design documents prepared by the Engineer and its subconsultants shall follow all applicable laws and lawful orders of appropriate authorities and agencies in effect on the date such design documents were created. The Engineer shall exercise professional care to keep informed and advise the City of possible changes in applicable laws and lawful orders of appropriate authorities and agencies that could affect the project and shall promptly inform the City of such changes in advance of their becoming effective. The Engineer shall provide all tasks and services required by the governing state and federal agencies for the successful completion of the project.

7. Approval by the City. Neither the review or approval of, nor any request for corrections to the design documents by the City, appropriate authorities and agencies or any other project team member shall be construed as relieving the Engineer of its responsibility for the suitability, completeness and coordination of the design documents prepared by the Engineer or its subconsultants. Any errors, omissions, or ambiguities in the design documents shall be resolved by the Engineer at no cost to the City.

8. Time of Essence. All time limits set forth in this Agreement pertaining to the Engineer's performance of any obligation or act relating to or for the benefit of the project are of the essence to this Agreement and shall not be exceeded by the Engineer.

9. Notice of Additional Services/Increase in Stated Cost Limitation.

a) The Engineer shall notify the City in writing within five (5) days after the discovery date of any circumstance (including without limitation, any direction or the City's representative's request) that the Engineer believes may give rise to additional services. The Engineer waives the right to compensation for additional services performed without prior written approval by the City that expressly acknowledges that such service is an additional service.

b) The Engineer shall notify the City in writing within five (5) days after the discovery date of any circumstance (including, without limitation, any direction or request by the City's representative) that the Engineer believes may cause an increase in the stated cost limitation.

10. Additional Services. The Engineer shall provide additional services germane to this Agreement when authorized by the City in writing. Compensation shall be as set forth in the agreed upon in the Fee Schedule.

11. City Approvals. Approval by the City of design documents prepared by the Engineer or its subconsultants (i) shall not relieve the Engineer or its subconsultants of their sole responsibility for the completeness, coordination or suitability of the design documents, and (ii) shall not constitute acceptance or approval of any revision to the project program unless the Engineer informs the City in writing at the time of seeking such approval that it is requesting approval of a revision to the program and the City thereafter issues approval of such change in writing. All City approvals or decisions that involve changes to the program, the Engineer's compensation (including, without limitation, compensation for additional services or any reimbursable expenses), or time for performance by the Engineer (including, without limitation, changes in the project schedule) must be approved by the City in writing.

12. Surveys, Services and Reports.

a) Surveys, Legal Restrictions. The Engineer shall conduct and provide an engineering survey and topography of the project site(s), giving (as applicable) grades and lines of existing improvements (such as structures, streets, alley, pavement), rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the site. The City shall supply information in the City's possession concerning available service and utility lines, both public and private.

b) Geotechnical. The City shall furnish geotechnical data and reports or employ specialty consultants to provide such data or reports, when reasonably deemed necessary by the Engineer, including test logs, soil classifications, soil bearing values and other data and information necessary to define subsoil conditions.

c) No Warranty by the City. Although the Engineer shall be entitled to rely upon the accuracy and sufficiency of data, reports or other information furnished by the City pursuant to performing its obligations under this Agreement, the City shall have no

liability to the Engineer, other than as permitted by this Agreement for authorized additional services, in the event that such data, reports or other information are found to be inaccurate, incomplete, or insufficient.

d) Notice of Defects. The City and the Engineer shall each provide prompt written notice to the other party if either becomes aware of any defect or deficiency in the project or nonconformance with the contract documents.

e) Appropriate Authorities and Agencies. The City shall pay all fees required by any local, state or federal agency for filing and checking any of the design documents of the Engineer or its subconsultants and for building and related permits required by government authorities.

13. Accompanying Documentation. Each invoice for payment for services, including additional services, shall include documentation verifying the amounts of additional services and reimbursable expenses for which reimbursement is sought in the invoice for payment.

14. Time for Payments. Payments of undisputed sums due shall be made by the City within thirty days (30) days after receipt of an invoice for payment that has been properly and timely prepared and submitted in accordance with this agreement and accepted by the City. No payment to the Engineer shall be deemed an acceptance of work not completed in accordance with this Agreement. Final payment of sums due to the Engineer pursuant to an invoice for payment prepared and submitted by Engineer in accordance with the requirements of this Agreement shall be made by the City to the Engineer no later than forty-five (45) days after final completion of the project. Making such final payment by the City shall not release or limit the Engineer's obligation to perform those basic or additional services that are required by this Agreement.

15. Payment Disputes and Withholding by the City. The City shall have the right, after written notice to Engineer, to withhold from payment to the Engineer any amounts in dispute, including without limitation any losses incurred by the City due to design defects in the design documents prepared by the Engineer or its subconsultants or a failure by the Engineer to perform any obligation under this Agreement. Such withholding shall not constitute a final determination or waiver of any rights or liabilities of the City or the Engineer with respect to responsibility for such loss, which rights and liabilities shall remain subject to determination in accordance with this Agreement. The Engineer shall continue the performance of its services pending final determination of disputes relating to such withholding. The Engineer shall not be entitled to any interest on any funds that are withheld.

16. Inspection by the City.

a) Records. The Engineer and its subconsultants shall maintain complete and accurate books and records with respect to services, costs, expenses, receipts and other information necessary to verify the scope or charges for any services provided under this Agreement. The Engineer and its subconsultants shall maintain such records in

sufficient detail to permit the City, the City's independent auditors or a designee of any of them, to thoroughly evaluate and verify the nature, scope, value, and charges for services performed under this Agreement. All such books and records shall be maintained in accordance with generally accepted accounting principles and shall be clearly identified and readily accessible. Such records shall be kept separate from other documents and records unrelated to the project for a period of four (4) years after the termination of this Agreement or final completion of the project.

b) Audit. The City, the City's independent auditors, or designee of any of them, shall have the right to examine and to audit books, records, documents, and other evidence sufficient to reflect properly all costs and expenses claimed to have been incurred by the Engineer and its subconsultants' performance of this Agreement, including, without limitation, verification of the amounts and tasks performed for all time expended that are charged to City on an hourly basis. Such a right to audit shall include inspection at all reasonable times at the Engineer's offices or facilities. In addition, the Engineer shall, at no cost or expense to the City, furnish facilities and cooperate fully with the audit. Upon request, the Engineer shall provide reproducible copies of books, records and other documents in the possession of the Engineer and its subconsultants that are applicable to this Agreement for reproduction by the City or its designee.

c) Reimbursement. To the extent that an audit by the City, the City's independent auditors, or a designee of any of them, discloses excess charges inaccurately or improperly attributed to this Project by the Engineer, the Engineer agrees to remit the amount of the overpayment to the City within five (5) days after demand.

17. Termination by City.

a) For Cause. If the City determines the Engineer has failed to perform according to the Agreement, the City may terminate all or part of the Agreement for cause upon seven (7) days written notice.

b) For Convenience. The City may terminate or suspend performance of all or part of this Agreement for convenience and without cause anytime upon ten (10) days written notice to the Engineer, in which case the City will, within forty-five (45) days after receipt and the City's acceptance of the invoice, pay the Engineer an amount calculated in accordance with this Agreement for all basic services and authorized additional services, and all authorized reimbursable expenses incurred, up to and including the effective date of termination.

c) Termination of Payments. The Engineer payments, if there are any, made pursuant to this section shall be the Engineer's sole and exclusive compensation and the City shall have no liability to the Engineer for any other compensation or damages, including without limitation, anticipated profits, or prospective losses or consequential damages, of any kind.

d) Deletion of Services. In the event of termination by the City, for cause or convenience, of a portion of the project or a portion of the basic services, then the

Engineer's fixed compensation for basic services for the portions of the project or basic services not so terminated shall be adjusted to reflect the resulting reduction in Engineer's scope of basic services.

18. Payment Contingent on Furnishing All Design Documents. No payment shall be due the Engineer following termination of this Agreement until the Engineer provides the City with all design documents in its possession or control.

19. Indemnification.

a) Indemnification by the Engineer. To the fullest extent permitted by law, the Engineer shall indemnify and hold harmless the City, and each of its elected officials, directors, officers, agents, attorneys, and employees ("Indemnitee(s)"), from and against any and all claims, demands, actions, suits, damages, liabilities, losses, settlements, judgments, costs and expenses (including but not limited to reasonable attorney's fees and costs), whether or not involving a third party claim, which arise out of or relate to any act or omission of Contractor or arising from any of the following:

1) Any negligent or actual act or omission of the Engineer or its subconsultants or any person or entity for whose acts or omissions any of them may be liable;

2) Infringement upon any United States patent, trademark or copyright arising out of the actual or negligent alleged acts or omissions of the Engineer or any of the Engineer's subconsultants/subcontractors, in connection with performance of this Agreement; provided however, that nothing herein shall be interpreted as obligating the Engineer to indemnify any indemnitee against indemnitee's sole negligence.

20. Responsibility of Subconsultants/Subcontractors. The Engineer shall be fully responsible to the City for the acts and omissions of its subconsultants/subcontractors, and of persons either directly or indirectly employed by them, as they are for the acts and omissions of persons directly employed by the Engineer. The Engineer shall insert appropriate provisions in all subcontracts relative to the work to require compliance by each subconsultant/subcontractor with the applicable provisions of this Agreement. Nothing contained in this Agreement shall create any contractual relationship between any subconsultants/subcontractor and the City.

21. Dispute Resolution. The parties shall utilize each of the following steps in the dispute resolution process in the sequence in which they appear below. Each party shall participate fully and in good faith in each step, in which good faith effort shall be a condition precedent to the right of each party to proceed to the next step.

a) Direct Negotiations. Designated representatives of the City and the Engineer shall meet as soon as possible (but not later than ten (10) days after receipt of the other party's statement of dispute, containing a detailed explanation of the claim) in a good faith effort to negotiate a resolution to the claim. Each party shall be represented in such negotiations by an authorized representative with full knowledge of the details of the claim or defenses being asserted by such party, and with full authority to resolve

such claim then and there, subject only to the City's right and obligation to obtain approval of any agreed settlement or resolution by the Mayor and City Council. If the claim involves the assertion of a right or claim by a third party (e.g., the contractor) against the Engineer that is in turn being asserted by the Engineer against the City, then such third party shall also have a representative attend such negotiations, with the same authority and knowledge as just described. Upon completion of the meeting, if the claim is not resolved, the parties may either continue the negotiations or either party may declare negotiations ended. All discussions that occur during such negotiations and all documents prepared solely for the purpose of such negotiations shall be confidential and privileged.

b) Litigation. If the direct negotiations between the Engineer and the City do not resolve the dispute, then the party asserting the claim shall have the option to initiate a lawsuit in the Superior Court of Cobb County, Georgia. Venue and jurisdiction over all disputes under this Agreement shall lie exclusively in the Superior Court of Cobb County, Georgia.

22. Non-Discrimination. It is the policy of the City that in connection with all the Engineer services rendered that there be no discrimination against any prospective or active employee because of sex, race, color, ancestry, religious creed, national origin, physical disability, mental disability, medical condition, age, marital status, sexual orientation, political belief or affiliation or to deny family care leave. Therefore, the Engineer agrees to comply with applicable Federal and Georgia laws including, but not limited to Title VII or the Civil Rights Act of 1964, as amended; the Civil Rights Act of 1991; The Americans with Disabilities Act of 1990; Age Discrimination Act of 1975 and Rehabilitation Act of 1973 (Section 504). In addition, the Engineer agrees to require compliance with this provision by all subconsultants/subcontractors employed by the Engineer on the project.

A waiver by either party to this Agreement of any breach of any term, covenant, or condition contained herein shall not be deemed to be a waiver of any subsequent breach of the same or any other term, covenant, or condition contained herein whether of the same or a different character. The City's approval, acceptance, use, or payment for any part of the Engineer's services shall not in any way alter any obligations, or waive any of the City's rights, under this Agreement.

The Engineer shall not engage in or permit any public references or statements to the project, the City or Engineer's services hereunder, including without limitation, granting interviews to broadcast, print or other media, without the prior written consent of the City, which may be granted or withheld, per the sole discretion of the City. The Engineer shall instruct all employees of the foregoing confidentiality obligation.

30. Independent Contractor. The Engineer is and shall always remain with the City as a

wholly independent contractor. Neither the City nor any of its agents shall have control over the conduct of the Engineer or any of Engineer's officers, agents or employees, except as herein set forth. 33. Cost Principles. The Engineer agrees to charge standard industry rates for any reimbursable project related expenditure.

34. Interpretation. The Engineer and City acknowledge that the terms of this Agreement have been mutually negotiated and, accordingly, shall not be interpreted against either City or Engineer on the basis that either party was solely responsible for or in control of the drafting of this Agreement.

35. Advertising. The Engineer may not use the City's name or refer to the City or the project, directly or indirectly in promotional materials, advertisement, news release, or release to professional or trade publication without obtaining the City's prior written approval.

36. Electronic Documents. In the event of any conflict between a document contained in an electronic file and the hard copy of such document maintained in the files of the City or Engineer, the most recently dated document will prevail.

37. Governing Law. This Agreement shall be governed by and interpreted in accordance with laws of the State of Georgia.

38. Key Personnel. The City shall have the right, in its absolute discretion, to require the removal of the Engineer or its subconsultant's personnel at any level assigned to or hired for the performance or the work hereunder if the City considers such removal in its best interests and directs such removal in writing to the Engineer. Upon receipt of such direction by the City, the Engineer shall immediately remove personnel.

39. Conflict of Interest. The Engineer represents that it has no existing financial interest and will not acquire any such interest, direct or indirect, which could conflict in any manner or degree with the performance of services required under this Agreement and

that no person having any such interest shall be subcontracted in connection with this Agreement or employed by the Engineer. The Engineer shall not conduct or solicit any non-City business while on City property or time. The Engineer will also take all necessary steps to avoid the appearance of a conflict of interest and shall have a duty to disclose to the City prior to entering into this Agreement all circumstances existing at such a time which pose a potential conflict of interest. The Engineer warrants that it has not directly or indirectly offered or given, and will not directly or indirectly offer or give, to any employee, agent, or representative of City any cash or non-cash gratuity or payment with a view toward securing any business from the City or influencing such person with respect to the conditions, or performance of any agreements with the City, including without limitation this Agreement. Any breach of this warranty shall be a material breach of each and every agreement between the City and Engineer. Should a conflict of interest issue arise, the Engineer agrees to fully cooperate in any inquiry and to provide the City with all documents or other information reasonably necessary to enable the City to determine whether or not a conflict of interest exists. Failure to comply with the provisions of this section shall constitute grounds for immediate termination of this Agreement, in addition to whatever other remedies the City may have.

40. Counterparts. The parties may execute this instrument in two or more counterparts, which shall, in the aggregate, be signed by both parties. Each counterpart shall be deemed an original instrument as against any party who has signed it.

that is available to any of your "employees" for "bodily injury" that arises out of providing or failing to provide "incidental medical services" to any person to the extent not subject to Paragraph 2.a.(1) of Section II – Who Is An Insured.

K. MEDICAL PAYMENTS – INCREASED LIMIT

BLANKET ADDITIONAL INSURED – WRITTEN CONTRACTS (ARCHITECTS, ENGINEERS AND SURVEYORS)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

1. The following is added to SECTION II – WHO IS AN INSURED:

Any person or organization that you agree in a "written contract requiring insurance" to include as an additional insured on this Coverage Part, but:

- a. Only with respect to liability for "bodily injury", "property damage" or "personal injury"; and
- b. If, and only to the extent that, the injury or damage is caused by acts or omissions of you or your subcontractor in the performance of "your work" to which the "written contract requiring insurance" applies. The person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

The insurance provided to such additional insured is limited as follows:

- c. In the event that the Limits of Insurance of this Coverage Part shown in the Declarations exceed the limits of liability required by the "written contract requiring insurance", the insurance provided to the additional insured shall be limited to the limits of liability required by that "written contract requiring insurance". This endorsement shall not increase the limits of insurance described in Section III – Limits Of Insurance.
- d. This insurance does not apply to the rendering of or failure to render any "professional services" or construction management errors or omissions.
- e. This insurance does not apply to "bodily injury" or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless the "written contract requiring insurance" specifically requires you to provide such coverage for that additional insured, and then the insurance provided to the additional insured ap-

plies only to such "bodily injury" or "property damage" that occurs before the end of the period of time for which the "written contract requiring insurance" requires you to provide such coverage or the end of the policy period, whichever is earlier.

2. The following is added to Paragraph 4.a. of SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS:

The insurance provided to the additional insured is excess over any valid and collectible "other insurance", whether primary, excess, contingent or on any other basis, that is available to the additional insured for a loss we cover. However, if you specifically agree in the "written contract requiring insurance" that this insurance provided to the additional insured under this Coverage Part must apply on a primary basis or a primary and non-contributory basis, this insurance is primary to "other insurance" available to the additional insured which covers that person or organization as a named insured for such loss, and we will not share with that "other insurance". But this insurance provided to the additional insured still is excess over any valid and collectible "other insurance", whether primary, excess, contingent or on any other basis, that is available to the additional insured when that person or organization is an additional insured under any "other insurance".

3. The following is added to SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS:

Duties Of An Additional Insured

As a condition of coverage provided to the additional insured:

- a. The additional insured must give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:

- i. How, when and where the "occurrence" or offense took place;
 - ii. The names and addresses of any injured persons and witnesses; and
 - iii. The nature and location of any injury or damage arising out of the "occurrence" or offense.
- b. If a claim is made or "suit" is brought against the additional insured, the additional insured must:
 - i. Immediately record the specifics of the claim or "suit" and the date received; and
 - ii. Notify us as soon as practicable.The additional insured must see to it that we receive written notice of the claim or "suit" as soon as practicable.
- c. The additional insured must immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.
- d. The additional insured must tender the defense and indemnity of any claim or "suit" to

any provider of other insurance which would cover the additional insured for a loss we cover. However, this condition does not affect whether this insurance provided to the additional insured is primary to that other insurance available to the additional insured which covers that person or organization as a named insured.

4. The following is added to the **DEFINITIONS** Section:

"Written contract requiring insurance" means that part of any written contract or agreement under which you are required to include a person or organization as an additional insured on this Coverage Part, provided that the "bodily injury" and "property damage" occurs and the "personal injury" is caused by an offense committed:

- a. After the signing and execution of the contract or agreement by you;
- b. While that part of the contract or agreement is in effect; and
- c. Before the end of the policy period.

STATEWIDE MUTUAL AID AND ASSISTANCE AGREEMENT

County/Municipality: City of Kennesaw, GA

The State of Georgia is vulnerable to a wide range of natural and man-made disasters and emergencies. The Georgia Emergency Management Act, as amended (The Act) gives the local governments of the State the authority to make agreements for mutual aid assistance in emergencies. Pre-existing agreements for mutual aid assistance in emergencies help to ensure the timely provision of mutual aid assistance and the reimbursement of costs incurred by those parties who render such assistance.

This mutual aid agreement is entered pursuant to authorities contained in Articles I through III, Chapter 3, Title 38, Official Code of Georgia Annotated.

ARTICLE I STATEMENT OF AGREEMENT, DEFINITIONS AND AUTHORITIES

For purposes of this Agreement, the following terms and expressions shall apply:

- (1) "Agreement" means this agreement, generally referred to as the "Statewide Mutual Aid Agreement" (SWMAA).
- (2) "Assistance" includes personnel, equipment, facilities, services, supplies and other resources furnished to a Requesting Party pursuant to this Agreement during an emergency or disaster.
- (3) "Assisting Party" means a party that provides assistance pursuant to this Agreement during an emergency or disaster.
- (4) "Authorized Representative" means a Participating Party's elected or appointed official or employee who has been authorized in writing by that party to request, to offer, or otherwise to provide mutual aid assistance.
- (5) "Participating Party" means a county or municipality of the State of Georgia that has become party to this Agreement by its approval and execution of this agreement.

- (7) "Requesting Party" means a party that requests assistance pursuant to this Agreement during an emergency or disaster.

Any term or expression not defined in this Agreement shall have the meaning specified in the Georgia Emergency Management Act, as amended (the Act) and rules promulgated thereunder, unless used in a context that clearly suggests a different meaning.

ARTICLE II GENERAL PURPOSE

The purpose of this Agreement is to:

1. Provide the framework to support mutual assistance in managing an emergency or disaster occurring within any political subdivision that is a Participating Party, whether arising from natural disaster, technological hazard, human caused disaster, civil emergency, community disorders, insurgency, enemy attack, acts of terrorism, other significant events or homeland security activity; and
2. Identify those persons who are authorized to act on behalf of the Participating Party signing this Agreement as their Authorized Representative(s) concerning the provision of mutual aid resources and requests for mutual aid resources related to any mutual aid assistance sought from another Participating Party, or from or through the State of Georgia. Appendix A of this Agreement shall contain the name(s) of the Participating Party's Authorized Representative for purposes of this Agreement. Appendix A can be amended by the authorizing Participating Party as needed with no effect on the entire Agreement. All such amendments to Appendix A shall be done in writing and the Participating Party shall notify GEMA/HS and all other Participating Parties of such amendment within thirty (30) days.

ARTICLE III ACKNOWLEDGEMENT OF PRINCIPLES

The prompt, full and effective utilization of resources of the Participating Parties, including any resources on hand or available from the State or Federal Government or any other source, that are essential to the safety, care and welfare of the people shall be the underlying principle on which all articles of this Agreement shall be understood.

In the event of a conflict between any provision of this Agreement and any existing intrastate mutual aid agreement affecting a Participating Party, the provisions of this Agreement shall be controlling.

On behalf of the governing authority of each political subdivision of this State participating in the Agreement, the director of emergency management of such political subdivision will be responsible for formulation of the appropriate mutual aid plans and procedures necessary to implement this Agreement.

ARTICLE IV PARTICIPATING PARTY RESPONSIBILITIES

(a) It shall be the responsibility of each Participating Party to formulate procedures and programs for intergovernmental cooperation in the performance of the responsibilities listed in this Article. In formulating such plans, and in carrying them out, each Participating Party, insofar as practical, shall:

- (1) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services, and resources, both human and material; and

(2) Inventory and set procedures for the loan and delivery of human and material resources, together with procedures for reimbursement.

(b) Whenever a Participating Party requires mutual aid assistance from another Participating Party and/or the State of Georgia, the Requesting Party may request assistance by:

(1) Contacting the Participating Party who is the owner/operator/employer of the supplies, equipment and/or personnel being sought for mutual aid assistance (the Assisting Party); or

(2) Contacting GEMA/HS to serve as the facilitator of such request for those resources being sought for mutual aid that are owned/operated/employed by Participating Parties (where such Participating Parties have submitted a record of those resources to GEMA/HS for such use); and/or, when such resources being sought for mutual aid are owned/operated/employed directly by the State of Georgia.

The provisions of this Agreement shall only apply to requests for assistance made by an Authorized Representative. Requests may be verbal or in writing. If verbal, the request must be confirmed in writing within 30 days of the verbal request. Requests shall provide the following information:

The Assisting Party will (a) maintain daily personnel time records, material records and a log of equipment hours (or miles, if appropriate) and (b) report work progress to the Requesting Party at mutually agreed upon intervals.

ARTICLE V LIMITATIONS

Any Participating Party requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this Agreement in accordance with the terms hereof; provided that it is understood that the Participating Party who is asked to render aid may withhold resources to the extent necessary to meet the current or anticipated needs of the Participating Party's own political subdivision to remain in compliance with such Participating Party's policy, rule or law.

The Assisting Party's mutual aid resources will continue under the command and control of their own

supervisors, but the organizational units will be under the operational control of the emergency services authorities of the Requesting Party unless the Assisting Party approves an alternative.

In the event the Governor should declare a State of Emergency, any and all provisions of this Agreement which may conflict with the declared State of Emergency shall be superseded by the terms and conditions contained within the State of Emergency.

ARTICLE VII RIGHTS AND PRIVILEGES

In accordance with O.C.G.A. § 38-3-30(a), whenever the employees of any Assisting Party or political subdivision are rendering outside aid pursuant to this agreement and the authority contained in Code Section 38-3-27, the employees shall have the same powers, duties, rights, privileges and immunities as if they were performing their duties in the political subdivisions in which they are normally employed.

ARTICLE VIII REIMBURSEMENT

No claim for the loss, damage or expense shall be allowed unless, within 60 days after the same is sustained or incurred, an itemized notice of

the claim under oath is served by mail or otherwise upon the designated fiscal officer of the Requesting Party. STATEWIDE MUTUAL AID AND ASSISTANCE AGREEMENTCounty/Municipality: Cobb

The State of Georgia is vulnerable to a wide range of natural and man-made disasters and emergencies. The Georgia Emergency Management Act, as amended (The Act) gives the local governments of the State the authority to make agreements for mutual aid assistance in emergencies. Pre-existing agreements for mutual aid assistance in emergencies help to ensure the timely provision of mutual aid assistance and the reimbursement of costs incurred by those parties who render such assistance.

This mutual aid agreement is entered pursuant to authorities contained in Articles I through III, Chapter 3, Title 38, Official Code of Georgia Annotated.

ARTICLE I
STATEMENT OF AGREEMENT, DEFINITIONS AND AUTHORITIES

This Agreement is made and entered into between the participating political subdivisions, which approve and execute this Agreement, hereinafter called "Participating Parties" and the Georgia Emergency Management and Homeland Security Agency (GEMA/HS). For purposes of this Agreement, the following terms and expressions shall apply:

- (1) "Agreement" means this agreement, generally referred to as the "Statewide Mutual Aid Agreement" (SWMAA).
- (2) "Assistance" includes personnel, equipment, facilities, services, supplies and other resources furnished to a Requesting Party pursuant to this Agreement during an emergency or disaster.
- (3) "Assisting Party" means a party that provides assistance pursuant to this Agreement during an emergency or disaster.
- (4) "Authorized Representative" means a Participating Party's elected or appointed official or employee who has been authorized in writing by that party to request, to offer, or otherwise to provide mutual aid assistance.
- (5) "Participating Party" means a county or municipality of the State of Georgia that has become party to this Agreement by its approval and execution of this agreement.
- (6) "Participating Parties" means the combination of counties and municipalities that have become parties to this Agreement by their approval and execution of this Agreement.
- (7) "Requesting Party" means a party that requests assistance pursuant to this Agreement during an emergency or disaster.

Any term or expression not defined in this Agreement shall have the meaning specified in the Georgia Emergency Management Act, as amended (the Act) and rules promulgated thereunder, unless used in a context that clearly suggests a different meaning.

ARTICLE II GENERAL PURPOSE

The purpose of this Agreement is to:

1. Provide the framework to support mutual assistance in managing an emergency or disaster occurring within any political subdivision that is a Participating Party, whether arising from natural disaster, technological hazard, human caused disaster, civil emergency, community disorders, insurgency, enemy attack, acts of terrorism, other significant events or homeland security activity; and
2. Identify those persons who are authorized to act on behalf of the Participating Party signing this Agreement as their Authorized Representative(s) concerning the provision of mutual aid resources and requests for mutual aid resources related to any mutual aid assistance sought from another Participating Party, or from or through the State of Georgia. Appendix A of this Agreement shall contain the name(s) of the Participating Party's Authorized Representative for purposes of this Agreement. Appendix A can be amended by the authorizing Participating Party as needed with no effect on the entire Agreement. All such amendments to Appendix A shall be done in writing and the Participating Party shall notify GEMA/HS and all other Participating Parties of such amendment within thirty (30) days.

ARTICLE III ACKNOWLEDGEMENT OF PRINCIPLES

The prompt, full and effective utilization of resources of the Participating Parties, including any resources on hand or available from the State or Federal Government or any other source, that are essential to the safety, care and welfare of the people shall be the underlying principle on which all articles of this Agreement shall be understood.

In the event of a conflict between any provision of this Agreement and any existing intrastate mutual aid agreement affecting a Participating Party, the provisions of this Agreement shall be controlling.

On behalf of the governing authority of each political subdivision of this State participating in the Agreement, the director of emergency management of such political subdivision will be responsible for formulation of the appropriate mutual aid plans and procedures necessary to implement this Agreement.

ARTICLE IV PARTICIPATING PARTY RESPONSIBILITIES

(a) It shall be the responsibility of each Participating Party to formulate procedures and programs for intergovernmental cooperation in the performance of the responsibilities listed in this Article. In formulating such plans, and in carrying them out, each Participating Party, insofar as practical, shall:

- (1) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services, and resources, both human and material; and

(2) Inventory and set procedures for the loan and delivery of human and material resources, together with procedures for reimbursement.

(b) Whenever a Participating Party requires mutual aid assistance from another Participating Party and/or the State of Georgia, the Requesting Party may request assistance by:

(1) Contacting the Participating Party who is the owner/operator/employer of the supplies, equipment and/or personnel being sought for mutual aid assistance (the Assisting Party); or

(2) Contacting GEMA/HS to serve as the facilitator of such request for those resources being sought for mutual aid that are owned/operated/employed by Participating Parties (where such Participating Parties have submitted a record of those resources to GEMA/HS for such use); and/or, when such resources being sought for mutual aid are owned/operated/employed directly by the State of Georgia.

The provisions of this Agreement shall only apply to requests for assistance made by an Authorized Representative. Requests may be verbal or in writing. If verbal, the request must be confirmed in writing within 30 days of the verbal request. Requests shall provide the following information:

(1) A description of the emergency service function for which assistance is needed, such as but not limited to fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, damage assessment, volunteer and donated goods and search and rescue; and

(2) The amount and type of personnel, equipment, materials and supplies needed, and a reasonable estimate of the length of time each will be needed; and

(3) The specific place and time for staging of the Assisting Party's response and a point of contact at that location.

The Assisting Party will (a) maintain daily personnel time records, material records and a log of equipment hours (or miles, if appropriate) and (b) report work progress to the Requesting Party at mutually agreed upon intervals.

ARTICLE V LIMITATIONS

Any Participating Party requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this Agreement in accordance with the terms hereof; provided that it is understood that the Participating Party who is asked to render aid may withhold resources to the extent necessary to meet the current or anticipated needs of the Participating Party's own political subdivision to remain in compliance with such Participating Party's policy, rule or law.

The Assisting Party's mutual aid resources will continue under the command and control of their own

supervisors, but the organizational units will be under the operational control of the emergency services authorities of the Requesting Party unless the Assisting Party approves an alternative.

In the event the Governor should declare a State of Emergency, any and all provisions of this Agreement which may conflict with the declared State of Emergency shall be superseded by the terms and conditions contained within the State of Emergency.

ARTICLE VI LIABILITY AND IMMUNITY

(a) In accordance with O.C.G.A. § 38-3-35(a), no political subdivision of the state, nor the agents or representatives of the state or any political subdivision thereof, shall be liable for personal injury or property damage sustained by any person appointed or acting as a volunteer emergency management worker or member of any agency engaged in emergency management activity. The foregoing shall not affect the right of any person to receive benefits or compensation to which he might otherwise be entitled under Chapter 9 of Title 34, Code Section 38-3-30, any pension law, or any act of Congress.

(b) In accordance with O.C.G.A. § 38-3-35(b), no political subdivision of the state nor, except in cases of willful misconduct, gross negligence, or bad faith, the employees, agents, or representatives of the state or any political subdivision thereof, nor any volunteer or auxiliary emergency management worker or member of any agency engaged in any emergency management activity complying with or reasonably attempting to comply with Articles 1 through 3, Chapter 3, Title 38, Official Code of Georgia Annotated; or any order, rule, or regulation promulgated pursuant to Articles 1 through 3 of title, or pursuant to any ordinance relating to precautionary measures enacted by any political provisions of Articles 1 through 3 of said chapter and title, or pursuant to any ordinance relating to precautionary measures enacted by any political subdivision of the state shall be liable for the death of or the injury to person or for damage to property as a result of any such activity.

(c) It is the express intent of the parties that the immunities specified in accordance with O.C.G.A. § 38-3-35 shall apply in addition to any other immunity provided by statute or case law.

ARTICLE VII RIGHTS AND PRIVILEGES

In accordance with O.C.G.A. § 38-3-30(a), whenever the employees of any Assisting Party or political subdivision are rendering outside aid pursuant to this agreement and the authority contained in Code Section 38-3-27, the employees shall have the same powers, duties, rights, privileges and immunities as if they were performing their duties in the political subdivisions in which they are normally employed.

ARTICLE VIII REIMBURSEMENT

In accordance with O.C.G.A. § 38-3-30(b), The Requesting Party shall be liable for any loss of or damage to equipment used or placed within the jurisdiction of the Requesting Party and shall pay any expense incurred in the operation and maintenance thereof. No claim for the loss, damage or expense shall be allowed unless, within 60 days after the same is sustained or incurred, an itemized notice of

the claim under oath is served by mail or otherwise upon the designated fiscal officer of the Requesting Party. Appendix B of this Agreement shall contain the name(s) of the Participating Party's designated fiscal officer for purposes of this Agreement. Appendix B can be amended by the authorizing Participating Party as needed with no effect on the entire Agreement. Appendix B can be amended by the authorizing Participating Party as needed with no effect on the entire Agreement. All such amendments to Appendix B shall be done in writing and the Participating Party shall notify GEMA/HS and all other Participating Parties of such amendment within thirty (30) days.

The Requesting Party shall also pay and reimburse the Assisting Party for the compensation paid to employees furnished by the Assisting Party during the time of the rendition of the aid, as well as the actual travel and per diem expenses of such employees while they are rendering the aid. The reimbursement shall include any amounts paid or due for compensation due to personal injury or death while the employees are engaged in rendering the aid. The term "employee," as used herein, shall mean, and this provision shall apply with equal effect to, paid, volunteer and auxiliary employees and emergency management workers.

Expenses to be reimbursed by the Requesting Party shall include the following:

- (1) Labor costs, which shall include all usual wages, salaries, compensation for hours worked, mobilization and demobilization, the Assisting Party's portion of payroll taxes (as employer), insurance, accrued paid leave and other fringe benefits, but not those amounts paid or due as a benefit to the Assisting Parties personnel under the terms of the Georgia Workers Compensation Act; and
- (2) Equipment costs, which shall include the fair rental value, the cost of fuel and other consumable supplies, service and repairs. If the equipment is damaged while in use under this Agreement and the Assisting Party receives payment for such damage under any contract for insurance, the Requesting Party may deduct such payment from any item or items invoiced; and
- (3) Material costs, which shall include the total reasonable cost for the use and consumption of any and all consumable supplies delivered by the Assisting Party for the benefit of the Requesting Party; and
- (4) Meals, lodging and other related expenses, which shall include charges for meals, lodging and other expenses relating to the provision of assistance pursuant to this Agreement shall be the actual and reasonable costs incurred by the Assisting Party.

The Assisting Party shall maintain records and submit invoices within 60 days for reimbursement as specified hereinabove and the Requesting Party shall pay the invoice no later than 30 days following the invoice date.

ARTICLE IX IMPLEMENTATION

This Agreement shall become operative immediately upon its approval and execution by GEMA/HS and any two political subdivisions of this State; thereafter, this Agreement shall become effective as to any other political subdivision of this State upon its approval and execution by such political subdivision.

Any Participating Party may withdraw from this Agreement by mailing notice of withdrawal, approved by the governing authority of such political subdivision, but no such withdrawal shall take effect until 30 days after the governing authority of the withdrawing political subdivision has given notice in writing of such withdrawal to the governing authorities of all other Participating Parties. Such action shall not relieve the withdrawing political subdivision from obligations assumed hereunder prior to the effective date of withdrawal.

Copies of this Agreement shall, at the time of their approval, be deposited with each of the respective Participating Parties and with GEMA/HS.

ARTICLE X
TERM OF AGREEMENT

This Agreement, once executed, is valid until March 1, 2028. Agreement of the Participating Parties to extend the term of this agreement at any time during the last year of its original term or the last year of any subsequent four-year term shall extend the term of this agreement for four years. Each four-year extension shall constitute a separate agreement.

VALIDITY

If any provision of this Agreement is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of this Agreement and the applicability thereof to other persons and circumstances shall not be affected thereby.

Statewide Mutual Aid Agreement (SWMAA)

FAQs

Why do I need to do this?

Pre-existing agreements for mutual aid assistance in emergencies help to ensure the timely provision of mutual aid assistance and reimbursement of costs incurred by those parties who render such assistance. This agreement also provides the framework to support mutual assistance in managing an emergency or disaster occurring within any political subdivision that is a Participating Party, whether arising from natural disaster, technological hazard, human caused disaster, civil emergency, community disorders, insurgency, enemy attack, acts of terrorism, or other significant events or homeland security activities.

What other jurisdictions are involved?

Participating Party means a county or municipality of the State of Georgia that has become party to this Agreement by its approval and execution of this agreement. Your GEMA/HS EM Field Coordinator can assist you with this.

What kind of assistance are we talking about?

"Assistance" includes personnel, equipment, facilities, services, supplies and other resources furnished to a Requesting Party pursuant to this Agreement during an emergency or disaster.

Who will our resources be working for?

The Assisting Party's mutual aid resources will continue under the command and control of their own supervisors, but the organizational units will be under the operational control of the emergency services authorities of the Requesting Party unless the Assisting Party approves an alternative.

What if my jurisdiction doesn't want to send resources?

A jurisdiction may withhold resources to the extent necessary to meet the current or anticipated needs of the jurisdiction's own political subdivision.

What about liability and reimbursement?

Those issues are covered in Article VI Liability and Immunity, and Article VIII Reimbursement in the Agreement.

What if my jurisdiction wants to withdraw from this agreement?

Any Participating Party may withdraw from this Agreement by mailing notice of withdrawal, approved by the governing authority of such political subdivision, but no such withdrawal shall take effect until 30 days after the governing authority of the withdrawing political subdivision has given notice in writing of such withdrawal to the governing authorities of all other Participating Parties. Such action shall not relieve the withdrawing political subdivision from obligations assumed hereunder prior to the effective date of withdrawal.

OVERVIEW: Introducing an Addition to the Newest Jewel in Downtown Kennesaw's Crown

The F3/Kisz/Recivilize Development at 3033 and 3045 Cherokee Street is a previously approved Downtown Kennesaw gateway development project in the City's Central Business District (CBD). The Central Business District (CBD) is established in order to preserve and protect the cultural and historic aspects of downtown Kennesaw and simultaneously provide for the stimulation and enhancement of the vitality and economic growth of this special area.

The classification is primarily intended for a focal point for upscale retail trade, tourism, and financial and public uses. The intent of the Central Business District (CBD) is to develop a compact core to encourage and facilitate pedestrian movement and provide convenient access to the amenities of downtown. The City has made some great strides in the last few years, and we are excited to continue the trend by adding another jewel to Downtown Kennesaw's crown.

As of this submission, the Development Team is **proud to announce that it has also closed on an additional parcel at 3059 Cherokee Street**, and is seamlessly integrating it into the previously approved plan for 3033 and 3045 (as planned from the onset). Here are the updated details on the full comprehensive plan for all three parcels:

- The development now consists of 3033 (.88 acres) and 3045 (1.663 acres), 3059 Cherokee St 1.376 acres) immediately north of Galt Commons = approx 3.92 acres in total (see Exhibit A for accompanying survey and Exhibit B for conceptual site plan) – with 50 total residential units, residential density = 12.75 units/acre (*less than neighboring Galt Commons at 42 homes on 3.2 acres = 13 homes per acre*)
- Total of approx 64,000 heated square feet of new construction (see Exhibit C for accompanying spreadsheet for a full itemization of residential and commercial units)
- For sale: 46 residential units (12.19 du / acre), approx 54,000 total heated square feet of residential (mix of attached townhomes and stacked flat condos)
- For sale or lease: 4 commercial units, approx 3,250 total heated square feet of commercial
- For sale or lease: 4 two-story condos above commercial, approx 6,450 total heated square feet (only 8% of the total residential unit count will be available to rent)
- For sale or lease: 1 commercial unit located in historic home to be saved and fully renovated and converted into approx 1,200 total heated square feet of high-end boutique retail / commercial
- Investment by French 3 Investments, design by Recivilize Properties, and construction by Kisz Construction

According to Kennesaw's Strategic Economic Development Plan, the City is "focused on increasing density in the Downtown which will in turn create additional demand for everyday goods and services and for restaurants and bars. New mixed-use developments are expected to increase the potential for retail."

Goals are to "continue to support and pursue mixed-used development – Kennesaw already has begun enabling mixed-use development to augment the existing supply of commercial and residential spaces. In Kennesaw, the scale of nonresidential development needs to be consistent with market potential/opportunities; small office and dining/entertainment in downtown, maker-space and small-

scale retail along commercial corridors. There are opportunities for repositioning underperforming assets and strengthening downtown.”

The Strategic Economic Development Plan also aspires to “improve Kennesaw as a place to live, work, shop, and recreate – The City should actively engage with existing businesses and potential developers to enhance the office, retail, shopping, and recreational amenities in Kennesaw. This would require partnerships which leverage existing resources to promote and shepherd projects through the public process.”

In summary, The Strategic Economic Development Plan notes that the Kennesaw CBD is designed to achieve the following:

- Create an environment where residents and visitors can live, work, meet, and play
- Promote a balanced mix of retail, office-professional, entertainment, residential, civil, and cultural uses in the core downtown area
- Allow for growth of a healthy economic business district
- Incorporate aesthetically compatible design from gateway points to the core of the city to improve the aesthetics of street and built environments
- Ensure compatibility with the historic district to achieve architectural and design integrity and consistency
- Provide accessible and sufficient parking that is unobtrusive by encouraging shared parking and alternative modes of transportation including pedestrian and bicycles
- Promote a pedestrian environment through sidewalk-oriented buildings and attractive street-facing façades that encourage pedestrian activity
- Provide safe and accessible parks and public and private open space

Fortunately, our project meets or exceeds all of Kennesaw’s CBD mandates outlined above.

Kennesaw has to compete with walkable premium mixed-use neighborhoods that are proliferating in downtown Woodstock, Marietta, et al – we think this is an opportunity to make a huge statement and to deliver a strong competitive offering. Our goal is to capitalize on the quaint Galt Commons development and extend the walkable new urban quotient northward along Cherokee Street to create even more new urban synergies and impact. We can create a true, activated mixed-use gateway into Downtown Kennesaw that – with its commercial plaza and retailer(s) / restaurant(s) – we feel will even become a mini-destination of its own.

Highlights of the New 3033/3045/3059 Cherokee St Development:

Plan:

- Will be Kennesaw’s first small-scale infill development to offer a mix of commercial and residential uses
- Residential features a curated collection of compact courtyard homes
- 5-minute walk to the start of all the civic amenities, retail and restaurants of Downtown Kennesaw

- Designed to grow and seamlessly integrate into new phases to the north or west if additional properties later come available

Pricing:

- Just north of the progressive Galt Commons development, with homes that sold for over \$300 / sq ft – our goal is to sell our new homes at over \$325 / sq ft
- Should set new standards for sales price / sq ft, but also provide some affordable units starting just above 1,000 sq ft (and then ranging up to 1,600 sq ft)
- Attainable urbanism with some residential flats potentially starting in the \$300,000s

Product:

- Charleston-inspired homes carefully arranged amongst intimate urban spaces – full site now delivers fifty new classic courtyard residences
- Frontage will feature two new commercial plazas (totaling almost 5,000 sq ft of new public realm) flanked by two stunning mixed-use buildings with commercial on the ground floor of each, and...
- The existing historic home on the front of 3059 Cherokee St has been deemed worth saving, so the Development Team will bring its exterior back to its former glory and make its interior suitable for high-end boutique retail / commercial – a commemorative plaque will be added that will allow patrons to read about the history of the home / site
- Plan aligns with roadways and greenways from Galt Commons and continues them to the north (and potentially to the west)
- Also provides a wet pond amenity with a trail and benches at the rear of the property

Commercial:

- Type of businesses for commercial is still TBD, though we envision one coffee / food service plus other high-end boutique retail / commercial
- Projected market targeted for commercial are those living within walking distance or those visiting downtown Kennesaw
- Projected customer generation for commercial includes retailers that generate multiple frequent visits due to highly walkable accessibility (10,000 to 20,000 customer visits per year = \$100,000 to \$500,000 in revenue per year per establishment, and the resulting City, County, State taxes)
- Plan on traffic control for ingress/egress of property – commercial parking is included in the plan, positioned directly behind the business (if needed, we would consider a shared parking arrangement with the insurance office immediately across Cherokee Street); potential for a raised traffic table at the entrance of development to slow traffic and benefit the pedestrians

Amenities of the New Development

New Commercial and Residential Amenities:

1. Commercial Plaza at front of the development
2. Greenway Park connects from neighboring Galt Commons green
3. Central Residential Plaza connects from Greenway Park

4. Wet Pond and Trail
5. Other residential amenity options might include, but are not limited to:
 - a. Dedicated storage facility section (potentially on rear of commercial building) – private (lockers for bikes, storage, etc) and shared community items (ladders, tools, etc)
 - b. Pre-assigned residential and guest parking spaces
 - c. Dog park
 - d. Fountain
 - e. Hammock area
 - f. Fire pit area
 - g. Grill area / pizza oven

New Pedestrian Connectivity:

1. Cherokee St sidewalk / Commercial Plaza pedestrian connection to north and south
2. Interior Greenway Park / Central Residential Plaza pedestrian connection to north and south to Galt Commons green
3. Wet Pond and Trail at rear of development
4. Potential option of Pony Trail pedestrian connection from the west

Benefits to the City of Kennesaw

Here's what else the New 3033/3045/3059 Cherokee St Development delivers:

- Truly defined public plaza will become a treasured gateway into downtown – provides visual relief from neighboring direct street frontage and a space large enough for public and private events, and features new highly photo-worthy mixed-use buildings that will make the strongest possible gateway statement into Downtown Kennesaw
- Truly usable / enjoyable public realm features flexible plaza frontage to that can be used for events, plaza kiosks, food trucks, and / or micro retail and more
- New development's kinked roadway network for better low speed traffic geometries throughout the site – combined with all of the pedestrian paths and greenways – prioritize pedestrians over cars and illustrates Kennesaw's forward-thinking mentality

5. New Business

A. CBD Project Application: 3059 Cherokee Street

This item was taken out of order (following the call to order) in respect of the applicant's time. Applicant Jason Scheidt presented the CBD application and business plan for 3059 Cherokee Street. This project is a Phase 2 continuation of the previously approved CBD project at 3033 and 3045 Cherokee Street. Adding the parcel at 3059 Cherokee Street will allow the developers to implement their full vision for the project and create a strong gateway for downtown Kennesaw. The greenspace footprint aligns with the neighboring greenspace at Galt Commons to allow for connectivity (if desired). They will rehab the historic home on this parcel and incorporate it into the site for commercial use.

David Lyons inquired about the range of square footage available in the residential units; the applicant advised that the smaller units will be between 100-1250 SF, with larger units up to 1600 SF. David also inquired about whether the streets would be public or private; the applicant and staff confirmed they will be private streets. Ian Coats asked if there has been any consideration for installation of EV chargers in the development; the applicant stated that presently there are no plans for EV charging stations.

Applicant Jason Kisz shared information on the development's timeline. The engineering is almost completed for Phase 1. Once the CBD application for Phase 2 has been completed, they will begin engineering for this phase and expect engineering for the full project to be completed by the end of Q1 2025, with building and site plan

approvals to follow. Jason Kisz also shared that they are working to incorporate affordability into the development of the smaller units, with prices anticipated to start in the \$300's.

David Lyons made a motion to approve the CBD application as presented. Ian Coats seconded the motion. The motion passed unanimously.

6. Main Street Program Updates

A. Year-end assessment updates

A. Addition: 2982 North Main Street

Consideration of approval of a Certificate of Appropriateness application submitted by Andrew Mackey for a new two-story addition to the existing house located at 2982 N. Main Street (20013900070). Case #COA2024-11

Chairman Whipple and Commissioner Butler recused themselves from this agenda item as their company had direct involvement with the application.

Mr. Darryl Simmons announced that with the remaining Commissioners there was still a quorum and

the Commission will be able to vote and act on the agenda item.

Mr. Simmons introduced this agenda item. The applicant submitted for a Certificate of Appropriateness for a two-story addition to the existing historic house. The home on the historic register is the J.V Smith House. The property is circa 1907 on 0.47 +/- acres. It is currently zoned R-20, Single Family Residential consistent with all residential homes along North Main Street in the Main Street Historic District. He stated that the applicant proposes the addition, which is two-stories, and are present to answer any questions from staff and Commissioners. A 3D rendering of the design shows the scope and shape of the proposed addition.

Mr. Andrew Mackey, the property owner and applicant, approached the podium. He explained that their family is expanding, and the current house is too small. Therefore, they are seeking approval for a Certificate of Appropriateness to add an addition to the house.

Vice Chair Gallagher inquired whether the proposed addition is a two-story extension located at the rear of the existing structure.

Mr. Mackey confirmed and stated that the addition would add twelve feet to the rear of the existing structure. The addition would have two bedrooms, a bathroom, and a bonus room or loft upstairs.

Vice Chair Gallagher inquired whether the materials for the proposed addition will be the same as the existing materials.

Mr. Mackey confirmed, noting that a few years ago they built a garage that was approved for Hardy Plank siding. Mr. Mackey inquired if there needed to be a distinction between material used for the historic structure and the new addition.

Vice Chair Gallagher stated that per Section 7.8 *Additions* of the Historic Preservation Commission Design Standards, the new material should be differentiated from the old.

Mr. Mackey explained that the addition will feature Board-and-Batten siding, while the existing house has 6-inch reveal Hardy siding.

Ms. Rachel Butler, design team member, further confirmed that the addition would be Board-and-Batten siding.

Commissioner Buffington asked if there would be any additional landscaping or hardscaping outside of any improvements to the structure.

Mr. Mackey acknowledged that additional landscaping would be necessary. He offered to develop a plan for the additional landscaping, noting that he had only recently realized that some existing landscaping would need to be redone.

Commissioner Buffington asked if the landscaping would be visible from the road.

Mr. Mackey mentioned that most of the landscaping would not be visible from the street, though a small portion might be.

Commissioner Bramlett commented that a second story addition would be very visible from the street.

Mr. Mackey confirmed that a considerable amount of the addition would be visible from the road.

Ms. Butler commented that the design team tried to minimize the addition's visibility from the road. The front of the house will retain its original appearance, the roofline will gable towards the back of

the house, and the second story addition is at the back of the house.

Commissioner Bramlett asked if the roofline was based on an existing roofline

Ms. Butler responded that the roofline was designed to minimize the addition's visibility from the road.

Vice Chair Gallagher expressed concern that a second story addition would result in a building size and scale that would dwarf the other historic buildings along North Main Street. Section 7.8.03 of the Historic Preservation Design Standards states "the addition will be limited in relationship to the historic building".

Mr. Simmons provided an explanation of the architectural features of existing homes along North Main Street. He noted that the rooflines are integrated with the set gables, and the architecture is continuous from the front to the back of the buildings. He further stated that the angles and scope of the proposed addition do not align with the existing architectural style. Additionally, he expressed concerns about the visibility of the addition from the street and the scale of a two-story addition on a one-story house, which is significantly different from the current structures along Main Street.

Commissioner Bramlett asked why the applicant chose to build up instead of back with proposed addition.

Mr. Mackey mentioned that the electric, water, and gas utilities would be affected if the addition was constructed as suggested. He also stated that he had previously received approval for a second story on the garage and had presented the garage's design to eventually match the house.

Mr. Simmons stated that the garage is a detached accessory structure. When the second story was approved on the garage it was deemed appropriate. The approval of a second story addition was not a condition or pretense to the approval of the two-story accessory structure.

Ms. Butler stated that the addition's second story was pushed to the back to try and reduce the size of the addition. The roof was also designed to slope up to minimize visibility of the addition from the front of the house. She also stated that the addition would be slightly visible from the road but that the size and scale correlated with the two-story garage on the property.

Vice Chair Gallagher stated that he took issue with the size and scale of the request in relation to the historic structure, notwithstanding the garage being a separate non-contributing factor and a detached structure.

Mr. Kevin Whipple, design team member, asked if the primary concern was the size and scale of the two-story addition or if the primary concern was design of the roofline.

Commissioner Blandford stated that the scale of the proposed addition to the historic building was problematic because it dwarfs the historic building.

Vice Chair Gallagher called for a motion.

Motion to deny by Commissioner Blandford.

Seconded by Commissioner Bramlett.

Vice Chair Gallagher proceeded with a roll call for approval.

Vote taken, Commissioner Blandford, Commissioner Bramlett, and Vice Chair Gallagher voted to approve the motion. Commissioner Buffington voted to deny the motion. Motion approved 3-

1. Motion carried to deny the request made by the applicant.

B. Exterior Renovation (Alteration): 3059 Cherokee Street

Consideration of approval of a Certificate of Appropriateness application submitted by Jason Kisz for an alteration to the historic structure located at 3059 Cherokee Street (20012900940). Said alteration is to remove the rear non-historic addition to the historic structure. Case #COA2024-12

Mr. Darryl Simmons introduced this agenda item; a request to complete exterior renovation of an existing historical home located at 3059 Cherokee Street. The applicant wishes to alter the historic structure by removing the rear non-historic addition. The applicant was present to go over the details of the non-conforming addition and answer any questions regarding how this item fits in with the overall master plan, which is covered in agenda item C.

Jason Schiedt, Project Designer, stated that they have acquired parcel 20012900940 with the intent of developing along with previously approved phase one. He shared that a Historic Report was done on the home, and the report confirmed that the house is historic. The intent is to keep the historic house as part of the project while removing the non-historic addition on the rear of the home.

Chairman Whipple asked the Commissioners if they have reviewed the historic report from Mrs. Morrison with the architectural guidelines and assessment performed for the historic nature of the home.

Commissioners responded in the affirmative.

Chairman Whipple asked what type of work would be done on the exterior of historic home regarding broken siding and infill once the non-historic addition is removed.

Mr. Scheidt responded that the whole house would be renovated.

Chairman Whipple asked if the applicant would submit a second application for any renovations or alterations to the historic building.

Mr. Scheidt confirmed that a second application would be submitted for renovations and alterations to the historic building.

Chairman Whipple asked if the application was purely for the removal of the lean-to non-historic structure and securing any openings as needed to protect the structure pending submission of the renovation documentation.

Mr. Scheidt confirmed.

Chairman Whipple explained that for any renovation, the purview of the Historic Preservation Commission is purely the exterior, but usually there are some interior elements based on the intended use that may have some impacts beyond the exterior.

Mr. Scheidt responded that he understood.

Chairman Whipple asked if there were any additional questions or comments from the Commissioners. Seeing no additional questions or comments, Chairman Whipple called for a motion.

Motion to approve by Commissioner Blandford with the condition that the applicant submit full plans for approval prior to any renovation to the existing building.

Seconded by Commissioner Gallagher.

Chairman Whipple proceeded with a roll call for approval.

Vote taken, motion unanimously approved 5-0. Motion carried.

C. Central Business District Application: 3059 Cherokee Street

Consideration to review a Central Business District (CBD) project application to construct a mixed-use development on the parcel located at 3059 Cherokee Street (20012900940). Case #CBD2024-03

Mr. Darryl Simmons introduced this agenda item; a Central Business District project application which is a master plan that incorporated the previously voted on alteration to the historic house. The City of Kennesaw previously approved Phase 1 of this master plan, which is a mixed-use development along Cherokee Street. The application currently being presented is for Phase 2 of the project, which will add nineteen residential units and use the same architecture style as Phase 1. Residential units will consist of townhomes and stacked condo flats. The project will also include a two-story or three-story condos with 4,450 sq ft of commercial space on the ground floor along Cherokee Street. The total commercial square footage for the project will be 4,450 sq ft. The proposal also incorporates the renovated historic house. The final design and renovation plan for the historic house will be presented to the Historic Preservation Commission. The property lies along Cherokee Street in the historic district. This property and this project phase were reviewed by the Kennesaw Downtown Development Authority for their business plan and was unanimously approved. Once reviewed by the Historic Preservation Commission, this application will go before Mayor and Council for consideration on January 13th and January 21st.

Mr. Jason Scheidt, Project Designer, provided details for the site plans for the proposal. The site is located north of Galt Commons and consists of three contiguous parcels. The site plan shows the approximate size and scale of public realm spaces, which includes a northern plaza and a larger southern plaza. The northern plaza will have mixed-use buildings and a tower feature to create a gateway statement piece for downtown. The plaza spaces are intended to serve as activated, permeable public spaces where people can sit, gather, and engage with commercial retail options. Walk-up windows for coffee shops or food vendors are also included as part of the design to facilitate the feeling of an outdoor living room. Mr. Scheidt also stated that previously agreed upon build-to lines, set backs, and products will remain the same.

Chairman Whipple asked if the applicant will be bringing forward final design drawings for review and approval given undecided design elements like the tower and materials.

Mr. Scheidt agreed.

Mr. Simmons explained that Central Business District applications are a conceptual approval. The Historic Preservation Commission (HPC) can add conditions requiring the applicant to come back with the final designs at certain intervals. The landscaping plan for the property will also need to come back before the HPC.

Chairman Whipple asked if the residential section would be gated from the commercial section or if parking would it be open so the public could park throughout the site.

Mr. Scheidt responded that there would be no gate, and that parking would be open throughout the site. Residential units will have two parking spaces allocated to each unit and those parking spaces will be located at the back of the site.

Chairman Whipple asked if the parking was underneath the units or was surface parking.

Mr. Scheidt stated parking will be surface parking.

Chairman Whipple asked if the townhomes would be two story.

Mr. Scheidt responded that everything will be three-story. The only non-three-story building will be the historic house.

Chairman Whipple inquired about the intended use for the historic house.

Mr. Scheidt stated the house will be commercial and not residential.

Commissioner Bramlett expressed concern that the historic house would be overshadowed by the three-story structures. He asked if plans would be submitted explaining how the structures will work together?

Mr. Scheidt responded that coming down Cherokee Street from the north, most of the homes are one to one-and-a-half stories. The historic house will stay as it is and there will be a graduation up to the next level.

Chairman Whipple suggested that for future presentations the historic house and three-story building with the icon tower be shown in context with each other. He stated that hopefully the plaza will help soften and buffer the single-story and expressed that the HPC was trying to avoid a little house surrounded by larger masses around it.

Commissioner Butler asked for clarification on the definition of a stacked flat.

Mr. Scheidt explained that a stacked flat is another term for multiple condos within one building.

Commissioner Butler asked if the stacked flats would be three-story buildings.

Mr. Scheidt confirmed the stacked flats would be three-stories. He stated that some buildings would have six 1,045 sq ft units with two units on each floor. Other buildings will be limited to three units with one unit on each floor. Mr. Scheidt also confirmed there would be an outdoor staircase.

Commissioner Bramlett asked if the additional parcel for this project slopes back.

Mr. Scheidt responded that the parcels do slope back. He stated that the configuration of the three parcels in context to the slope allows stormwater to flow from the frontage of the property to the stormwater amenity at the rear of the site.

Commissioner Gallagher asked for more details on the flow and connectivity between Galt Commons and the applicant's proposed development.

Mr. Scheidt responded that they designed the project so all the roadways and the greenways line up perfectly to Galt Commons.

Commissioner Butler asked if there was a fence separating this property from Galt Commons.

Mr. Scheidt responded that there is not a fence but there is a retaining wall. They plan to terrace the property to roughly match the height of the retaining wall. He stated that the appearance of the property line between Galt Commons and this proposal depends largely on the intended actions of the Galt Commons Homeowners Association (HOA).

Chairman Whipple commented that Galt Commons had previously come in for a fence but that it must have been along the back of the property. He asked if they had considered inter-parcel connection to Galt Commons

Mr. Scheidt responded that they wanted to extend Galt Commons' greenway with their development.

Commissioner Gallagher asked if the applicants have entered into any discussion with the Galt Commons HOA.

Mr. Scheidt responded that the Galt Commons HOA is aware of the concept. Opinions of the proposed development withing Galt Commons are mixed.

Ms. Chanelle Campbell stated that at the last rezoning, the connectivity between this project and Galt commons was discussed. In the conditions by Mayor and Council, if there is connectivity or any interactions between the parcels, the applicant will need approval from the HOA of Galt Commons.

Mr. Simmons stated that a condition should be added to clarify that the proposal is a concept by the applicant and builder. He noted that changes would likely be made to the architecture and facades. The condition would ensure that the applicants will need to return to the HPC with a final design after speaking with staff.

Chairman Whipple stated that he considered the next presentation to be when the applicant has finalized the design and the site plan with materiality, scale, massing, etc, and then whether they want that landscape plan to be part of that as well or whether they want to submit that separately when that's available.

Commissioner Butler asked what the size of the setback line is at the frontage.

Mr. Scheidt responded that the setback line is 21 feet, which was previously agreed upon at the last set of meetings.

Commissioner Butler asked if the townhouse porch would sit at the setback line

Mr. Scheidt responded that a porch would not sit at the setback line, rather it is a forward bump-out of the building itself. The front door to the townhome will be on the side so you'll go up a set of steps and be at the front door. Above it is the half bath for the second floor and the master walk in closet for the bedroom on the third floor.

Commissioner Butler asked if the townhomes would be three-story structures?

Mr. Scheidt confirmed. He stated that the 21 foot setback will give more relief from Cherokee street than is below in Galt Commons.

Commissioner Gallagher asked if the property's setback is consistent with the Galt Commons setback.

Mr. Scheidt stated that the setback is further back than Galt Commons.

Commissioner Buffington asked if a deceleration lane or right of way dedication was required for the proposal.

Mr. Simmons stated that three options were presented to the city including an option with a 10ft right of way dedication. Because Mayor and Council raised the issue of setbacks, the solution was to not have a 10 ft dedication. The applicant was given back the 10 ft resulting in a 21 ft setback. With phase 1 the applicant will put in sidewalks and other amenities, but the setback will be 21 ft.

Chairman Whipple called for a motion.

Motion to approve the conceptual plan by Vice Chair Gallagher with the condition that the final design plans be brought back before the commission at 60 percent for review and 100 percent for approval in addition to any landscaping plans.

Seconded by Commissioner Blandford.

Chairman Whipple proceeded with a roll call for approval.

Vote taken, motion unanimously approved 5-0. Motion carried.

6. COAA Approval by City Staff and HPC Chair

A. COAA2024-20 - 2886 Cherokee Street

This is a Certificate of Appropriateness application submitted by Robert Milani with Lazy Labrador for the removal of a dead evergreen tree at 2886 Cherokee Street. The application was administratively approved on November 6th, 2024.

Chairman Whipple asked if the applicant would extend the pavers to fill in where the tree was removed.

Mr. Simmons confirmed that pavers would be extended.

B. COAA2024-21 - 2081 Cherokee Ridge Trail

This is a Certificate of Appropriateness application submitted by Andrew Renuart for the replacement of the backyard deck located at 2081 Cherokee Ridge Trail. This application was administratively approved on November 22, 2024.

Chairman Whipple asked if going forward with the survey for the historic districts and code changes, the intention is to remove places like Cherokee Ridge will from historic districts to take the onus off the homeowner with the extra step of approval.

Mr. Simmon stated that the goal of the survey and redoing the codes will be to remove properties and add properties to the historic districts based on the historic survey results. Places being considered for removal include Cherokee Ridge and Camp McDonald. Camp McDonald possesses few remaining historic attributes and if it were to remain listed, the area would be greatly reduced. The long-term goal is to revisit the nomination and have it submitted to the state for new historic boundaries.

7. Discussion

Mr. Simmons stated that 2024 was a busy year and that staff is happy to support the work of the HPC. The HPC had some big projects and made some tough decisions. He wished the commissioners a very Merry Christmas and a Happy New Year and looks forward to working with the Commissioners in 2025. Mr. Simmons stated that attending training opportunities and events throughout the state will be encouraged. He also expressed that compared to some other areas in the state, Kennesaw is forward thinking and being used as a model for some of the things done in downtown, at our parks, and on private property. He relayed to Commissioners that he believes they are doing a great job. He also stated that city staff are doing an outstanding job and are available as a resource for the Commissioners.

Chairman Whipple thanked Mr. Simmons. He also thanked city staff for their work in supporting the Historic Preservation Commission. He asked if there were any further questions or comments from the Commissioners.

Commissioner Bramlett stated he submitted an application with the Phoenix Flies Event at the Atlanta Preservation Center and the City Events Committee for a downtown Kennesaw walking tour. He expressed that the walking tour is a wonderful event done every March.

8. Public Comments

Chairman Whipple opened the floor for public comment. Hearing no public comment, Chairman Whipple closed the floor to public comment.
