DRAFT

A. **LU2026-03** - Consideration of approval of a land use request submitted by Radoslav Zamborsky for the property located at 2687 Summerbrooke Drive (20016402420). Said request is to obtain a home occupation business license to create and sell custom engraved items. Property is zoned Planned Unit Development-Residential (PUD-R), consists of 0.28+/- acres and lies in land lot 164, tax parcel 242.

Ms. Chanelle Campbell presented this agenda item. This is a Land Use application submitted by Radoslav Zamborsky for a home occupation business license at the property located at 2687 Summberbrooke Drive. The applicant is seeking approval to operate a business to engrave and sell home decor, art, and gifts. The property is located in the Planned Unit Development-Residential (PUD-R) zoning district with a future land use designation of Planned Unit Development (PUD). The business will operate inside the applicant's garage, which is attached to his primary dwelling unit. Examples of the equipment to be used and products for sale were shown. The applicant intends to sell the products online, at markets, and at craft stores. Individuals will not visit the site to purchase products. Staff determined that the use is low in commercial intensity, meaning there will not be significant foot traffic from the proposed business and all business activity will be conducted within the enclosed building space. Based on these findings, staff recommends approval of the application subject to conditions.

Last year, staff completed an update to the Unified Development Code (UDC) that no longer requires a Land Use renewal to come back before the Planning Commission. If the applicant choses to continue his business after the 24 months, there will be an administrative review of the application. The land use application has been properly advertised in accordance with all applicable state and local requirements. Ms. Campbell announced that staff and the applicant would be available to address any questions or concerns.

Chairman Bodenhamer invited the applicant to speak. Mr. Radoslav Zamborsky declined.

Chairman Bodenhamer opened the floor for public comment. Hearing no public comment, he closed the floor for public comment and opened the floor to Commissioner comment.

Hearing no Commissioner comment, Chairman Bodenhamer called for a motion.
Motion by Commissioner Butler to approve with the following conditions:
1. The land use permit is limited to, exclusive for and only valid for the current applicant and the life of this particular business and use, and it is not transferable. Any changes would require additional review and approval.
2. There shall be no clients, customers or employees at this location. Nor shall there be any evidence of a home based business visible from the public right-of-way including no signs and no more than one commercial vehicle dedicated to this business.
3. No activity on the property shall produce noise vibration, odors, fumes, dust, or other emissions that are reasonably likely to create a nuisance or materially impact the

DRAFT

health, safety, comfort, or welfare of occupants of surrounding properties
4. The land use permit is valid for 24-months starting from the date of approval.
Seconded by Commissioner Patterson
Chairman Bodenhamer proceeded with a roll call for approval.
Vote taken, motion unanimously approved 3-0. Motion carried.

B. **RZ2026-04** - Consideration to rezone the properties located at 1600 Old 41 Hwy and 0 Old 41 Hwy (parcel # 20021200130 & 20021201560) from General Commercial (GC) and RM-12, Multiple-Family District to Planned Village Community (PVC) as submitted by Walton Communities, LLC. Said request is to rezone the property for the development of a multi-family residential community and office space. Property consists of 11.44+/- acres and lies in land lot 140, tax parcels 13 & 156.

Ms. Chanelle Campbell introduced this agenda item. She explained that while the presentation was a new case and application, the Planning Commission previously heard a request to rezone the 11.44 +/- acre property from RM-12 and GC to RM-16 Multifamily for the development of a multifamily community center. The request was withdrawn by the applicant in April. Ms. Campbell stated the applicant submitted a new request to rezone the property from RM-12 and GC to Planned Village Community (PVC) for the development of a multifamily community with 5,000 square feet of commercial space. The parcel has a future land use designation of Community Activity Center (CAC). The site is significantly constrained by floodplain and topography challenges that limit the site's buildable area and feasible design options. The north-west portion of the site will remain undeveloped as it is located within a floodplain and cannot be developed. A site plan and rendering for the proposed mixed-use development consisting of commercial space and multifamily residential was shown. The applicant intends for the commercial component to consist of office space or retail for use by the public and residents. Amenities and design features of the development were highlighted, including a tower feature, clubhouse, outdoor gathering space, and a gazebo.

Ms. Campbell stated that the application had been legally advertised and signage was placed on the property. Staff recommended approval of the rezoning with conditions and highlighted some of the proposed conditions for the property. Ms. Campbell announced that the applicant and their representatives were available to answer any questions. Ms. Campbell also announced that she was available to answer any questions.

Chairman Bodenhamer invited the applicant or the applicant's representative to speak.

Ms. Caitlin Colley introduced herself as the attorney representing Walton Communities. She stated that Walton Communities, which owns and operates the neighboring Walton Ridenour Phase 1 and senior community, was proposing Phase 2 of the Walton Ridenour development. She explained that property has remained undeveloped due to significant site challenges including grade issues, the floodplain, and topography. The Planning Commission previously recommended approval of the project. However, due

DRAFT

to issues with the floodplain and number of units per acre, the proposal had to be withdrawn and resubmitted. Ms. Colley stated that in addition to the multifamily component, the proposal now includes 5,000 square feet of commercial space intended for uses like executive suites or coworking spaces that would serve residents and the public. She explained that the site would be accessed through Ridenour Phase 1, which includes a signalized intersection. The Old 41 Highway would not be used to access the site. Ms. Colley also stated that it was important to construct Phase 2 because Phase 1 was at 98 percent capacity.

Ms. Colley also shared details on the request for a parking variance. She explained that Walton's operating experience with Phase 1 indicated that there were more parking spaces than the demand for parking on the site. She stated that because of significant site challenges, a parking variance would allow Walton to produce a successful development.

Ms. Colley then discussed some amenities and conditions Walton Communities agreed to implement on the site. She stated that Walton had committed to completing the sidewalk along Old 41 Highway to improve pedestrian connectivity and connect to a wider trail system, which includes the trails from Kennesaw Mountain. She explained that providing the connectivity was a great way for Walton Communities to show their commitment to the community. Ms. Colley closed by requesting that the Commission recommend approval of the rezoning and variance request. She announced that she would be available to answer any questions.

Chairman Bodenhamer opened the floor for public comment.

Ms. Laura Blakeslee introduced herself as a resident at the Oakridge subdivision off of Old 41 Highway. She explained that she was curious about the development plan and had seen public notice signs come down and come back up over the last couple of months. She stated that she was happy to see that the plan was for ingress and egress to go through Walton Ridenour Phase 1 because the traffic and Old 41 Highway and Oakridge was problematic and dangerous. She explained that at certain times of the day it could take 25 to 30 minutes to get from Kennesaw Mountain Battlefield Park to Barrett Parkway due to traffic. She was concerned about the possibility that traffic flow for the site would change to using Old 41 Highway as an entrance or exit. Ms. Blakeslee also stated that she was happy to hear about the plans for sidewalk connectivity on Old 41 Highway. She explained that she often walks with her son to Publix or the Whole Foods shopping center and explained that the sidewalk connectivity was important to anyone living on that side of Old 41 Highway. She was concerned about the possibility that the plans for sidewalk connectivity would change. Ms. Blakeslee also commented that Kennesaw had a car-based culture without easily accessible public transportation. In her experience, not many people use pedestrian facilities aside from regulars. She thanked the Commissioners for the time and the opportunity to speak.

Chairman Bodenhamer asked if the internal traffic methodology of using the existing roadway for ingress and egress was a stipulation. Ms. Campbell responded that there

DRAFT

was not an explicit condition stating that the proposed development would have to go through Ridenour, but there were discussions about adding the condition. She explained that based on the submitted site plan, the area near the existing curb cut on Old 41 Highway has a significant amount of floodplain area. Due to the presence of the floodplain, the Old 41 Highway side of the proposed project is being left undeveloped and the sidewalks are being connected. Ms. Campbell stated that she was discussing with the applicant if they would accept a stipulation that egress and ingress only be through Ridenour. She stated that the site plan and traffic study submitted only showed egress and ingress through Ridenour but would confirm with the applicant. Chairman Bodenhamer stated his support for discussing the stipulation. Commissioner Butler commented that the previous iteration of the plan had a condition that the entrance from Old 41 Highway not be utilized. Ms. Campbell responded that she clarified with the representatives and stated the condition could be added. Chairman Bodenhamer stated that they would add the stipulation to the zoning conditions. Ms. Blakelee stated that there was currently a curb cut on Old 41 Highway used to access the property. Chairman Bodenhamer stated that a stipulation to not utilize the entrance to Old 41 Highway would be added if the Commission recommenced approval. He added that curb cuts are installed as potential access points and their presence does not necessarily mean they will be used.

Mr. Ralph Fowler introduced himself as a property owner on Oakridge Drive. He stated that he had seen activity on the property since it was sold in 2007. He commented that while the Walton Ridenour was very nice, it did not turn into what was promised and many promises weren't kept. He commented that he was glad to see that ingress and egress of the property would only be going through the existing development and was glad to see it added as a stipulation. He strongly expressed that the curb cut on Old 41 Highway should never be used for vehicle traffic, including utility or other vehicle access. He asked how many stories the development would be. He commented that the property was on the agenda for a rezoning and a variance but with different property sizes listed. He asked what the property acreage was.

Chairman Bodenhamer asked what the size of the property was and if there was a typo. Ms. Campbell responded that the property was 11.44 +/- acres and that a typo was on the agenda.

Chairman Bodenhamer stated that the variance was the next item on the agenda and was about deviating from the number of parking spaces per dwelling unit.

Mr. Fowler asked how many levels the buildings would have. He stated that he saw on the plans that there were three or four stories and wanted to clarify. He also asked if an environmental impact study was done given the creek and wetlands on the site. He stated that he did not think there was much buildable area on the lot because of the terrain and the hill. He asked if the terrain would remain the same or if it would be leveled.

Chairman Bodehamer asked if an environmental impact study done. Ms. Campbell

DRAFT

responded that the applicant had multiple questions and she would address each one. Addressing the question about the number of stories, she stated that the development would be four stories above ground. Ms. Campbell then addressed the question about the environmental impact study. She explained that the Public Works department would review environmental documentation during the applicant's Site Plan and Land Disturbance Permit (LDP) reviews to ensure there would be no impact on the floodplain and surrounding environment. She clarified that the current hearing covered only the zoning portion of the request. Chairman Bodenhamer stated that the Site Plan and LDP review were separate processes that occur after the Planning Commission and Mayor and Council.

Ms. Campbell then addressed the question about leveling the site and stated that there were plans to level the property to address a drop from Phase 1 to the current site. She also stated that the plans would be evaluated to ensure no runoff would impact the surrounding site or flood zone area.

Mrs. Rene Fowler introduced herself as the property owner at 1625 Oakridge Drive and 1500 Old 41 Highway. She commented that while she was not opposed to the development of the property, she was concerned about the presence of high-tension power lines. She explained that one high tension power line goes through the center of her property and another goes through the property under consideration. She stated that if the hill was not leveled out, the development would be taller than anything else on Old 41 Highway. She explained when she developed, they were required to bury their power lines to avoid disturbing the National Park property. She stated that she did not know how the applicant would avoid high-tension power lines with four stories. She also commented that she was concerned about light pollution from the proposed development because Georgia Power does not allow trees in excess of 16 feet under power lines. She stated that she could not tell on the plan where the power lines were located relative to the proposed building. She asked if there was a way to know about the location of the building relative to the power lines.

Ms. Campbell responded that the location of the power lines relative to the proposed development was indicated on the site plan. She showed the location of the power lines on the site plan and stated that the buildings were not close to the power lines. Mrs. Fowler responded that the buildings had to be close to the power lines because the property is small. She stated that there was a 125 foot right-of-way on the power line on the property and a 100-foot ROW on the power line on her property. She commented that based on the site plan it appeared the power lines were on the downside of the hill. Chairman Bodenhamer explained that there were multiple regulations about the required distance from power lines. He noted that if the proposed development was too close, Georgia Power would catch it. Mrs. Fowler responded that she knew about the distance requirement and was wondering if the applicant received special permission to lower the lines. Ms. Campbell stated that based on the site plan, the power line was 75 to 80 feet from any of the buildings. Commissioner Bulter commented that there appeared to be a site wall planned for the corner of the parking lot located adjacent to the power line. Mrs. Fowler understood that the power lines would be close to the

DRAFT

parking lot but not necessarily close to the building.

Mrs. Fowler stated that a part of the Walton Ridenour was developed on the corner of Oakridge Drive and Old 41 Highway. She explained that Oakridge Drive is a dead end street and blocked off by an eight-foot fence. She asked if the proposed project would remove the fence to create a new access to Old 41 Highway. Mrs. Fowler also described having issues with the people from the neighboring apartments, including a fire started on her property.

Chairman Bodenhamer responded that if recommended for approval, there would be a stipulation that the applicant would follow the current proposed traffic layout. Commissioner Butler commented that a separate action would be required if the applicant wanted to connect Oakridge Drive into their proposal. He stated that the current application only addresses the 11.44 +/- acres.

Ms. Colley sought to clarify answers to some of the public comment questions. She also wanted the representative from Walton Communities to speak on the power line issues. In response to the question about the number of stories, she stated that the buildings would be three and four stories across the proposed site plan. In response to the confusion about the signs going down and coming up again, she explained that the sign issue was because there was a change to the project. When the project was first proposed, the number of units per acre was too high because a large portion of the property is in the floodplain. The floodplain area could not be considered in the calculation of units per acre. She hoped it addressed concerns about what could happen on that corner of the property. She stated that they have come back with a new plan with a relatively low number of units.

Ms. Colley then sought to answer how many people would be coming and going from the site. She explained that as Phase 2 of the Walton Ridenour community, the project would only have 182 units, the majority of which are one-bedroom and two-bedroom units. She also wanted to acknowledge the question about the variance. She explained that in Walton's experience in Walton Ridenour Phase 1, they found that parking demand was much lower than the number of spots available. With the property's challenges, she stated that having a variance on the number of parking spaces would help develop the property. She then invited the Walton Communities representative to discuss the power line issue.

Mr. Corbin Adams introduced himself as a representative from Walton Communities. He thanked the City of Kennesaw for being great partners with Walton over the years and noted the impact they have been able to have through the Walton Ridenour and the Legacy at Kennesaw Mountain. He clarified that the property would not be leveled and that the buildings would start at three stories and then drop to four stories to follow the existing topography. He stated that a retaining wall would be built, the floodplain would not be impacted, the floodplain would not be filled in, and all dirt would be maintained and moved on the site.

DRAFT

Chairman Bodenhamer asked if there was any additional public comment.

Ms. Laura Blakeslee asked if she could return to the podium to make an additional comment. Chairman Bodenhamer responded in the affirmative but asked Ms. Blakeslee to keep it brief. Ms. Blakeslee encouraged the Commissioners to investigate the current conditions on the property where the gate was located. She stated that all that to allow a new path to Old 41 Highway, the gate would just need to be opened. She directed the Commissioners to the approximate location of the gate on the site plan.

Chairman Bodenhamer stated that because the gate was not located on the property subject to the current zoning hearing, the Commission could not discuss it. He requested that staff look in to the issue so the information could be given to Mayor and Council. Ms. Blakeslee explained that Oakridge is only used by homeowners on the street. She stated that if the gate was opened, there would be a shortcut for the rest of Ridenour to access Old 41 Highway and bypass the traffic light. She stated that people bypassing the gate on foot did not cause a traffic problem, but opening the gate to vehicle traffic would. Chairman Bodenhamer stated that they would have to look into who owns the gate, who operates the gate, and why the gate was there. He stated that the Commission did not have enough information to speak on the issue.

Chairman Bodenhamer closed the floor to public comment and opened the floor to Commissioner comment.

Commissioner Butler asked if the PVC zoning district limited the types of commercial activity in the commercial spaces. Ms. Campbell responded in the affirmative. She explained that the Unified Development Code outlined specific permitted uses within the zoning district. She stated that the zoning district was more restrictive than the uses typically seen in the General Commercial (GC) district as the district was meant to cater towards community uses.

Commissioner Patterson expressed concern about how the addition of commercial spaces and the reduction in parking spaces might impact the traffic flow of the site. She asked what the difference was between 1.75 parking spaces and 1.5 parking spaces. Ms. Campbell noted that the parking variance was the next item on the agenda but could review the details. She stated that staff analyzed the variance application for a reduction from 1.75 spaces per dwelling unit to 1.5 spaces per dwelling unit and found the reduced parking ratio would result in 64 fewer parking spaces. Ms. Campbell explained that based on the applicant's proposal, the commercial spaces were intended for office and not traditional retail or restaurant uses due to the site's limited access. She stated that the residential and office components would utilize the same parking with the assumption that residents would use spaces after 5 p.m. and businesses would use spaces when residents were out. Ms. Campbell further added that Phase 1 on the development has an overabundance of parking spaces, some of which could be used for Phase 2. She summarized that for those reasons, staff recommended approval for a variance for the parking. Commissioner Patterson stated that she did not mean to jump around agenda items. She commented that there seemed to be concern about the

DRAFT

space, congestion, and activities on the site. She commented that it seemed random to put 5000 square feet of commercial space between the residential units. She explained that there were questions about who would be going to the businesses and what would be occurring on the site. Ms. Campbell responded that the proposal was not a new model for the PVC zoning district. She stated that Ridenour and other businesses had similar models of office space within a community space. She provided additional details on the Ridenour as an example.

Chairman Bodenhamer asked what the difference was between the previous development proposal and the current development proposal. Ms. Campbell responded that the only difference was the additional office component. Ms. Colley sought to provide clarification on Commissioner questions. She explained that the commercial component consisted of two 2,500 square foot commercial spaces totaling 5,000 square feet. She showed the Commissioners the location of the two separate spaces on the plan. She also commented that changing the zoning to PVC made the proposed Phase 2 consistent with Phase 1 and other parts of the Ridenour Community.

Chairman Bodenhamer closed the floor to Commissioner comment and called for a motion.

Chairman Bodenhamer called for a motion.
Motion by Commissioner Butler to approve with the following conditions:
1. The rezoning of the Subject Property to Planned Unit Community (PVC) zoning district shall be in accordance with the technical and conceptual site plans submitted concurrently with the application and shall comply with the required front, side, and rear setbacks as outlined in the UDC for PVC zoning district.
2. The Subject Property shall be developed as a mixed-use project, consisting of 182 units and a minimum 5,000 square feet commercial/office space.
3. The proposed retail and commercial use must adhere to the list of permitted uses as specified in the Planned Village Community (PVC) zoning regulations to ensure consistency with the intended character
4. The architectural style and composition of the buildings to be constructed on the Subject Property shall be in reasonable conformity to the architectural renderings/elevations submitted with the application and compatible with surrounding development with the Ridenour/ Walton development.
5. Compliance with the recommendations from the City Engineer and/or the City's Public Works Director regarding detention, water quality and stormwater management.
6. The applicant will be required to complete sidewalk connectivity along Old 41 Highway, extending the pedestrian network from the existing Legacy at Walton Kennesaw Mountain (62+) community.
7. Landscaping for the entrance area, signage areas, amenity and courtyard areas and all other common areas immediately surrounding the proposed buildings shall be professionally designed, implemented and maintained, which shall include the installation of an irrigation system in areas where appropriate.
8. The proposed community shall utilize the City or Cobb County; utility services as is typical for such residential development.

DRAFT

9. All utilities servicing the residences with the proposed community shall be underground.
10. Dumpsters will be positioned so as to prevent visual intrusion from streets, connection points to the community spaces and, wherever possible with screening by landscaping, walls and/or vegetation. Dumpsters shall have rubber lids and bumpers to minimize noise during their emptying.
11. The proposed development shall include amenities for use and enjoyment of its residents as follows:
a. A Clubhouse
b. Community courtyards, gathering places, outdoor amenity space
c. Pedestrian connectivity
12. Minor modifications to the within and foregoing stipulations/conditions, lighting, landscaping, signage, architecture, site fixtures and the like may be approved by the City's Planning and Zoning Administrator or staff designee as needed or necessary.
13. The applicant agrees that construction will begin in 24 months of the approval date of the rezoning. If no land development activity is initiated, then the subject property will automatically revert back to the original zoning.
14. The existing curb cut on Old 41 Highway shall not be utilized for vehicular access.
Seconded by Vice Chair Vande Zande
Chairman Bodenhamer proceeded with a roll call for approval.
Vote taken, motion unanimously approved 3-0. Motion carried.

C. **ZV2026-02** - Consideration of a variance application submitted by Walson Communities LLC for the properties located at 1600 Old 41 Hwy and 0 Old 41 Hwy (parcel #20021200130 & 20021201560). Said variance request is to reduce the minimum parking requirement for multi-family dwelling units from 1.75 spaces per dwelling unit to 1.5 spaces per dwelling unit. Property consists of 11.44 +/- acres and lies in land lot 140, tax parcels 13 & 156.

Ms. Chanelle Campbell introduced this agenda item. This is a concurrent application submitted by Walton Communities LLC for the properties located at 1600 Old 41 Highway and 0 Old 41 Highway for a parking variance. The required parking for a multifamily dwelling unit based on the Unified Development Code is 1.75 parking spaces. The applicant is requesting to reduce the requirement to 1.5 parking spaces. The change reduces the number of parking spaces by 64. Ms. Campbell stated that staff evaluates requests for variances based on Section 9 of the Unified Development Code, which outlines the considerations and conditions for a variance. Based on the site challenges, topography, and the floodplain, staff recommends approval of the variance as requested by the applicant.

Chairman Bodenhamer invited the applicant to speak.

Mr. Corbin Adams explained that multifamily buildings and shopping centers used to be surrounded by surface parking for a lot of cars. He pointed to the example of Town Center Mall as a place that followed the pattern and is now left with many unused parking spaces. He stated that while they wanted to provide enough parking for the residents, they did not want to over park. Instead, they wanted to use excess space as

DRAFT

green space, meetings areas, and amenities. Mr. Adams stated that the new developments for Walton Communities typically have 1.25 parking spaces per unit because senior residents and one and two-bedroom units do not require as many cars. He commented that the industry in general was moving towards lower parking densities and Walton liked to use the excess space for amenities and green spaces.

Chairman Bodenhamer opened the floor for public comment.

Ms. Mariah Brazell asked about parking on the site. She had heard mention of 62 or 72 parking spaces and was confused about how that would be enough parking for 180 units.

Chairman Bodenhamer responded that staff had said the parking variance would reduce the number of parking spaces by 64. He stated that the reduction of 1.75 spaces per dwelling unit to 1.5 spaces per dwelling unit translates to a reduction of 64 parking spaces. He estimated that a parking ratio of 1.5 for 180 units would be around 270 parking spaces.

Ms. Brazell stated that she lived in an apartment. She explained that with multiple people, parties, and children in apartments there would be extra cars. She understood that the number of spaces would be lowered because some people did not have transportation. She noted that those tenants would need transportation to go to and from the apartments, which would result in multiple cars on site.

Ms. Laura Blakelee commented that she thought the reduction in parking spaces was appropriate given other global concerns.

Chairman Bodenhamer closed the floor to public comment and opened the floor to Commissioner comment.

Chairman Bodenhamer asked how the number of parking spaces was calculated for the commercial spaces. Ms. Campbell responded that since the intended use for the commercial spaces was professional office, the parking calculation for professional office space, which is one space per 285 square feet, was used. She explained that for 5,000 square feet of office space, 18 parking spaces would be required. With the 319 parking spaces required for the residential, the total number of required parking spaces for the site is 337. The proposed variance to reduce the parking ratio would result in a reduction of 64 parking spaces. Chairman Bodenhamer asked how many parking spaces were being proposed. Ms. Campbell responded that the applicant was proposing 273 parking spaces.

Commissioner Butler asked what the anticipated number of one-bedroom, two-bedroom, and three-bedroom units was. Ms. Campbell responded that the proposal included 47 one-bedroom units, 111 two-bedroom units, and 24 three-bedroom units. Ms. Colley clarified that the 273 spaces would cover the parking needs for the 182 units, 75 percent of which are one and two bedroom units.

DRAFT

Chairman Bodenhamer referenced a previous mention that Walton Ridenour's Phase 1 parking was not fully utilized and could be used as overflow parking for Phase 2. He asked how close Phase 1 was to Phase 2 and if Phase 2 could use parking spaces in Phase 1 if necessary. Mr. Adams responded that it was possible, but an easement agreement between the two properties would be required. Chairman Bodenhamer asked if the properties were owned by different people. Mr. Adams responded that the phases could have different ownership.

Commissioner Butler asked if there was sidewalk connecting Phase 1 and Phase 2 of the Walton Ridenour. Mr. Adams responded that there was a road that goes behind the Shoppes at Ridenour and dead-ends into the proposed site, but did not recall if there was sidewalk.

Chairman Bodenhamer asked if there were any stipulations on the variance. Ms. Campbell stated that there were no stipulations.

Mr. Ralph Fowler asked for clarification on the size and number of office spaces proposed. He also asked if the PVC zoning district allowed uses like tattoo parlors, vape shops, and bars. Chairman Bodenhamer responded that Ms. Campbell was indicating the uses were not permitted within the PVC zoning district. He also stated that it sounded like there were two spaces for a total of 5,000 square feet and invited the applicant to clarify. Ms. Colley stated that there were two commercial spaces and that each space was 2500 square feet. She showed the location of the spaces on the preliminary site plan. Ms. Colley explained that adding the two commercial spaces and rezoning to PVC would allow the developer to build a similar number of units given that the floodplain reduces the site's buildable acreage.

Hearing no additional comments, Chairman Bodenhamer closed the floor to Commissioner comments.

Chairman Bodenhamer called for a motion.
Motion to approve by Vice Chair Vande Zande
Seconded by Commissioner Patterson
Chairman Bodenhamer proceeded with a roll call for approval.
Vote taken, motion unanimously approved 3-0. Motion carried.

5. Staff Comment

Ms. Chanelle Campbell provided updates from staff. She announced that the Livable Centers Initiative (LCI) study was currently underway and that the first public meeting was held earlier in the evening at the Ben Robertson Community Center. She encouraged residents to participate. Ms. Campbell also stated that the Comprehensive Plan for the next 5 to 20 years for the city was ongoing. She explained that notices, signage, flyers, and social media posts would be going out to residents to encourage partcipation. Opportunities for residents to participate include a survey, pop-up events,

4.04.05 HOME OCCUPATION

- Home Occupation are allowed in dwelling units on the basis that such uses are incidental to the use of the premises as a residence. They have special regulations that apply to ensure that home occupations will not be a detriment to the character and livability of the surrounding neighborhood.
- There are two (2) types of home occupations, Type A and Type B. Permit requirements and uses allowed in each type vary and are allowed only if they comply with all of the requirements of this ordinance.
    1. In Type A home occupations, resident(s) use their home as a Virtual *Home* Office only. Employees, clients, or customers are prohibited from coming to the residence.
    2. In Type B home occupations resident(s) use their home for work, home office, sales, deliveries, or business mailing address results in one (1) additional employee, consultant, agent, subcontractor, customer, or delivery personnel coming to the residence. Type B home occupation are also required for any activity that involves the physical production or creation of a product at subject residential property. Type B home occupations must obtain a land use permit from the City Council due to their greater possible impact on the surrounding neighborhood as a result of individuals and visitors from outside the neighborhood coming to the property.

2022 COMPREHENSIVE PLAN UPDATE

Residential Low/Medium (RL)

These are areas of residential land uses within the City. This may be single-family or multi-family housing. New development should reflect the character of the surrounding development.

Recommendations:

- Density: 1-4 units per acre
- Internal amenities
- Walkable; Connectivity to adjacent parcels
- Conservation of natural resource
- Percentage of housing dedicated to being affordable*

FUTURE LAND USE ANALYSIS

The Comprehensive Plan designates the future land use for the property as **Residential Low/Medium (RL).** The intent of the **Residential Low/Medium** Land Use is to support the growth, stability, and preservation of the character of existing residential neighborhoods while accommodating compatible residential development. The applicant's property will adhere to the Comprehensive Plan as there are no intentions to change the zoning or the external appearance of the property, which could potentially alter the character of the neighborhood or the overall density. Staff finds that the request aligns with the goals of the Comprehensive Plan.

COMPATIBLE FUTURE LAND USE

- Neighborhood Activity Center (NAC)
- Park/Recreation/Conservation (PRC)
- Planned Unit Development (PUD)
- Residential Low (RL)

In addition to the established Future Land Use Map, the City would like to further define an appropriate development atmosphere to ensure compatible and unified development within specified areas of the City.

Furthermore, please refer to the Policy Matrix which should be used for new development within each of the described areas.

JILES AND BAKER

The Jiles and Baker area is a unique blend of older and newer housing developments mixed wit neighborhood-compatible retail. This is the largest of the residential character areas in land area and population.

Located in the northwest quadrant of the City, the area spans from Moon Station Road west to near the Acworth city limits and from Main Street north to Baker Road. Single-family detached residential is the predominant land use. Most of the homes are part of a neighborhood or planned unit developments. Notable public features of the area include the Kennesaw Community Trail and being adjacent to Swift-Cantrell Park.

STAFF ANALYSIS REPORT

ZONING CASE #: LU2026-04

STAFF ANALYSIS:

The applicant, Gregory Miller, is requesting a Land Use Permit for the operations of a home occupation at the property located at 3786 North Hampton Drive NW zoned R-15 Single-Family Residential District . The applicant has applied for a Land Use Permit to design and produce embroidered textiles and goods for sale.

Under current regulation, ***Section 4.04.05* Standards for Home Occupations**, home occupations are permitted with the approval of a Land Use Permit by Mayor and Council. "*Home occupation*" is defined as being those occupations which can ordinarily be carried on out of a residence or other structure without having any significant effect on the neighborhood or area from which such home occupation is carried on.

Staff has analyzed the request based on the standards for decision outlined in section 4.04.05 with the following observations:

1. **Safety, health, welfare, and moral concerns involving the surrounding neighborhood**
   The proposed use will not generate excessive noise, nor will it emit smoke, odor, dust or vibrations detectable to the normal senses outside the dwelling unit that will affect the safety, health, welfare and moral concerns of the surrounding property owners.
2. **Parking and traffic consideration**
   No additional traffic shall be generated by the home occupation other than would normally be expected in a residential neighborhood, products will be sold online or at craft markets.
3. **Number of nonrelated employees**
   The applicant will be the only on site employee connected to the functioning of the business.
4. **Number of commercial and business deliveries**
   There will be minimal traffic increase due to business related deliveries.
5. **The city's general presumption that residential neighborhoods should not allow non-compatible business uses**
   Staff finds that the residential nature of the community will not be adversely affected, as there will be no clients visiting the property or external indication that a business is operating.
6. **Compatibility of the business use to the neighborhood**
   Staff finds that if granted the land use permit, the business will not be detrimental to the character or livability of the surrounding homes and the residential viability of the dwelling is maintained with the home occupation being minor to the use of the premises as a residence. There will be no foot traffic or exterior indication of the home occupation or variation from the residential character of the principal use that would indicate the presence of a business.
7. **Hours of operation**
   The applicant plans to operate during traditional working hours, creating no visible or audible impact to any neighboring property.
8. **Existing business uses in the vicinity**
   The property is zoned R-15 Single-Family Residential (R-15) and is surrounded exclusively by single-family residential homes.

STAFF ANALYSIS REPORT

ZONING CASE #: LU2026-04

STAFF ANALYSIS:

9. **Effect on property values of surrounding property**
   The proposed home occupation is not expected to adversely affect the value of surrounding properties. No significant alterations to the exterior of the dwelling are proposed, and the property's residential zoning designation will remain unchanged.

10. **Circumstances surrounding neighborhood complaints**
    Staff has not identified any anticipated adverse impacts that would be expected to generate complaints from surrounding property owners. To ensure the proposed use complies with the standards of the Unified Development Code, staff has included recommended conditions of approval, which are outlined in the recommendation section of this report.

11. **Intensity of the proposed business use**
    The proposed home occupation is a low-intensity use that is compatible with the character and development pattern of the surrounding R-10 and R-15 Single-Family Residential zoning districts.

12. **Location of use within the neighborhood**
    Staff finds that the proposed home occupation will be conducted entirely within an enclosed building. The use will be limited to the designated embroidery room and office space within the principal residential structure and will not extend beyond the dwelling or create impacts on the surrounding neighborhood.

Staff finds that approval of the request for a land use permit will not affect the current zoning and will continue to align with the goal outlined in the Comprehensive Plan. The property will maintain its residential nature and the character of the neighborhood and surrounding properties will go unchanged.

ZONING ADMINISTRATOR'S RECOMMENDATION: **APPROVAL WITH CONDITIONS**

Based on the analysis completed by Staff, the Zoning Administrator, recommends **approval with the following conditions** for case #LU2026-04.

Conditions:

1. The land use permit is limited to, exclusive for and only valid for the current applicant and the life of this particular business and use, and it is not transferrable. Any changes would require additional review and approval.
2. There shall be no clients, customers or employees at this location. Nor shall there be any evidence of a home based business visible from the public right-of-way including no signs and no more than one commercial vehicle dedicated to this business.
3. The land use permit is valid for 24-months starting from the date of approval.

Borrower understands and agrees that MERS holds only legal title to the interests granted by Borrower in this Security Instrument, but, if necessary to comply with law or custom, MERS (as nominee for Lender and Lender's successors and assigns) has the right: to exercise any or all of those interests, including, but not limited to, the right to foreclose and sell the Property; and to take any action required of Lender including, but not limited to, releasing and canceling this Security Instrument.

BORROWER COVENANTS that Borrower is lawfully seised of the estate hereby conveyed and has the right to grant and convey the Property and that the Property is unencumbered, except for encumbrances of record. Borrower warrants and will defend generally the title to the Property against all claims and demands, subject to any encumbrances of record.

THIS SECURITY INSTRUMENT combines uniform covenants for national use and non-uniform covenants with limited variations by jurisdiction to constitute a uniform security instrument covering real property.

UNIFORM COVENANTS. Borrower and Lender covenant and agree as follows:

1. Payment of Principal, Interest, Escrow Items, Prepayment Charges, and Late Charges. Borrower shall pay when due the principal of, and interest on, the debt evidenced by the Note and any prepayment charges and late charges due under the Note. Borrower shall also pay funds for Escrow Items pursuant to Section 3. Payments due under the Note and this Security Instrument shall be made in U.S. currency. However, if any check or other instrument received by Lender as payment under the Note or this Security Instrument is returned to Lender unpaid, Lender may require that any or all subsequent payments due under the Note and this Security Instrument be made in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality, or entity; or (d) Electronic Funds Transfer.

Payments are deemed received by Lender when received at the location designated in the Note or at such other location as may be designated by Lender in accordance with the notice provisions in Section 15. Lender may return any payment or partial payment if the payment or partial payments are insufficient to bring the Loan current. Lender may accept any payment or partial payment insufficient to bring the Loan current, without waiver of any rights hereunder or prejudice to its rights to refuse such payment or partial payments in the future, but Lender is not obligated to apply such payments at the time such payments are accepted. If each Periodic Payment is applied as of its scheduled due date, then Lender need not pay interest on unapplied funds. Lender may hold such unapplied funds until Borrower makes payment to bring the Loan current. If Borrower does not do so within a reasonable period of time, Lender shall either apply such funds or return them to Borrower. If not applied earlier, such funds will be applied to the outstanding principal balance under the Note immediately prior to foreclosure. No offset or claim which Borrower might have now or in the future against Lender shall relieve Borrower from making payments due under the Note and this Security Instrument or performing the covenants and agreements secured by this Security Instrument.

2. Application of Payments or Proceeds. Except as otherwise described in this Section 2, all payments accepted and applied by Lender shall be applied in the following order of priority: (a) interest due under the Note; (b) principal due under the Note; (c) amounts due under Section 3. Such payments shall be applied to each Periodic Payment in the order in which it became due. Any remaining amounts shall be applied first to late charges, second to any other amounts due under this Security Instrument, and then to reduce the principal balance of the Note.

If Lender receives a payment from Borrower for a delinquent Periodic Payment which includes a sufficient amount to pay any late charge due, the payment may be applied to the delinquent payment and the late charge. If more than one Periodic Payment is outstanding, Lender may apply any payment received from Borrower to the repayment of the Periodic Payments if, and to the extent that, each payment can be paid in full. To the extent that any excess exists after the payment is applied to the full payment of one or more Periodic Payments, such excess may be applied to any late charges due. Voluntary prepayments shall be applied first to any prepayment charges and then as described in the Note.

Any application of payments, insurance proceeds, or Miscellaneous Proceeds to principal due under the Note shall not extend or postpone the due date, or change the amount, of the Periodic Payments.

3. Funds for Escrow Items. Borrower shall pay to Lender on the day Periodic Payments are due under the Note, until the Note is paid in full, a sum (the "Funds") to provide for payment of amounts due for: (a) taxes and assessments and other items which can attain priority over this Security Instrument as a lien or encumbrance on the Property; (b) leasehold payments or ground rents on the Property, if any; (c) premiums for any and all insurance required by Lender under Section 5; and (d) Mortgage Insurance premiums, if any, or any sums payable by Borrower to Lender in lieu of the payment of Mortgage

Initials: _____

Insurance premiums in accordance with the provisions of Section 10. These items are called "Escrow Items." At origination or at any time during the term of the Loan, Lender may require that Community Association Dues, Fees, and Assessments, if any, be escrowed by Borrower, and such dues, fees and assessments shall be an Escrow Item. Borrower shall promptly furnish to Lender all notices of amounts to be paid under this Section. Borrower shall pay Lender the Funds for Escrow Items unless Lender waives Borrower's obligation to pay the Funds for any or all Escrow Items. Lender may waive Borrower's obligation to pay to Lender Funds for any or all Escrow Items at any time. Any such waiver may only be in writing. In the event of such waiver, Borrower shall pay directly, when and where payable, the amounts due for any Escrow Items for which payment of Funds has been waived by Lender and, if Lender requires, shall furnish to Lender receipts evidencing such payment within such time period as Lender may require. Borrower's obligation to make such payments and to provide receipts shall for all purposes be deemed to be a covenant and agreement contained in this Security Instrument, as the phrase "covenant and agreement" is used in Section 9. If Borrower is obligated to pay Escrow Items directly, pursuant to a waiver, and Borrower fails to pay the amount due for an Escrow Item, Lender may exercise its rights under Section 9 and pay such amount and Borrower shall then be obligated under Section 9 to repay to Lender any such amount. Lender may revoke the waiver as to any or all Escrow Items at any time by a notice given in accordance with Section 15 and, upon such revocation, Borrower shall pay to Lender all Funds, and in such amounts, that are then required under this Section 3.

Lender may, at any time, collect and hold Funds in an amount (a) sufficient to permit Lender to apply the Funds at the time specified under RESPA, and (b) not to exceed the maximum amount a lender can require under RESPA. Lender shall estimate the amount of Funds due on the basis of current data and reasonable estimates of expenditures of future Escrow Items or otherwise in accordance with Applicable Law.

The Funds shall be held in an institution whose deposits are insured by a federal agency, instrumentality, or entity (including Lender, if Lender is an institution whose deposits are so insured) or in any Federal Home Loan Bank. Lender shall apply the Funds to pay the Escrow Items no later than the time specified under RESPA. Lender shall not charge Borrower for holding and applying the Funds, annually analyzing the escrow account, or verifying the Escrow Items, unless Lender pays Borrower interest on the Funds and Applicable Law permits Lender to make such a charge. Unless an agreement is made in writing or Applicable Law requires interest to be paid on the Funds, Lender shall not be required to pay Borrower any interest or earnings on the Funds. Borrower and Lender can agree in writing, however, that interest shall be paid on the Funds. Lender shall give to Borrower, without charge, an annual accounting of the Funds as required by RESPA.

If there is a surplus of Funds held in escrow, as defined under RESPA, Lender shall account to Borrower for the excess funds in accordance with RESPA. If there is a shortage of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the shortage in accordance with RESPA, but in no more than 12 monthly payments. If there is a deficiency of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the deficiency in accordance with RESPA, but in no more than 12 monthly payments.

Upon payment in full of all sums secured by this Security Instrument, Lender shall promptly refund to Borrower any Funds held by Lender.

4. Charges; Liens. Borrower shall pay all taxes, assessments, charges, fines, and impositions attributable to the Property which can attain priority over this Security Instrument, leasehold payments or ground rents on the Property, if any, and Community Association Dues, Fees, and Assessments, if any. To the extent that these items are Escrow Items, Borrower shall pay them in the manner provided in Section 3.

Borrower shall promptly discharge any lien which has priority over this Security Instrument unless Borrower: (a) agrees in writing to the payment of the obligation secured by the lien in a manner acceptable to Lender, but only so long as Borrower is performing such agreement; (b) contests the lien in good faith by, or defends against enforcement of the lien in, legal proceedings which in Lender's opinion operate to prevent the enforcement of the lien while those proceedings are pending, but only until such proceedings are concluded; or (c) secures from the holder of the lien an agreement satisfactory to Lender subordinating the lien to this Security Instrument. If Lender determines that any part of the Property is subject to a lien which can attain priority over this Security Instrument, Lender may give Borrower a notice identifying the lien. Within 10 days of the date on which that notice is given, Borrower shall satisfy the lien or take one or more of the actions set forth above in this Section 4.

Lender may require Borrower to pay a one-time charge for a real estate tax verification and/or reporting service used by Lender in connection with this Loan.

5. Property Insurance. Borrower shall keep the improvements now existing or hereafter erected on the Property insured against loss by fire, hazards included within the term "extended coverage," and any other hazards including, but not limited to, earthquakes and floods, for which Lender requires insurance. This insurance shall be maintained in the amounts (including deductible levels) and for the periods that Lender requires. What Lender requires pursuant to the preceding sentences can change during the term of the Loan. The insurance carrier providing the insurance shall be chosen by Borrower subject to Lender's right to disapprove Borrower's choice, which right shall not be exercised unreasonably. Lender may require Borrower to pay, in connection with this Loan, either: (a) a one-time charge for flood zone determination, certification and tracking services; or (b) a one-time charge for flood zone determination and certification services and subsequent charges each time remappings or similar changes occur which reasonably might affect such determination or certification. Borrower shall also be responsible for the

Unofficial Document

payment of any fees imposed by the Federal Emergency Management Agency in connection with the review of any flood zone determination resulting from an objection by Borrower.

If Borrower fails to maintain any of the coverages described above, Lender may obtain insurance coverage, at Lender's option and Borrower's expense. Lender is under no obligation to purchase any particular type or amount of coverage. Therefore, such coverage shall cover Lender, but might or might not protect Borrower, Borrower's equity in the Property, or the contents of the Property, against any risk, hazard or liability and might provide greater or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 5 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such insurance proceeds shall be applied in the order provided for in Section 2.

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. In either event, or if Lender acquires the Property under Section 22 or otherwise, Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

6. Occupancy. Borrower shall occupy, establish, and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy, unless Lender otherwise agrees in writing, which consent shall not be unreasonably withheld, or unless extenuating circumstances exist which are beyond Borrower's control.

7. Preservation, Maintenance and Protection of the Property; Inspections. Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Unless it is determined pursuant to Section 5 that repair or restoration is not economically feasible, Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender or its agent may make reasonable entries upon and inspections of the Property. If it has reasonable cause, Lender may inspect the interior of the improvements on the Property. Lender shall give Borrower notice at the time of or prior to such an interior inspection specifying such reasonable cause.

8. Borrower's Loan Application. Borrower shall be in default if, during the Loan application process, Borrower or any persons or entities acting at the direction of Borrower or with Borrower's knowledge or consent gave materially false, misleading, or inaccurate information or statements to Lender (or failed to provide Lender with material information) in connection with the Loan. Material representations include, but are not limited to, representations concerning Borrower's occupancy of the Property as Borrower's principal residence.

9. Protection of Lender's Interest in the Property and Rights Under this Security Instrument. If (a) Borrower fails to perform the covenants and agreements contained in this Security Instrument, (b) there is a legal proceeding that might significantly affect Lender's interest in the Property and/or rights under this Security Instrument (such as a proceeding in bankruptcy, probate, for condemnation or forfeiture, for enforcement of a lien which may attain priority over this Security Instrument or to enforce laws or regulations), or (c) Borrower has abandoned the Property, then Lender may do and pay for whatever is reasonable or appropriate to protect Lender's interest in the Property and rights under this Security Instrument, including protecting and/or assessing the value of the Property, and securing and/or repairing the Property (as set forth below). Lender's actions can include, but are not limited to: (a) paying any sums secured by a lien which has priority over this Security Instrument; (b) appearing in court; and (c) paying reasonable attorneys' fees to protect its interest in the Property and/or rights under this Security Instrument, including its secured position in a bankruptcy proceeding. Securing the Property includes, but is not limited to, making repairs, replacing doors and windows, draining water from pipes, and eliminating building or other code violations or dangerous conditions. Although Lender may take action under this Section 9, Lender does not have to do so and is not under any duty or obligation to do so. It is agreed that Lender incurs no liability for not taking any or all actions authorized under this Section 9.

Any amounts disbursed by Lender under this Section 9 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

If this Security Instrument is on a leasehold, Borrower shall comply with all the provisions of the lease. Borrower shall not surrender the leasehold estate and interests herein conveyed or terminate or cancel the ground lease. Borrower shall not, without the express written consent of Lender, alter or amend the ground lease. If Borrower acquires fee title to the Property, the leasehold and the fee title shall not merge unless Lender agrees to the merger in writing.

10. Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan, Borrower shall pay the premiums required to maintain the Mortgage Insurance in effect. If, for any reason, the Mortgage Insurance coverage required by Lender ceases to be available from the mortgage insurer that previously provided such insurance and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to obtain coverage substantially equivalent to the Mortgage Insurance previously in effect, at a cost substantially equivalent to the cost to Borrower of the Mortgage Insurance previously in effect, from an alternate mortgage insurer selected by Lender. If substantially equivalent Mortgage Insurance coverage is not available, Borrower shall continue to pay to Lender the amount of the separately designated payments that were due when the insurance coverage ceased to be in effect. Lender will accept, use and retain these payments as a non-refundable loss reserve in lieu of Mortgage Insurance. Such loss reserve shall be non-refundable, notwithstanding the fact that the Loan is ultimately paid in full, and Lender shall not be required to pay Borrower any interest or earnings on such loss reserve. Lender can no longer require loss reserve payments if Mortgage Insurance coverage (in the amount and for the period that Lender requires) provided by an insurer selected by Lender again becomes available, is obtained, and Lender requires separately designated payments toward the premiums for Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to maintain Mortgage Insurance in effect, or to provide a non-refundable loss reserve, until Lender's requirement for Mortgage Insurance ends in accordance with any written agreement between Borrower and Lender providing for such termination or until termination is required by Applicable Law. Nothing in this Section 10 affects Borrower's obligation to pay interest at the rate provided in the Note.

Mortgage Insurance reimburses Lender (or any entity that purchases the Note) for certain losses it may incur if Borrower does not repay the Loan as agreed. Borrower is not a party to the Mortgage Insurance.

Mortgage insurers evaluate their total risk on all such insurance in force from time to time, and may enter into agreements with other parties that share or modify their risk, or reduce losses. These agreements are on terms and conditions that are satisfactory to the mortgage insurer and the other party (or parties) to these agreements. These agreements may require the mortgage insurer to make payments using any source of funds that the mortgage insurer may have available (which may include funds obtained from Mortgage Insurance premiums).

As a result of these agreements, Lender, any purchaser of the Note, another insurer, any reinsurer, any other entity, or any affiliate of any of the foregoing, may receive (directly or indirectly) amounts that derive from (or might be characterized as) a portion of Borrower's payments for Mortgage Insurance, in exchange for sharing or modifying the mortgage insurer's risk, or reducing losses. If such agreement provides that an affiliate of Lender takes a share of the insurer's risk in exchange for a share of the premiums paid to the insurer, the arrangement is often termed "captive reinsurance." Further:

(a) Any such agreements will not affect the amounts that Borrower has agreed to pay for Mortgage Insurance, or any other terms of the Loan. Such agreements will not increase the amount Borrower will owe for Mortgage Insurance, and they will not entitle Borrower to any refund.

(b) Any such agreements will not affect the rights Borrower has – if any – with respect to the Mortgage Insurance under the Homeowners Protection Act of 1998 or any other law. These rights may include the right to receive certain disclosures, to request and obtain cancellation of the Mortgage Insurance, to have the Mortgage Insurance terminated automatically, and/or to receive a refund of any Mortgage Insurance premiums that were unearned at the time of such cancellation or termination.

11. Assignment of Miscellaneous Proceeds; Forfeiture. All Miscellaneous Proceeds are hereby assigned to and shall be paid to Lender.

If the Property is damaged, such Miscellaneous Proceeds shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such Miscellaneous Proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may pay for the repairs and restoration in a single disbursement or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such Miscellaneous Proceeds, Lender shall not be required to pay Borrower any interest or earnings on such Miscellaneous Proceeds. If the restoration or repair is not economically feasible or Lender's security would be lessened, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such Miscellaneous Proceeds shall be applied in the order provided for in Section 2.

In the event of a total taking, destruction, or loss in value of the Property, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is equal to or greater than the amount of the sums secured by this Security Instrument immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the sums secured by this Security Instrument shall be reduced by the amount of the Miscellaneous Proceeds multiplied by the following fraction: (a) the total amount of the sums secured immediately before the partial taking, destruction, or loss in value divided by (b) the fair market value of the Property immediately before the partial taking, destruction, or loss in value. Any balance shall be paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is less than the amount of the sums secured immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument whether or not the sums are then due.

If the Property is abandoned by Borrower, or if, after notice by Lender to Borrower that the Opposing Party (as defined in the next sentence) offers to make an award to settle a claim for damages, Borrower fails to respond to Lender within 30 days after the date the notice is given, Lender is authorized to collect and apply the Miscellaneous Proceeds either to restoration or repair of the Property or to the sums secured by this Security Instrument, whether or not then due. "Opposing Party" means the third party that owes Borrower Miscellaneous Proceeds or the party against whom Borrower has a right of action in regard to Miscellaneous Proceeds.

Borrower shall be in default if any action or proceeding, whether civil or criminal, is begun that, in Lender's judgment, could result in forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. Borrower can cure such a default and, if acceleration has occurred, reinstate as provided in Section 19, by causing the action or proceeding to be dismissed with a ruling that, in Lender's judgment, precludes forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. The proceeds of any award or claim for damages that are attributable to the impairment of Lender's interest in the Property are hereby assigned and shall be paid to Lender.

All Miscellaneous Proceeds that are not applied to restoration or repair of the Property shall be applied in the order provided for in Section 2.

12. Borrower Not Released; Forbearance By Lender Not a Waiver. Extension of the time for payment or modification of amortization of the sums secured by this Security Instrument granted by Lender to Borrower or any Successor in Interest of Borrower shall not operate to release the liability of Borrower or any Successors in Interest of Borrower. Lender shall not be required to commence proceedings against any Successor in Interest of Borrower or to refuse to extend time for payment or otherwise modify amortization of the sums secured by this Security Instrument by reason of any demand made by the original Borrower or any Successors in Interest of Borrower. Any forbearance by Lender in exercising any right or remedy including, without limitation, Lender's acceptance of payments from third persons, entities or Successors in Interest of Borrower or in amounts less than the amount then due, shall not be a waiver of or preclude the exercise of any right or remedy.

13. Joint and Several Liability; Co-signers; Successors and Assigns Bound. Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Security Instrument but does not execute the Note (a "co-signer"): (a) is co-signing this Security Instrument only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Security Instrument; (b) is not personally obligated to pay the sums secured by this Security Instrument; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Security Instrument or the Note without the co-signer's consent.

Subject to the provisions of Section 18, any Successor in Interest of Borrower who assumes Borrower's obligations under this Security Instrument in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Security Instrument. Borrower shall not be released from Borrower's obligations and liability under this Security Instrument unless Lender agrees to such release in writing. The covenants and agreements of this Security Instrument shall bind (except as provided in Section 20) and benefit the successors and assigns of Lender.

LOAN #: 8010277303

14. Loan Charges. Lender may charge Borrower fees for services performed in connection with Borrower's default, for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument, including, but not limited to, attorneys' fees, property inspection and valuation fees. In regard to any other fees, the absence of express authority in this Security Instrument to charge a specific fee to Borrower shall not be construed as a prohibition on the charging of such fee. Lender may not charge fees that are expressly prohibited by this Security Instrument or by Applicable Law.

If the Loan is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the Loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by making a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial prepayment without any prepayment charge (whether or not a prepayment charge is provided for under the Note). Borrower's acceptance of any such refund made by direct payment to Borrower will constitute a waiver of any right of action Borrower might have arising out of such overcharge.

15. Notices. All notices given by Borrower or Lender in connection with this Security Instrument must be in writing. Any notice to Borrower in connection with this Security Instrument shall be deemed to have been given to Borrower when mailed by first class mail or when actually delivered to Borrower's notice address if sent by other means. Notice to any one Borrower shall constitute notice to all Borrowers unless Applicable Law expressly requires otherwise. The notice address shall be the Property Address unless Borrower has designated a substitute notice address by notice to Lender. Borrower shall promptly notify Lender of Borrower's change of address. If Lender specifies a procedure for reporting Borrower's change of address, then Borrower shall only report a change of address through that specified procedure. There may be only one designated notice address under this Security Instrument at any one time. Any notice to Lender shall be given by delivering it or by mailing it by first class mail to Lender's address stated herein unless Lender has designated another address by notice to Borrower. Any notice in connection with this Security Instrument shall not be deemed to have been given to Lender until actually received by Lender. If any notice required by this Security Instrument is also required under Applicable Law, the Applicable Law requirement will satisfy the corresponding requirement under this Security Instrument.

16. Governing Law; Severability; Rules of Construction. This Security Instrument shall be governed by federal law and the law of the jurisdiction in which the Property is located. All rights and obligations contained in this Security Instrument are subject to any requirements and limitations of Applicable Law. Applicable Law might explicitly or implicitly allow the parties to agree by contract or it might be silent, but such silence shall not be construed as a prohibition against agreement by contract. In the event that any provision or clause of this Security Instrument or the Note conflicts with Applicable Law, such conflict shall not affect other provisions of this Security Instrument or the Note which can be given effect without the conflicting provision.

As used in this Security Instrument: (a) words of the masculine gender shall mean and include corresponding neuter words or words of the feminine gender; (b) words in the singular shall mean and include the plural and vice versa; and (c) the word "may" gives sole discretion without any obligation to take any action.

17. Borrower's Copy. Borrower shall be given one copy of the Note and of this Security Instrument.

18. Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

19. Borrower's Right to Reinstate After Acceleration. If Borrower meets certain conditions, Borrower shall have the right to have enforcement of this Security Instrument discontinued at any time prior to the earliest of: (a) five days before sale of the Property pursuant to any power of sale contained in this Security Instrument; (b) such other period as Applicable Law might specify for the termination of Borrower's right to reinstate; or (c) entry of a judgment enforcing this Security Instrument. Those conditions are that Borrower: (a) pays Lender all sums which then would be due under this Security Instrument and the Note as if no acceleration had occurred; (b) cures any default of any other covenants or agreements; (c) pays all expenses incurred in enforcing this Security Instrument, including, but not limited to, reasonable attorneys' fees, property inspection and valuation fees, and other fees incurred for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument; and (d) takes such action as Lender may reasonably require to assure that Lender's interest in the Property and rights under this Security Instrument, and Borrower's obligation to pay the sums secured by this Security Instrument, shall continue unchanged. Lender may require that Borrower pay such reinstatement sums and expenses in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check

is drawn upon an institution whose deposits are insured by a federal agency, instrumentality or entity; or (d) Electronic Funds Transfer. Upon reinstatement by Borrower, this Security Instrument and obligations secured hereby shall remain fully effective as if no acceleration had occurred. However, this right to reinstate shall not apply in the case of acceleration under Section 18.

20. Sale of Note; Change of Loan Servicer; Notice of Grievance. The Note or a partial interest in the Note (together with this Security Instrument) can be sold one or more times without prior notice to Borrower. A sale might result in a change in the entity (known as the "Loan Servicer") that collects Periodic Payments due under the Note and this Security Instrument and performs other mortgage loan servicing obligations under the Note, this Security Instrument, and Applicable Law. There also might be one or more changes of the Loan Servicer unrelated to a sale of the Note. If there is a change of the Loan Servicer, Borrower will be given written notice of the change which will state the name and address of the new Loan Servicer, the address to which payments should be made and any other information RESPA requires in connection with a notice of transfer of servicing. If the Note is sold and thereafter the Loan is serviced by a Loan Servicer other than the purchaser of the Note, the mortgage loan servicing obligations to Borrower will remain with the Loan Servicer or be transferred to a successor Loan Servicer and are not assumed by the Note purchaser unless otherwise provided by the Note purchaser.

Neither Borrower nor Lender may commence, join, or be joined to any judicial action (as either an individual litigant or the member of a class) that arises from the other party's actions pursuant to this Security Instrument or that alleges that the other party has breached any provision of, or any duty owed by reason of, this Security Instrument, until such Borrower or Lender has notified the other party (with such notice given in compliance with the requirements of Section 15) of such alleged breach and afforded the other party hereto a reasonable period after the giving of such notice to take corrective action. If Applicable Law provides a time period which must elapse before certain action can be taken, that time period will be deemed to be reasonable for purposes of this paragraph. The notice of acceleration and opportunity to cure given to Borrower pursuant to Section 22 and the notice of acceleration given to Borrower pursuant to Section 18 shall be deemed to satisfy the notice and opportunity to take corrective action provisions of this Section 20.

21. Hazardous Substances. As used in this Section 21: (a) "Hazardous Substances" are those substances defined as toxic or hazardous substances, pollutants, or wastes by Environmental Law and the following substances: gasoline, kerosene, other flammable or toxic petroleum products, toxic pesticides and herbicides, volatile solvents, materials containing asbestos or formaldehyde, and radioactive materials; (b) "Environmental Law" means federal laws and laws of the jurisdiction where the Property is located that relate to health, safety or environmental protection; (c) "Environmental Cleanup" includes any response action, remedial action, or removal action, as defined in Environmental Law; and (d) an "Environmental Condition" means a condition that can cause, contribute to, or otherwise trigger an Environmental Cleanup.

Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances, or threaten to release any Hazardous Substances, on or in the Property. Borrower shall not do, nor allow anyone else to do, anything affecting the Property (a) that is in violation of any Environmental Law, (b) which creates an Environmental Condition, or (c) which, due to the presence, use, or release of a Hazardous Substance, creates a condition that adversely affects the value of the Property. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized to be appropriate to normal residential uses and to maintenance of the Property (including, but not limited to, hazardous substances in consumer products).

Borrower shall promptly give Lender written notice of (a) any investigation, claim, demand, lawsuit or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge, (b) any Environmental Condition, including but not limited to, any spilling, leaking, discharge, release or threat of release of any Hazardous Substance, and (c) any condition caused by the presence, use or release of a Hazardous Substance which adversely affects the value of the Property. If Borrower learns, or is notified by any governmental or regulatory authority, or any private party, that any removal or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law. Nothing herein shall create any obligation on Lender for an Environmental Cleanup.

NON-UNIFORM COVENANTS. Borrower and Lender further covenant and agree as follows:

22. Acceleration; Remedies. Lender shall give notice to Borrower prior to acceleration following Borrower's breach of any covenant or agreement in this Security Instrument (but not prior to acceleration under Section 18 unless Applicable Law provides otherwise). The notice shall specify: (a) the default; (b) the action required to cure the default; (c) a date, not less than 30 days from the date the notice is given to Borrower, by which the default must be cured; and (d) that failure to cure the default on or before the date specified in the notice may result in acceleration of the sums secured by this Security Instrument and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to bring a court action to assert the non-existence of a default or any other defense of Borrower to acceleration and sale. If the default is not cured on or before the date specified in the notice, Lender at its option may require immediate payment in full of all sums secured by this Security Instrument without further demand and may invoke the power of sale granted by Borrower and any other remedies permitted by Applicable Law. Borrower appoints Lender the agent and attorney-in-fact for Borrower to exercise the power of sale. Lender shall be entitled to collect all expenses incurred in pursuing the remedies provided in this Section 22, including, but not limited to, reasonable attorneys' fees and costs of title evidence.

Initials: _____

LOAN #: 8010277303

If Lender invokes the power of sale, Lender shall give a copy of a notice of sale by public advertisement for the time and in the manner prescribed by Applicable Law. Lender, without further demand on Borrower, shall sell the Property at public auction to the highest bidder at the time and place and under the terms designated in the notice of sale in one or more parcels and in any order Lender determines. Lender or its designee may purchase the Property at any sale.

Lender shall convey to the purchaser indefeasible title to the Property, and Borrower hereby appoints Lender Borrower's agent and attorney-in-fact to make such conveyance. The recitals in the Lender's deed shall be prima facie evidence of the truth of the statements made therein. Borrower covenants and agrees that Lender shall apply the proceeds of the sale in the following order: (a) to all expenses of the sale, including, but not limited to, reasonable attorneys' fees; (b) to all sums secured by this Security Instrument; and (c) any excess to the person or persons legally entitled to it. The power and agency granted are coupled with an interest, are irrevocable by death or otherwise and are cumulative to the remedies for collection of debt as provided by Applicable Law.

If the Property is sold pursuant to this Section 22, Borrower, or any person holding possession of the Property through Borrower, shall immediately surrender possession of the Property to the purchaser at the sale. If possession is not surrendered, Borrower or such person shall be a tenant holding over and may be dispossessed in accordance with Applicable Law.

23. Release. Upon payment of all sums secured by this Security Instrument, Lender shall cancel this Security Instrument. Borrower shall pay any recordation costs. Lender may charge Borrower a fee for releasing this Security Instrument, but only if the fee is paid to a third party for services rendered and the charging of the fee is permitted under Applicable Law.

24. Waiver of Homestead. Borrower waives all rights of homestead exemption in the Property.

25. Assumption Not a Novation. Lender's acceptance of an assumption of the obligations of this Security Instrument and the Note, and any release of Borrower in connection therewith, shall not constitute a novation.

26. Security Deed. This conveyance is to be construed under the existing laws of the State of Georgia as a deed passing title, and not as a mortgage, and is intended to secure the payment of all sums secured hereby.

BORROWER ACCEPTS AND AGREES to the terms and covenants contained in this Security Instrument and in any Rider executed by Borrower and recorded with it.

IN WITNESS WHEREOF, Borrower has signed and sealed this Security Instrument.

LOCATION:

The combined 12.216+/- acre tract is located off Old 41 Highway and Robin Drive and currently lies within unincorporated Cobb County. The surrounding area includes a mix of residential uses with limited commercial activity. To the east and north, the adjacent properties consist of various residential zoning classifications, including County R-20, Single Family Residential, and PRD, Planned Residential Development, characterized by single family detached homes. To the west and south, the property is bordered by a City zoned Office Institutional (OI) district, occupied by Northwest Classical Academy, a public charter school serving students in grades K–12.

The subject parcels are located in unincorporated Cobb County and are bordered to the south and west by City zoned parcels designated Office Institutional (OI). The parcels adjacent to the subject property to the north and east are also outside the City limits and are zoned County Neighborhood Shopping (NS) and R-20, Single Family Residential, creating a transition between City zoned institutional uses and County zoned commercial and residential districts.

Both subject properties are developed with older single-family homes. The property located at 3227 Old 41 Highway contains an approximately 1,874 sq. ft. single family dwelling constructed in 1964 on roughly 10.97 +/- acres, while the property located at 3137 Robin Drive is accessed from Robin Drive and includes an approximately 1,280 sq. ft. ranch-style dwelling built in 1955.

The Future Land Use Map does not categorize any land as Undeveloped or Agriculture/Forestry; development is anticipated throughout the county.

LOCATION:

The parcels are located in unincorporated Cobb County and carry a Future Land Use (FLU) designation of Low Density Residential (LDR). According to the Cobb County Comprehensive Plan, the LDR category identifies areas appropriate for low-density housing between one (1) and two and one-half (2.5) dwelling units per acre, with the option for non-supportive senior living housing to reach up to five (5) dwelling units per acre under specific circumstances. Allowable residential density is influenced by factors such as product type and mix, building height, tract size, topography, and overall compatibility with adjacent residential uses.

Under the HB 489 Intergovernmental Agreement between the City and Cobb County, any annexation and rezoning of County parcels with an LDR future land use designation into the City limits is subject to a maximum allowable density of 3 dwelling units per acre (DUA). This density cap ensures compatibility with surrounding County zoned neighborhoods while allowing the City to provide urban-level services and maintain consistent development patterns along jurisdictional boundaries.

Together, these parcels form a large, contiguous tract that establishes a strong foundation for the future development of a single-family subdivision. Their size, configuration, and existing residential character make them well- suited for a coordinated subdivision layout and compatible density transitions between County and City zoning districts.

Re: Petition for Annexation – Land Lots 126, 20th District, Parcels 20012600260 and 20012600270; Southside of Old 41 Highway, West of Robin Drive, Cobb County, Georgia; Notice of Non-Objection

Dear Mayor Easterling:

We are in receipt of the above-referenced annexation request. The subject property has the required contiguity with the existing Kennesaw boundary for annexation. No unincorporated islands will be created or extended; in fact, this annexation will reduce an existing unincorporated island created by the Acworth and Kennesaw city boundary. There are no county buildings or facilities on this property. Most of this property is zoned R-20 (Single Family Residential), with approximately 2.22 acres designated as NS (Neighborhood Shopping). Cobb County's Future Land Use Plan (FLU) designates this area as Low Density Residential (LDR). The applicant proposes 35 single-family detached homes, pocket parks, and designated open space. Based on our HB 489 Intergovernmental Agreement, this request is not objectionable.

In summary, please accept this letter as the County's formal **notice of non-objection** to the proposed annexation. Please see the attached comments from the Cobb County departments below. Should you have any questions or need any additional information, please contact Donald Wells, Intergovernmental Coordinator, at (770) 528-2199 or donald.wells@cobbcounty.gov.

City of Kennesaw

Water System- Chris Duggan

Water service for the proposed annexed properties will be provided by the existing CCWS water mains on Old 41 Hwy

Wastewater for the parcels will be treated at the Northwest treatment plant where there currently is sufficient capacity. Permit issuances are subject to continued WRF compliance with EPD discharge requirements.

Because CCWS will continue to own and maintain water in public rights-of-way and public easements, there would be no infrastructure loss

Cobb DOT-Wilson Collins

Old 41 Highway and Wren Circle are located within the existing right-of-way and will continue to be owned and maintained by Cobb County. If additional adjacent parcels are annexed into the City of Kennesaw, Cobb DOT will reevaluate ownership and maintenance responsibilities at that time.

No known drainage infrastructure has been identified by Cobb DOT within or adjacent to Parcel PIN: 20012600270. Any existing or proposed drainage infrastructure located within the parcel will become the responsibility of the City of Kennesaw upon annexation, transferring ownership and maintenance obligations accordingly.

Since Cobb DOT will retain ownership and maintenance responsibility for the existing right-of-way and no county-maintained drainage infrastructure is present, no infrastructure loss is anticipated at this time.

COMMUNITY INPUT AND STAFF FINDINGS

Staff has received numerous comments from community members regarding the proposed development. Based on the emails and calls received, the primary concerns relate to density and traffic congestion. Staff has reviewed these concerns with the following findings:

Traffic:

Both Old 41 Highway and Robin Drive are under the jurisdiction of Cobb County Department of Transportation (Cobb DOT). While the City does not have authority over roadway improvements or traffic control measures along these corridors, the application was transmitted to Cobb DOT for review as part of the intergovernmental coordination process.

Cobb DOT did not identify any objections to the proposed development and did not request additional off-site improvements. The subdivision proposes a single access point onto Old 41 Highway, which aligns with Cobb DOT's access management standards for developments of this scale.

Density:

Based on the application, the applicant is requesting to rezone the property to City RA-6, which permits low to medium density single family detached and attached residential uses. The proposed 35 single-family detached homes fall within the allowable density range for RA-6 and are consistent with the HB 489 Intergovernmental Agreement, which caps density at 3 dwelling units per acre (DUA) for annexed parcels originating from Cobb County with a Low Density Residential (LDR) Future Land Use designation.

The proposed development achieves a density of approximately 2.9 DUA, which complies with the HB 489 density limitation and maintains compatibility with surrounding County zoned neighborhoods. The lot sizes, ranging from 6,200 sq. ft. to 17,662 sq. ft., further support a transitionary density pattern appropriate for this location.

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **ANNEXATION & REZONING**

The applicant, Traton, LLC, represented by J. Kevin Moore of Moore, Ingram, Johnson & Steele, LLP, is requesting annexation and rezoning of approximately 12.216 +/- acres from County R-20, Single Family Residential, and NS, Neighborhood Shopping, to City RA-6, Residential. The request is intended to accommodate a new subdivision consisting of 35 single-family detached homes on lots ranging from 6,200 sq. ft. to 17,662 sq. ft.

The subject parcels are located in unincorporated Cobb County off Old 41 Highway and Robin Drive, surrounded primarily by residential uses with limited commercial activity. To the north is Cobb Vineyard Church, and to the south is Northwest Classical Academy, a public charter school serving grades K–12. This area reflects a transitional pattern of established residential neighborhoods supported by civic and institutional uses. The proposed homes are anticipated to be priced around $400,000, with the development intended to support workforce housing, providing attainable homeownership opportunities for households employed within the community.

The site plan features a cohesive residential layout supported by community oriented amenities, including pocket parks and dedicated open space gathering areas. Each home will include a two-car garage and additional driveway space with a minimum depth of 20 feet, measured from the sidewalk, allowing two additional vehicles to park without obstructing pedestrian access. The subdivision will be served by a single point of access from Old 41 Highway.

Exterior materials will consist of high-quality finishes, including brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten ensuring visual compatibility with surrounding development patterns and maintaining a consistent architectural character throughout the neighborhood.

A copy of the application was transmitted to Cobb County for review in accordance with the HB 489 Intergovernmental Agreement. Staff subsequently received the County's formal notice of non-objection to the proposed annexation and rezoning. No additional concerns were identified regarding the development's impact on existing public infrastructure or County provided services, indicating that the request is consistent with the coordination procedures outlined in HB 489.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **VARIANCE**

The applicant has submitted a concurrent variance application to deviate from section 2.01.03.10 of the Unified Development Code. The applicant is requesting to:

1. Request to reduce the front setback from forty (40) feet to twenty (20) feet.

The applicant has submitted a variance request to reduce the required minimum front setback from forty (40) feet to twenty (20) feet. Due to the irregular shape of the tract and the resulting limitations on building placement, the reduced setback provides necessary flexibility for the subdivision layout. This adjustment allows the homes to be sited appropriately while ensuring the land is efficiently utilized and that functional, adequately sized backyards remain available to future homeowners.

The request has been reviewed based on the standards outlined in *Section 9.02.00* of the Unified Development Code which states that variances may be granted using the following criteria:

A. There is extraordinary and exceptional conditions pertaining to the property because of its size, shape or topography;

B. The application of the UDC standards to property creates practical difficulty or unnecessary hardship.

C. The practical difficulty and/or unnecessary hardship are conditions which are peculiar to the property involved; and

D. Relief, if granted, would not cause substantial detriment to the public good or impede the purposes and intent of the UDC

The proposed site is encumbered by an on-site stream along the western boundary and has an irregular overall shape, both of which significantly constrain the developable area and limit the placement of homes in the development. These physical conditions create challenges for establishing a uniform lot layout and meeting standard setback requirements while still providing functional yards and maintaining compatibility with surrounding residential development.

Taken together, these extraordinary physical conditions create limitations that are unique to this parcel and not commonly found on surrounding properties. Because these constraints directly impair the reasonable use of the land under standard zoning requirements, the circumstances meet the threshold for considering a variance, as the hardship arises from the inherent characteristics of the property rather than from actions of the applicant.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **RECOMMENDATIONS**

Staff has evaluated the applicant's request in accordance with the standards for decision outlined in Section 10.01.02, Rezoning Procedures, as well as the requirements of Section 2.01.03.10, RA-6 Residential District, Section 4.01.02, Development Standards for Development, and Section 9.02.00 of the Unified Development Code (UDC), with the following observations:

According to the UDC, the RA-6 Residential District is established to provide locations for the development of affordable single-family detached or attached residential dwelling units, including duplexes, triplexes, and quadraplexes, with access to public water and sewer. The district supports medium to high density residential classifications as defined by the City of Kennesaw Comprehensive Land Use Plan, as amended.

The proposed project aligns with the intent of the RA-6 district by introducing affordable, single-family detached homes within a density framework that supports attainable housing options. The subdivision layout, lot sizes, and anticipated price point further reinforce the district's purpose of expanding housing opportunities for a range of household types while maintaining compatibility with surrounding residential development patterns.

ZONING ADMINISTRATOR'S RECOMMENDATION:

Based on the findings outlined in the analysis section of the staff report, City Staff recommends:

1. **Approval** of the request to annex the property into the city limits
2. **Approval with conditions** of the rezoning request from County Neighborhood Shopping (NS) and R-20, Single Family to City RA-6 Single Family Residential consisting of 35 single-family dwelling units.
3. Further more City Staff recommends **approval** of the following variance request:
    1. Request to reduce the front setback from forty (40) feet to twenty (20) feet.

PROPOSED ZONING CONDITIONS:

1. The rezoning of the Subject Property to City RA-6, (Single Family) Residential zoning district shall be in accordance with the technical and conceptual site plans submitted concurrently with the application and shall comply with the required front, side, and rear setbacks as outlined in the UDC for RA-6 zoning district.
2. The Subject Property shall be developed as a residential subdivision consisting of a maximum of thirty-five (35) single family detached homes, each with a two-car garage and additional driveway space with a minimum depth of 20 feet, measured from the sidewalk.
3. The development shall maintain its workforce housing intent by offering homes at an anticipated price point consistent with the application (approximately $400,000, subject to market conditions).
4. Architectural style and building composition shall be in reasonable conformity with the renderings/ elevations submitted with the application. Exterior materials shall consist of high quality finishes, including brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten.
5. The development shall include pocket parks and designated open-space areas, professionally designed and integrated into the subdivision layout.
6. Compliance with the recommendations from the City Engineer and/or the City's Public Works Director regarding detention, water quality and stormwater management.

7. Compliance with the recommendations from Cobb Department of Transportation regarding traffic infrastructures and access management.
8. Applicant agrees to the protection of all required stream buffers affecting the Property and shall utilize such areas as a passive amenity for the proposed development; any potential impact to the stream(s) due to revisions to the site plans will require a variance.
9. Landscaping for the entrance area, signage areas, amenity and all other common areas immediately surrounding the proposed buildings shall be professionally designed, implemented and maintained, which shall include the installation of an irrigation system in areas where appropriate.
10. The proposed community shall utilize the City or Cobb County utility services as is typical for such residential development.
11. Compliance with recommendations from the Cobb County Water System with respect to the availability and accessibility of water and sewer for the site.
12. Applicant shall create a mandatory Homeowners Association ("HOA") and prepare and file a Declaration of Covenants, Conditions and Restrictions ("CCRs") to be made applicable to the Property, which shall include, among other components, a restriction on the total number of units that may be rented at any one time to no more than 10% of the total number of units.
13. The homeowners association shall be solely responsible for the upkeep and maintenance of all common areas, mail kiosk, amenities, and amenity areas; including the entrance areas, boundary landscape buffers, stormwater management systems, driveways and parking lot.

PLANNING COMMISSION RECOMMENDATION:

To be determined on August 5, 2026.

CITY OF KENNESAW

Section 1908 Standards for Decisions – Annexation/Rezoning

Section 1908 of the Kennesaw Zoning Code details thirteen [sic] zoning review factors, which must be evaluated by the Planning and Zoning Board and the Mayor and Council when considering a rezoning request. Please provide responses to the following using additional pages if necessary:

(1) Would the proposed amendment be consistent and compatible with the City's land use and development, plans, goals and objective?

The proposed rezoning is consistent with the City's Future Land Use Map, and would allow for the highest and best use of the property. Further, the proposed residential community would be compatible with and complementary to the surrounding area.

(2) Would the proposed amendment tend to increase, decrease, or have no impact on traffic safety and congestion in the streets?

The proposed rezoning will have minimal traffic impact given the existing traffic volumes on Old Highway 41.

(3) Would the proposed amendment tend to increase, decrease, or have no relationship to safety from fire and other dangers?

The proposed community would meet all public safety and fire requirements and would enable full development of the property as intended without the dangers associated with undeveloped portions.

(4) Would the proposed amendment tend to promote, diminish, or have no influence on the public health and general welfare of the City?

The proposed rezoning would promote the public health and general welfare of the City by providing additional, quality homeownership in close proximity to parks and downtown Kennesaw.

(5) Would the proposed amendment tend to increase, decrease, or have no influence on the adequate (provisions) of light or air?

The proposed rezoning will have no impact on adequate light or air.

(6) Would the proposed amendment tend to cause, prevent, or have no influence on the overcrowding of land?

The proposed rezoning will have no influence on the overcrowding of land. The proposed community fully protects all sensitive streams and stream buffers as well as includes multiple areas for community parks and open space.

(7) Would the proposed amendment tend to cause, prevent, or have no relationship on the population distribution within the City creating any area as dense in population as to adversely affect the health, safety, and general welfare of the City?

The proposed rezoning will have no adverse effect on the distribution of the population within the City.

(8) Would the proposed amendment tend to impede, facilitate, or have no impact on the adequate provision of transportation, water, sewerage, other public services, utilities or facilities?

The proposed rezoning will have no adverse impact on public services, utilities and facilities.

(9) Would the proposed amendment tend to be compatible with environmental conditions in light of surrounding developments? If compatible, what factors, if any, would diminish the value, use and enjoyment of surrounding properties?

The proposed rezoning is compatible to environmental conditions of surrounding properties as the proposal fully protects streams and stream buffers; as well as, includes multiple areas for community parks and open space.

(10) Would the proposed amendment tend to require only reasonable expenditures of public funds, or would the amendment tend to require an excessive or premature expenditure of public funds?

The proposed rezoning will require no expenditure of public funds.

(11) Would the proposed amendment tend to promote, diminish or have no influence upon the aesthetic effect of existing and future uses of property and the surrounding area?

The proposed rezoning will promote the aesthetics of the surrounding area by adding quality, new homes proximate to existing parks and downtown Kennesaw.

(12) Would the proposed amendment have measurable adverse economic effect on the value of the surrounding or adjacent property?

The proposed rezoning will have a measurable, positive economic effect on the surrounding property by allowing quality development of property for further homeownership opportunities within the City of Kennesaw.

1 IN 136,173 (TRACT 2)

GENERAL NOTES

EQUIPMENT USED TO OBTAIN THESE MEASUREMENTS WAS A TRIMBLE S5 ROBOTIC TOTAL STATION.

BEARINGS ARE CALCULATED FROM ANGLES TURNED FROM A SINGLE GRID BASELINE.

THE DATUM FOR THIS SITE WAS ESTABLISHED UTILIZING GLOBAL POSITIONING SYSTEMS AND BASED ON POSITIONAL VALUES FOR THE VIRTUAL REFERENCE STATION NETWORK DEVELOPED BY eGPS SOLUTIONS. THE HORIZONTAL REFERENCE FRAME IS NORTH AMERICAN DATUM OF 1983(HARN)–STATE PLANE COORDINATE SYSTEM OF GEORGIA–WEST ZONE. THE VERTICAL REFERENCE FRAME IS NORTH AMERICAN VERTICAL DATUM OF 1988. ANY DIRECTIONS OR DIMENSIONS SHOWN ARE A RECTANGULAR, GROUND LEVEL PROJECTION OF THE STATE PLANE COORDINATE SYSTEM.

DATE OF FIELD WORK: 5–4–2026

ALL IRON PINS SET ARE 1/2" REBARS CAPPED WITH "GUNNIN LSF 1033" UNLESS OTHERWISE NOTED.

BY GRAPHIC PLOTTING ONLY, NO PORTIONS OF THIS SITE ARE SHOWN TO BE WITHIN THE LIMITS OF A 100 YR. FLOOD HAZARD AREA AS PER F.I.R.M. COBB COUNTY, GEORGIA AND INCORPORATED AREAS, COMMUNITY PANEL NUMBER 13067C0017H DATED 10/05/2018 AND 13067C0019H DATED 10/5/2018.

ABOVE GROUND UTILITY LOCATIONS WERE OBTAINED FROM FIELD OBSERVATIONS. THE UNDERGROUND UTILITIES ARE SHOWN HEREON BASED ON LOCATION OF MARKINGS PROVIDED BY:

RHD SERVICES
P.O. BOX 813399
SMYRNA, GEORGIA 30081
TEL. (404.874.8585)

THE UNDERGROUND UTILITIES (EXCEPT THE LOCATION OF EXISTING DRAINAGE) WERE LOCATED BY RHD SERVICES UTILIZING RADIO FREQUENCY TECHNIQUE. THIS TECHNIQUE IS CAPABLE OF LOCATING METALLIC UTILITIES AND TRACER WIRES. ANY NON–METALLIC UTILITIES (WITHOUT TRACER WIRE) ARE NOT LOCATED. THE SURVEYOR MAKES NO GUARANTEES THAT THE UNDERGROUND UTILITIES SHOWN COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN–SERVICE OR ABANDONED. UNDERGROUND UTILITIES NOT OBSERVED OR LOCATED UTILIZING THIS TECHNIQUE MAY EXIST ON THIS SITE BUT NOT BE SHOWN, AND MAY BE FOUND UPON EXCAVATION. THE SURVEYOR FURTHER DOES NOT WARRANT THAT THE UNDERGROUND UTILITIES SHOWN ARE IN THE EXACT LOCATION INDICATED ALTHOUGH THE SURVEYOR DOES CERTIFY THAT THEY ARE LOCATED AS ACCURATELY AS POSSIBLE FROM THE INFORMATION AVAILABLE. INFORMATION REGARDING MATERIAL AND SIZE OF UTILITIES NOT PROVIDED TO SURVEYOR AND CANNOT BE VERIFIED.

LOCATION OF JURISDICTIONAL WATERS NOT INCLUDED IN THE SCOPE OF THIS SURVEY. SUCH WATERS MAY EXIST THAT ARE NOT SHOWN HEREON.

AMENDED LETTER OF INTENT

(Amended June 25, 2026)

The property which is the subject of the Rezoning Application consists of two tracts, totaling 12.216 acres, more or less, and is located along the southerly side of Old 41 Highway and the westerly side of Robin Circle, Land Lot 126, 20th District, 2nd Section, unincorporated Cobb County, Georgia (hereinafter "Property" or "Subject Property"). A small portion of the Property located along Old 41 Highway is zoned Neighborhood Shopping ("NS"), with the remainder of the Property being zoned R-20, per the Cobb County Zoning Ordinance. Applicant seeks annexation of the Subject Property into the City of Kennesaw and rezoning to the City's RA-6 zoning classification to allow for development of a single-family detached community.

The proposed single-family detached community will contain a maximum of thirty-five (35) homes; as well as, an amenity area, together with open space areas surrounding the overall development and pocket park areas among the residences. The architecture of the residences will be traditional and cottage style with exteriors consisting of brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten, and combinations thereof. The residences will be a maximum of two-stories in height and contain approximately 2,500 square feet. Access to the community will be from Old 41 Highway.

Due to the location of creek and flood plain issues, development of the Property is restrictive. Applicant's proposed single-family detached community takes into account the restrictions of the Property and utilizes it to its highest and best use. The proposed rezoning to the City's RA-6 zoning category will provide a more suitable use for the Subject Property than uses allowed under Cobb County's existing NS and R-20 zoning classifications. Additionally, the proposed community will be better suited and less intrusive to the area and adjacent properties than uses allowed under the existing NS and R-20 zoning classifications. The proposed residential development will provide a quality and affordable community for future residents of the City of Kennesaw. The community is within walking distance of Swift Cantrell Park and other parks, venues, and businesses. The proposed community will not adversely affect the use or usability of adjacent or nearby properties. Approval of the proposed annexation and RA-6 zoning category will provide rezoning which is

better suited for the Property and the surrounding area, while having minimal impact on schools, public safety and emergency facilities, wastewater, stormwater facilities, and other public services.

Applicant is very excited about the opportunity of the proposed community and being able to provide additional quality living areas within the City of Kennesaw. The use of the Property for the proposed community is ideal in light of the surrounding uses and the Property's limitations. Given the project is adjacent to the existing residential areas, there should be little to no impact on nearby properties and uses.

AMENDED CONSTITUTIONAL CHALLENGE
ATTACHMENT TO ANNEXATION/REZONING APPLICATION

COME NOW, Applicant, TRATON, LLC (hereinafter referred to as "Applicant"), and Titleholders, ROSEMARY JAMES STRICKLAND and VICTOR TORRES (hereinafter collectively referred to as "Titleholders"), and assert the following:

1.

By Annexation/Rezoning Application dated and submitted on May 15, 2026, Applicant and Titleholders applied for annexation and rezoning of certain real property, being approximately 12.216 acres, more or less, lying and being in unincorporated Cobb County, Georgia, a more particular description and delineation of the subject property being set forth in said Application (hereinafter referred to as the "Property" or the "Subject Property").

2.

By amendment to the Annexation/Rezoning Application submitted contemporaneously, Applicant and Titleholders seek rezoning of the Property from the existing zoning categories of Neighborhood Shopping ("NS") and R-20, as established by the governing authority of Cobb County, under and pursuant to Ga. Laws 1956, p. 2006 (hereinafter the "Zoning and Planning Ordinance of Cobb County"), as amended, to the

proposed zoning category of RA-6, as established by the governing authority of the City of Kennesaw, Georgia, under and pursuant to The Unified Development Code City of Kennesaw, Georgia (hereinafter the "Unified Development Code of the City of Kennesaw").

3.

With respect to the Property within the NS zoning classification (Cobb County), Applicant and Titleholders do contend the Zoning and Planning Ordinance of Cobb County and the Unified Development Code of the City of Kennesaw (hereinafter collectively "Ordinances") are unconstitutional as applied to the Subject Property in that said Ordinances do not permit the Applicant and Titleholders to utilize the Property to the highest and best use set forth within the Annexation/Rezoning Application without the necessity of rezoning. However, Applicant and Titleholders do not contend the current zoning category of NS (Cobb County) is unconstitutional, per se, only as applied. Thus, the Ordinances deprive Applicant and Titleholders of their Property under and pursuant to Art. I, § I, ¶¶ I and II of the Georgia Constitution of 1983, and the Equal Protection and Due Process Clauses of the Fifth and Fourteenth Amendments to the Constitution of the United States of America. This deprivation of Property without due process violates the constitutional prohibition against the taking of private property without just compensation. Also violated are the Applicant's and Titleholders' rights to unfettered use of their Property, as stated above, in that said zoning classifications do not bear a substantial relation to the public health, safety, morality, or general welfare and are, therefore, confiscatory and void. Further, said Ordinances are unconstitutional in that it is arbitrary and unreasonable resulting in relatively little gain or benefit to the public, while inflicting serious injury and loss on the Applicant and Titleholders.

4.

With respect to the remainder of the Property within the R-20 (Cobb County) zoning classification, the Ordinances are unconstitutional as applied to the Property in that said Ordinances deprive the Applicant and Titleholders of their Property under and pursuant to Art. I, § I, ¶¶ I and II of the Georgia Constitution of 1983, and the Equal Protection and Due Process Clauses of the Fifth and Fourteenth Amendments to the Constitution of the United States of America. This deprivation of Property without due process violates the constitutional prohibition against the taking of private property without just compensation. The R-20 (Cobb Couty) zoning category, as it presently exists, together with any intervening zoning categories between the existing R-20 (Cobb County) category and the requested RA-6 (City of Kennesaw) category, violates the Applicant's and Titleholders' rights to unfettered use of their Property in that said zoning classifications do not bear a substantial relation to the public health, safety, morality, or general welfare and are therefore confiscatory and void. Further, said Ordinances are unconstitutional in that they are arbitrary and unreasonable resulting in relatively little gain or benefit to the public, while inflicting serious injury and loss on the Applicant and Titleholders.

5.

To the extent the Unified Development Code of the City of Kennesaw allows or permits the Mayor and City Council to rezone the Subject Property to any category other than as requested, said Ordinance is further unconstitutional in that same violates the Applicant's and Titleholders' constitutionally guaranteed rights to due process, both substantive and procedural. Furthermore, any such action by the Mayor and City Council, or as allowed by the Unified Development Code of the City of Kennesaw, is an unconstitutional use of the

zoning power and would constitute an abuse of discretion with no justification or benefit flowing to the public welfare. Accordingly, said Ordinance or action would likewise represent a taking of private property rights without the payment of just and adequate compensation in violation of the Constitutions of the State of Georgia and the United States of America.

6.

The Unified Development Code of the City of Kennesaw is further unconstitutional in that the procedures contained therein pertaining to the public hearing held in connection with the Annexation/Rezoning Application also violate Art. I, § I, ¶¶ I, II, and XII of the Georgia Constitution of 1983 in that said procedures impose unreasonable time restraints, contain the absence of rebuttal, contain the inability to confront witnesses, contain the lack of procedural and evidentiary safeguards, do not restrict evidence received to the issue at hand and are controlled wholly and solely by political considerations rather than the facts and considerations required by law. These procedures fail to comport with the due process requirements of the Constitution of the State of Georgia 1983 and the due process requirements of the Constitution of the United States of America.

Dear Ms. Mabry,

Attached, please find an annexation and rezoning application submitted by Traton LLC, with legal representation by J. Kevin Moore of Moore, Ingram, Johnson & Steele, LLP requesting to annex and rezone approximately 12.216 +/- acres from County R-20, Single Family Residential and County Neighborhood Shopping (NS), to City RA-6, Residential District. The proposed annexation and rezoning would allow for the development of residential community consisting of single family detached units at the subject property. This letter and enclosed application are being provided in accordance with the House Bill 489 Intergovernmental Agreement on Services Delivery Strategy, Land Use section.

This case is set to go before the Kennesaw **Planning Commission on Wednesday, August 5, 2026,** at 6:30 p.m. and **Mayor and Council on Monday, August 17, 2026,** at 6:30 p.m. for public hearing as well.

Thank you for your attention. Should you have any questions, please feel free to contact Planning and Zoning at 770-590-8268 or send an e-mail to ccampbell@kennesaw-ga.gov.

AMENDED LETTER OF INTENT

(Amended June 25, 2026)

The property which is the subject of the Rezoning Application consists of two tracts, totaling 12.216 acres, more or less, and is located along the southerly side of Old 41 Highway and the westerly side of Robin Circle, Land Lot 126, 20th District, 2nd Section, unincorporated Cobb County, Georgia (hereinafter "Property" or "Subject Property"). A small portion of the Property located along Old 41 Highway is zoned Neighborhood Shopping ("NS"), with the remainder of the Property being zoned R-20, per the Cobb County Zoning Ordinance. Applicant seeks annexation of the Subject Property into the City of Kennesaw and rezoning to the City's RA-6 zoning classification to allow for development of a single-family detached community.

The proposed single-family detached community will contain a maximum of thirty-five (35) homes; as well as, an amenity area, together with open space areas surrounding the overall development and pocket park areas among the residences. The architecture of the residences will be traditional and cottage style with exteriors consisting of brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten, and combinations thereof. The residences will be a maximum of two-stories in height and contain approximately 2,500 square feet. Access to the community will be from Old 41 Highway.

Due to the location of creek and flood plain issues, development of the Property is restrictive. Applicant's proposed single-family detached community takes into account the restrictions of the Property and utilizes it to its highest and best use. The proposed rezoning to the City's RA-6 zoning category will provide a more suitable use for the Subject Property than uses allowed under Cobb County's existing NS and R-20 zoning classifications. Additionally, the proposed community will be better suited and less intrusive to the area and adjacent properties than uses allowed under the existing NS and R-20 zoning classifications. The proposed residential development will provide a quality and affordable community for future residents of the City of Kennesaw. The community is within walking distance of Swift Cantrell Park and other parks, venues, and businesses. The proposed community will not adversely affect the use or usability of adjacent or nearby properties. Approval of the proposed annexation and RA-6 zoning category will provide rezoning which is

better suited for the Property and the surrounding area, while having minimal impact on schools, public safety and emergency facilities, wastewater, stormwater facilities, and other public services.

Applicant is very excited about the opportunity of the proposed community and being able to provide additional quality living areas within the City of Kennesaw. The use of the Property for the proposed community is ideal in light of the surrounding uses and the Property's limitations. Given the project is adjacent to the existing residential areas, there should be little to no impact on nearby properties and uses.

Re: Petition for Annexation – Land Lots 126, 20th District, Parcels 20012600260 and 20012600270; Southside of Old 41 Highway, West of Robin Drive, Cobb County, Georgia; Notice of Non-Objection

Dear Mayor Easterling:

We are in receipt of the above-referenced annexation request. The subject property has the required contiguity with the existing Kennesaw boundary for annexation. No unincorporated islands will be created or extended; in fact, this annexation will reduce an existing unincorporated island created by the Acworth and Kennesaw city boundary. There are no county buildings or facilities on this property. Most of this property is zoned R-20 (Single Family Residential), with approximately 2.22 acres designated as NS (Neighborhood Shopping). Cobb County's Future Land Use Plan (FLU) designates this area as Low Density Residential (LDR). The applicant proposes 35 single-family detached homes, pocket parks, and designated open space. Based on our HB 489 Intergovernmental Agreement, this request is not objectionable.

In summary, please accept this letter as the County's formal **notice of non-objection** to the proposed annexation. Please see the attached comments from the Cobb County departments below. Should you have any questions or need any additional information, please contact Donald Wells, Intergovernmental Coordinator, at (770) 528-2199 or donald.wells@cobbcounty.gov.

County Staff Comments and Recommendations

Southside of Old 41 Highway, West of Robin Drive
City of Kennesaw

Water System- Chris Duggan

Water service for the proposed annexed properties will be provided by the existing CCWS water mains on Old 41 Hwy

Wastewater for the parcels will be treated at the Northwest treatment plant where there currently is sufficient capacity. Permit issuances are subject to continued WRF compliance with EPD discharge requirements.

Because CCWS will continue to own and maintain water in public rights-of-way and public easements, there would be no infrastructure loss

Cobb DOT-Wilson Collins

Old 41 Highway and Wren Circle are located within the existing right-of-way and will continue to be owned and maintained by Cobb County. If additional adjacent parcels are annexed into the City of Kennesaw, Cobb DOT will reevaluate ownership and maintenance responsibilities at that time.

No known drainage infrastructure has been identified by Cobb DOT within or adjacent to Parcel PIN: 20012600270. Any existing or proposed drainage infrastructure located within the parcel will become the responsibility of the City of Kennesaw upon annexation, transferring ownership and maintenance obligations accordingly.

Since Cobb DOT will retain ownership and maintenance responsibility for the existing right-of-way and no county-maintained drainage infrastructure is present, no infrastructure loss is anticipated at this time.

Sent: Monday, July 13, 2026 5:41 PM
To: Chanelle Campbell
Subject: Rezoning of 3227 Old 41 Hwy and 3137 Robin Drive

Date: July 13, 2026
To: The City of Kennesaw Planning Commission
Regarding: Public Hearing for 3227 Old 41 Hwy NW and 3137 Robin Drive (August 5, 2026)
Subject Property: 3227 Old 41 Hwy NW, and 3137 Robin Drive Kennesaw, GA 30144
Parcel IDs: 20012600270 & 20012600260

Honorable Commissioners,

I am writing as a nearby property owner to express my strong opposition to the proposed rezoning application to change Parcels 20012600270 and 20012600260 from R-20 to R-6. While I understand the inevitability of local infill development, the requested jump to a high-density R-6 classification would impose significant, direct negative externalities on neighboring single-family structures and the existing infrastructure of Old 41 Highway.

Specifically, I request that the Planning Commission recommend **DENIAL** of this application based on the following zoning metrics:

1. **Spot Zoning and Density Shock:** The request to jump from R-20 to R-6 represents an aggressive **333% density shock** that violates the established land-use fabric of this corridor. R-20 zoning acts as a critical low-density sponge for stormwater management and traffic mitigation along Old 41 Highway. Forcing an R-6 high-density subdivision into an area defined by large-lot R-20 metrics constitutes spot-zoning that serves only the developer's financial margin while degrading neighboring property values.
2. **The Setback Collapse:** Transitioning to R-6 allows the developer to legally collapse side setbacks down to a tight 5-to-7-foot margin and halve front setbacks. This extreme spatial reduction means a wall of multi-story structures will be built directly along our shared property lines, creating an immediate invasion of privacy, removing natural light, and choking out the native root systems of mature border trees.
3. **Incompatibility with the Future Land Use Map (FLUM):** The City's master plan sets clear expectations for character districts. Introducing an intensive R-6 footprint here breaks the low-density/suburban residential transition and compromises established neighborhood visual boundaries.
4. **Infrastructure Overburden on Old 41 Highway:** This corridor already faces critical peak-hour traffic pressure. Adding a high-density complex without a completed, independent Traffic Impact Study (TIS) compromises motorist and pedestrian safety.

If the Commission moves toward approval despite these severe conflicts, I formally request the attachment of the following binding stipulations to protect neighboring properties:

- **Setback Preservation:** No reduction of standard front, side, or rear zoning buffers.

- **Buffer Mandates:** A mandatory, developer-funded 30-foot undisturbed natural buffer paired with an 8-foot opaque structural privacy fence alongside adjacent single-family properties.
- **Lighting Mitigations:** Strict compliance with commercial "dark sky" standards to avoid security lighting bleeding into surrounding bedroom windows.

Thank you for your time, service, and diligence in protecting Kennesaw's neighborhood character.

Sincerely,

Kristin Goodrich

Subject: Opposition to Rezoning Application for two parcels at 3227 Old 41 Hwy NW and 3137 Robin Drive (Parcel IDs 20012600270 and 20012600260) from R-20 to R-6

This email is to state opposition to a rezoning application.
I just read a post on the Nextdoor App about a High-Density Development Proposed for 3227 Old 41 Hwy NW and 3137 Robin Drive, Kennesaw, GA 30144. The post says "A developer has applied to rezone the two parcels at 3227 Old 41 Hwy NW and 3137 Robin Drive (Parcel IDs 20012600270 and 20012600260) from R-20 to R-6."

Looking a map, for anyone who uses Old 41 near the Swift Cantrell Park, it is easy to see the unwanted congestion this high density development will cause. The congestion at times on Old 41 is bad enough now, adding more traffic for NOT ONLY THE ROAD, BUT ALSO Swift Cantrell Park. Both experience heavy use NOW.

FYI, Old 41 is often used by many to avoid the hellacious traffic on Cobb Pkwy. It offers an alternative route that many people use now to reach schools, doctors, shopping, etc.

Lastly, I cannot imagine the undesirable impact on adjacent housing residents. They bought with intent to have space/distance and privacy between their residence and neighbor per current zoning. The proposed rezoning destroys that vision of property ownership and will no doubt impact property values in a negative manner.

Please deny the rezoning application. Let’s protect our infrastructure, privacy, and property values.

Sincerely,
James F Musgrave

Subject: No more rezoning for Large development in and around downtown Kennesaw

Hi,

I am writing to you as a concerned citizen who lives and pays taxes to live in Kennesaw. I grew up here and I love it here. But enough is enough with all these developments and no commerce coming.

It is hurting the people who live here and pay taxes here. We want to enjoy our community and be able to spend our money i our community to give back, but the city council the past 10 years has let everything slide when it comes to residential development over what the people of kennesaw want.

I promise you we don't want any more apartments or townhomes no one can afford or another monster neighborhood that again no one can afford.
How about for a change we worry about our neighbors that have to sit in this traffic as they commute to their homes or to get to work or the store or kids to school. It takes 3x as long to go five miles around here than it did 2 years ago.

Also let's talk about all the vacant houses and businesses. Before we start building more stuff and destroying nature.

There is a house across the street from me that was built 8 Mos and is empty... still for sale because it priced outrageously.

These are just my two cents, but I am tired of my community and my taxes going to shit with nothing to show for it.

Thank you

Subject: Against rezoning Robin Drive to allow multi housing town home

I live on the corner lot [redacted] Kennesaw , Ga. 30144 . I oppose the rezoning of the property in question to allow the builder to build the town homes in this location and also City of Kennesaw to Annex this property . I don't have issue with single lot homes or a subdivision being build with single lot homes but town home or apartment style homes is not suitable for this location. My phone number is [redacted]. I plan on being at the August 5th. Meeting at the Kennesaw City Hall.

Subject: Rezoning

Ms Campbell,

I read a message last night that stated the property at the top of the hill in our neighborhood is possibly being rezoned. The address is 3137 Robin Drive. My family lives on Wren Circle. We have lived here since 1991. We LOVE our neighborhood! I must admit I do not understand all the terminology in a rezoning request. However, I do understand that putting more homes between Jiles Road and Nolan Road would be a huge detriment to this area. Already when existing our neighborhood from Robin Drive it is difficult to turn left onto Old 41. Oftentimes when we have our grandboys in the vehicle with us we will turn right and go way out of our way, just to feel safe. This area sits between 3 schools and a major park. The cluster that is being discussed to be rezoned, the one on Robin and 3227 Old 41 Hwy is really the only green space in this stretch of mile. PLEASE ENOUGH IS ENOUGH!!! I'm not sure how this could be stopped, but we do not need anything else built. We especially do not need traffic coming out onto Robin Drive, which would ultimately cause traffic on Wren Circle.

Thank you for your attention to this matter.

LOCATION:

The combined 12.216+/- acre tract is located off Old 41 Highway and Robin Drive and currently lies within unincorporated Cobb County. The surrounding area includes a mix of residential uses with limited commercial activity. To the east and north, the adjacent properties consist of various residential zoning classifications, including County R-20, Single Family Residential, and PRD, Planned Residential Development, characterized by single family detached homes. To the west and south, the property is bordered by a City zoned Office Institutional (OI) district, occupied by Northwest Classical Academy, a public charter school serving students in grades K–12.

The subject parcels are located in unincorporated Cobb County and are bordered to the south and west by City zoned parcels designated Office Institutional (OI). The parcels adjacent to the subject property to the north and east are also outside the City limits and are zoned County Neighborhood Shopping (NS) and R-20, Single Family Residential, creating a transition between City zoned institutional uses and County zoned commercial and residential districts.

Both subject properties are developed with older single-family homes. The property located at 3227 Old 41 Highway contains an approximately 1,874 sq. ft. single family dwelling constructed in 1964 on roughly 10.97 +/- acres, while the property located at 3137 Robin Drive is accessed from Robin Drive and includes an approximately 1,280 sq. ft. ranch-style dwelling built in 1955.

The Future Land Use Map does not categorize any land as Undeveloped or Agriculture/Forestry; development is anticipated throughout the county.

LOCATION:

The parcels are located in unincorporated Cobb County and carry a Future Land Use (FLU) designation of Low Density Residential (LDR). According to the Cobb County Comprehensive Plan, the LDR category identifies areas appropriate for low-density housing between one (1) and two and one-half (2.5) dwelling units per acre, with the option for non-supportive senior living housing to reach up to five (5) dwelling units per acre under specific circumstances. Allowable residential density is influenced by factors such as product type and mix, building height, tract size, topography, and overall compatibility with adjacent residential uses.

Under the HB 489 Intergovernmental Agreement between the City and Cobb County, any annexation and rezoning of County parcels with an LDR future land use designation into the City limits is subject to a maximum allowable density of 3 dwelling units per acre (DUA). This density cap ensures compatibility with surrounding County zoned neighborhoods while allowing the City to provide urban-level services and maintain consistent development patterns along jurisdictional boundaries.

Together, these parcels form a large, contiguous tract that establishes a strong foundation for the future development of a single-family subdivision. Their size, configuration, and existing residential character make them well- suited for a coordinated subdivision layout and compatible density transitions between County and City zoning districts.

Re: Petition for Annexation – Land Lots 126, 20th District, Parcels 20012600260 and 20012600270; Southside of Old 41 Highway, West of Robin Drive, Cobb County, Georgia; Notice of Non-Objection

Dear Mayor Easterling:

We are in receipt of the above-referenced annexation request. The subject property has the required contiguity with the existing Kennesaw boundary for annexation. No unincorporated islands will be created or extended; in fact, this annexation will reduce an existing unincorporated island created by the Acworth and Kennesaw city boundary. There are no county buildings or facilities on this property. Most of this property is zoned R-20 (Single Family Residential), with approximately 2.22 acres designated as NS (Neighborhood Shopping). Cobb County's Future Land Use Plan (FLU) designates this area as Low Density Residential (LDR). The applicant proposes 35 single-family detached homes, pocket parks, and designated open space. Based on our HB 489 Intergovernmental Agreement, this request is not objectionable.

In summary, please accept this letter as the County's formal **notice of non-objection** to the proposed annexation. Please see the attached comments from the Cobb County departments below. Should you have any questions or need any additional information, please contact Donald Wells, Intergovernmental Coordinator, at (770) 528-2199 or donald.wells@cobbcounty.gov.

Water System- Chris Duggan

Water service for the proposed annexed properties will be provided by the existing CCWS water mains on Old 41 Hwy

Wastewater for the parcels will be treated at the Northwest treatment plant where there currently is sufficient capacity. Permit issuances are subject to continued WRF compliance with EPD discharge requirements.

Because CCWS will continue to own and maintain water in public rights-of-way and public easements, there would be no infrastructure loss

Old 41 Highway and Wren Circle are located within the existing right-of-way and will continue to be owned and maintained by Cobb County. If additional adjacent parcels are annexed into the City of Kennesaw, Cobb DOT will reevaluate ownership and maintenance responsibilities at that time.

No known drainage infrastructure has been identified by Cobb DOT within or adjacent to Parcel PIN: 20012600270. Any existing or proposed drainage infrastructure located within the parcel will become the responsibility of the City of Kennesaw upon annexation, transferring ownership and maintenance obligations accordingly.

Since Cobb DOT will retain ownership and maintenance responsibility for the existing right-of-way and no county-maintained drainage infrastructure is present, no infrastructure loss is anticipated at this time.

COMMUNITY INPUT AND STAFF FINDINGS

Staff has received numerous comments from community members regarding the proposed development. Based on the emails and calls received, the primary concerns relate to density and traffic congestion. Staff has reviewed these concerns with the following findings:

Traffic:

Both Old 41 Highway and Robin Drive are under the jurisdiction of Cobb County Department of Transportation (Cobb DOT). While the City does not have authority over roadway improvements or traffic control measures along these corridors, the application was transmitted to Cobb DOT for review as part of the intergovernmental coordination process.

Cobb DOT did not identify any objections to the proposed development and did not request additional off-site improvements. The subdivision proposes a single access point onto Old 41 Highway, which aligns with Cobb DOT's access management standards for developments of this scale.

Density:

Based on the application, the applicant is requesting to rezone the property to City RA-6, which permits low to medium density single family detached and attached residential uses. The proposed 35 single-family detached homes fall within the allowable density range for RA-6 and are consistent with the HB 489 Intergovernmental Agreement, which caps density at 3 dwelling units per acre (DUA) for annexed parcels originating from Cobb County with a Low Density Residential (LDR) Future Land Use designation.

The proposed development achieves a density of approximately 2.9 DUA, which complies with the HB 489 density limitation and maintains compatibility with surrounding County zoned neighborhoods. The lot sizes, ranging from 6,200 sq. ft. to 17,662 sq. ft., further support a transitionary density pattern appropriate for this location.

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **ANNEXATION & REZONING**

The applicant, Traton, LLC, represented by J. Kevin Moore of Moore, Ingram, Johnson & Steele, LLP, is requesting annexation and rezoning of approximately 12.216 +/- acres from County R-20, Single Family Residential, and NS, Neighborhood Shopping, to City RA-6, Residential. The request is intended to accommodate a new subdivision consisting of 35 single-family detached homes on lots ranging from 6,200 sq. ft. to 17,662 sq. ft.

The subject parcels are located in unincorporated Cobb County off Old 41 Highway and Robin Drive, surrounded primarily by residential uses with limited commercial activity. To the north is Cobb Vineyard Church, and to the south is Northwest Classical Academy, a public charter school serving grades K–12. This area reflects a transitional pattern of established residential neighborhoods supported by civic and institutional uses. The proposed homes are anticipated to be priced around $400,000, with the development intended to support workforce housing, providing attainable homeownership opportunities for households employed within the community.

The site plan features a cohesive residential layout supported by community oriented amenities, including pocket parks and dedicated open space gathering areas. Each home will include a two-car garage and additional driveway space with a minimum depth of 20 feet, measured from the sidewalk, allowing two additional vehicles to park without obstructing pedestrian access. The subdivision will be served by a single point of access from Old 41 Highway.

Exterior materials will consist of high-quality finishes, including brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten ensuring visual compatibility with surrounding development patterns and maintaining a consistent architectural character throughout the neighborhood.

A copy of the application was transmitted to Cobb County for review in accordance with the HB 489 Intergovernmental Agreement. Staff subsequently received the County's formal notice of non-objection to the proposed annexation and rezoning. No additional concerns were identified regarding the development's impact on existing public infrastructure or County provided services, indicating that the request is consistent with the coordination procedures outlined in HB 489.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **VARIANCE**

The applicant has submitted a concurrent variance application to deviate from section 2.01.03.10 of the Unified Development Code. The applicant is requesting to:

1. Request to reduce the front setback from forty (40) feet to twenty (20) feet.

The applicant has submitted a variance request to reduce the required minimum front setback from forty (40) feet to twenty (20) feet. Due to the irregular shape of the tract and the resulting limitations on building placement, the reduced setback provides necessary flexibility for the subdivision layout. This adjustment allows the homes to be sited appropriately while ensuring the land is efficiently utilized and that functional, adequately sized backyards remain available to future homeowners.

The request has been reviewed based on the standards outlined in *Section 9.02.00* of the Unified Development Code which states that variances may be granted using the following criteria:

A. There is extraordinary and exceptional conditions pertaining to the property because of its size, shape or topography;

B. The application of the UDC standards to property creates practical difficulty or unnecessary hardship.

C. The practical difficulty and/or unnecessary hardship are conditions which are peculiar to the property involved; and

D. Relief, if granted, would not cause substantial detriment to the public good or impede the purposes and intent of the UDC

The proposed site is encumbered by an on-site stream along the western boundary and has an irregular overall shape, both of which significantly constrain the developable area and limit the placement of homes in the development. These physical conditions create challenges for establishing a uniform lot layout and meeting standard setback requirements while still providing functional yards and maintaining compatibility with surrounding residential development.

Taken together, these extraordinary physical conditions create limitations that are unique to this parcel and not commonly found on surrounding properties. Because these constraints directly impair the reasonable use of the land under standard zoning requirements, the circumstances meet the threshold for considering a variance, as the hardship arises from the inherent characteristics of the property rather than from actions of the applicant.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **RECOMMENDATIONS**

Staff has evaluated the applicant's request in accordance with the standards for decision outlined in Section 10.01.02, Rezoning Procedures, as well as the requirements of Section 2.01.03.10, RA-6 Residential District, Section 4.01.02, Development Standards for Development, and Section 9.02.00 of the Unified Development Code (UDC), with the following observations:

According to the UDC, the RA-6 Residential District is established to provide locations for the development of affordable single-family detached or attached residential dwelling units, including duplexes, triplexes, and quadraplexes, with access to public water and sewer. The district supports medium to high density residential classifications as defined by the City of Kennesaw Comprehensive Land Use Plan, as amended.

The proposed project aligns with the intent of the RA-6 district by introducing affordable, single-family detached homes within a density framework that supports attainable housing options. The subdivision layout, lot sizes, and anticipated price point further reinforce the district's purpose of expanding housing opportunities for a range of household types while maintaining compatibility with surrounding residential development patterns.

ZONING ADMINISTRATOR'S RECOMMENDATION:

Based on the findings outlined in the analysis section of the staff report, City Staff recommends:

1. **Approval** of the request to annex the property into the city limits
2. **Approval with conditions** of the rezoning request from County Neighborhood Shopping (NS) and R-20, Single Family to City RA-6 Single Family Residential consisting of 35 single-family dwelling units.
3. Further more City Staff recommends **approval** of the following variance request:
    1. Request to reduce the front setback from forty (40) feet to twenty (20) feet.

PROPOSED ZONING CONDITIONS:

1. The rezoning of the Subject Property to City RA-6, (Single Family) Residential zoning district shall be in accordance with the technical and conceptual site plans submitted concurrently with the application and shall comply with the required front, side, and rear setbacks as outlined in the UDC for RA-6 zoning district.
2. The Subject Property shall be developed as a residential subdivision consisting of a maximum of thirty-five (35) single family detached homes, each with a two-car garage and additional driveway space with a minimum depth of 20 feet, measured from the sidewalk.
3. The development shall maintain its workforce housing intent by offering homes at an anticipated price point consistent with the application (approximately $400,000, subject to market conditions).
4. Architectural style and building composition shall be in reasonable conformity with the renderings/ elevations submitted with the application. Exterior materials shall consist of high quality finishes, including brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten.
5. The development shall include pocket parks and designated open-space areas, professionally designed and integrated into the subdivision layout.
6. Compliance with the recommendations from the City Engineer and/or the City's Public Works Director regarding detention, water quality and stormwater management.

7. Compliance with the recommendations from Cobb Department of Transportation regarding traffic infrastructures and access management.
8. Applicant agrees to the protection of all required stream buffers affecting the Property and shall utilize such areas as a passive amenity for the proposed development; any potential impact to the stream(s) due to revisions to the site plans will require a variance.
9. Landscaping for the entrance area, signage areas, amenity and all other common areas immediately surrounding the proposed buildings shall be professionally designed, implemented and maintained, which shall include the installation of an irrigation system in areas where appropriate.
10. The proposed community shall utilize the City or Cobb County utility services as is typical for such residential development.
11. Compliance with recommendations from the Cobb County Water System with respect to the availability and accessibility of water and sewer for the site.
12. Applicant shall create a mandatory Homeowners Association ("HOA") and prepare and file a Declaration of Covenants, Conditions and Restrictions ("CCRs") to be made applicable to the Property, which shall include, among other components, a restriction on the total number of units that may be rented at any one time to no more than 10% of the total number of units.
13. The homeowners association shall be solely responsible for the upkeep and maintenance of all common areas, mail kiosk, amenities, and amenity areas; including the entrance areas, boundary landscape buffers, stormwater management systems, driveways and parking lot.

PLANNING COMMISSION RECOMMENDATION:

To be determined on August 5, 2026.

CITY OF KENNESAW

Section 1908 Standards for Decisions – Annexation/Rezoning

Section 1908 of the Kennesaw Zoning Code details thirteen [sic] zoning review factors, which must be evaluated by the Planning and Zoning Board and the Mayor and Council when considering a rezoning request. Please provide responses to the following using additional pages if necessary:

(1) Would the proposed amendment be consistent and compatible with the City's land use and development, plans, goals and objective?

The proposed rezoning is consistent with the City's Future Land Use Map, and would allow for the highest and best use of the property. Further, the proposed residential community would be compatible with and complementary to the surrounding area.

(2) Would the proposed amendment tend to increase, decrease, or have no impact on traffic safety and congestion in the streets?

The proposed rezoning will have minimal traffic impact given the existing traffic volumes on Old Highway 41.

(3) Would the proposed amendment tend to increase, decrease, or have no relationship to safety from fire and other dangers?

The proposed community would meet all public safety and fire requirements and would enable full development of the property as intended without the dangers associated with undeveloped portions.

(4) Would the proposed amendment tend to promote, diminish, or have no influence on the public health and general welfare of the City?

The proposed rezoning would promote the public health and general welfare of the City by providing additional, quality homeownership in close proximity to parks and downtown Kennesaw.

(5) Would the proposed amendment tend to increase, decrease, or have no influence on the adequate (provisions) of light or air?

The proposed rezoning will have no impact on adequate light or air.

(6) Would the proposed amendment tend to cause, prevent, or have no influence on the overcrowding of land?

The proposed rezoning will have no influence on the overcrowding of land. The proposed community fully protects all sensitive streams and stream buffers as well as includes multiple areas for community parks and open space.

(7) Would the proposed amendment tend to cause, prevent, or have no relationship on the population distribution within the City creating any area as dense in population as to adversely affect the health, safety, and general welfare of the City?

The proposed rezoning will have no adverse effect on the distribution of the population within the City.

(8) Would the proposed amendment tend to impede, facilitate, or have no impact on the adequate provision of transportation, water, sewerage, other public services, utilities or facilities?

The proposed rezoning will have no adverse impact on public services, utilities and facilities.

(9) Would the proposed amendment tend to be compatible with environmental conditions in light of surrounding developments? If compatible, what factors, if any, would diminish the value, use and enjoyment of surrounding properties?

The proposed rezoning is compatible to environmental conditions of surrounding properties as the proposal fully protects streams and stream buffers; as well as, includes multiple areas for community parks and open space.

(10) Would the proposed amendment tend to require only reasonable expenditures of public funds, or would the amendment tend to require an excessive or premature expenditure of public funds?

The proposed rezoning will require no expenditure of public funds.

(11) Would the proposed amendment tend to promote, diminish or have no influence upon the aesthetic effect of existing and future uses of property and the surrounding area?

The proposed rezoning will promote the aesthetics of the surrounding area by adding quality, new homes proximate to existing parks and downtown Kennesaw.

(12) Would the proposed amendment have measurable adverse economic effect on the value of the surrounding or adjacent property?

The proposed rezoning will have a measurable, positive economic effect on the surrounding property by allowing quality development of property for further homeownership opportunities within the City of Kennesaw.

AMENDED LETTER OF INTENT

(Amended June 25, 2026)

The property which is the subject of the Rezoning Application consists of two tracts, totaling 12.216 acres, more or less, and is located along the southerly side of Old 41 Highway and the westerly side of Robin Circle, Land Lot 126, 20th District, 2nd Section, unincorporated Cobb County, Georgia (hereinafter "Property" or "Subject Property"). A small portion of the Property located along Old 41 Highway is zoned Neighborhood Shopping ("NS"), with the remainder of the Property being zoned R-20, per the Cobb County Zoning Ordinance. Applicant seeks annexation of the Subject Property into the City of Kennesaw and rezoning to the City's RA-6 zoning classification to allow for development of a single-family detached community.

The proposed single-family detached community will contain a maximum of thirty-five (35) homes; as well as, an amenity area, together with open space areas surrounding the overall development and pocket park areas among the residences. The architecture of the residences will be traditional and cottage style with exteriors consisting of brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten, and combinations thereof. The residences will be a maximum of two-stories in height and contain approximately 2,500 square feet. Access to the community will be from Old 41 Highway.

Due to the location of creek and flood plain issues, development of the Property is restrictive. Applicant's proposed single-family detached community takes into account the restrictions of the Property and utilizes it to its highest and best use. The proposed rezoning to the City's RA-6 zoning category will provide a more suitable use for the Subject Property than uses allowed under Cobb County's existing NS and R-20 zoning classifications. Additionally, the proposed community will be better suited and less intrusive to the area and adjacent properties than uses allowed under the existing NS and R-20 zoning classifications. The proposed residential development will provide a quality and affordable community for future residents of the City of Kennesaw. The community is within walking distance of Swift Cantrell Park and other parks, venues, and businesses. The proposed community will not adversely affect the use or usability of adjacent or nearby properties. Approval of the proposed annexation and RA-6 zoning category will provide rezoning which is

better suited for the Property and the surrounding area, while having minimal impact on schools, public safety and emergency facilities, wastewater, stormwater facilities, and other public services.

Applicant is very excited about the opportunity of the proposed community and being able to provide additional quality living areas within the City of Kennesaw. The use of the Property for the proposed community is ideal in light of the surrounding uses and the Property's limitations. Given the project is adjacent to the existing residential areas, there should be little to no impact on nearby properties and uses.

AMENDED CONSTITUTIONAL CHALLENGE
ATTACHMENT TO ANNEXATION/REZONING APPLICATION

COME NOW, Applicant, TRATON, LLC (hereinafter referred to as "Applicant"), and Titleholders, ROSEMARY JAMES STRICKLAND and VICTOR TORRES (hereinafter collectively referred to as "Titleholders"), and assert the following:

1.

By Annexation/Rezoning Application dated and submitted on May 15, 2026, Applicant and Titleholders applied for annexation and rezoning of certain real property, being approximately 12.216 acres, more or less, lying and being in unincorporated Cobb County, Georgia, a more particular description and delineation of the subject property being set forth in said Application (hereinafter referred to as the "Property" or the "Subject Property").

2.

By amendment to the Annexation/Rezoning Application submitted contemporaneously, Applicant and Titleholders seek rezoning of the Property from the existing zoning categories of Neighborhood Shopping ("NS") and R-20, as established by the governing authority of Cobb County, under and pursuant to Ga. Laws 1956, p. 2006 (hereinafter the "Zoning and Planning Ordinance of Cobb County"), as amended, to the

proposed zoning category of RA-6, as established by the governing authority of the City of Kennesaw, Georgia, under and pursuant to The Unified Development Code City of Kennesaw, Georgia (hereinafter the "Unified Development Code of the City of Kennesaw").

3.

With respect to the Property within the NS zoning classification (Cobb County), Applicant and Titleholders do contend the Zoning and Planning Ordinance of Cobb County and the Unified Development Code of the City of Kennesaw (hereinafter collectively "Ordinances") are unconstitutional as applied to the Subject Property in that said Ordinances do not permit the Applicant and Titleholders to utilize the Property to the highest and best use set forth within the Annexation/Rezoning Application without the necessity of rezoning. However, Applicant and Titleholders do not contend the current zoning category of NS (Cobb County) is unconstitutional, per se, only as applied. Thus, the Ordinances deprive Applicant and Titleholders of their Property under and pursuant to Art. I, § I, ¶¶ I and II of the Georgia Constitution of 1983, and the Equal Protection and Due Process Clauses of the Fifth and Fourteenth Amendments to the Constitution of the United States of America. This deprivation of Property without due process violates the constitutional prohibition against the taking of private property without just compensation. Also violated are the Applicant's and Titleholders' rights to unfettered use of their Property, as stated above, in that said zoning classifications do not bear a substantial relation to the public health, safety, morality, or general welfare and are, therefore, confiscatory and void. Further, said Ordinances are unconstitutional in that it is arbitrary and unreasonable resulting in relatively little gain or benefit to the public, while inflicting serious injury and loss on the Applicant and Titleholders.

4.

With respect to the remainder of the Property within the R-20 (Cobb County) zoning classification, the Ordinances are unconstitutional as applied to the Property in that said Ordinances deprive the Applicant and Titleholders of their Property under and pursuant to Art. I, § I, ¶¶ I and II of the Georgia Constitution of 1983, and the Equal Protection and Due Process Clauses of the Fifth and Fourteenth Amendments to the Constitution of the United States of America. This deprivation of Property without due process violates the constitutional prohibition against the taking of private property without just compensation. The R-20 (Cobb Couty) zoning category, as it presently exists, together with any intervening zoning categories between the existing R-20 (Cobb County) category and the requested RA-6 (City of Kennesaw) category, violates the Applicant's and Titleholders' rights to unfettered use of their Property in that said zoning classifications do not bear a substantial relation to the public health, safety, morality, or general welfare and are therefore confiscatory and void. Further, said Ordinances are unconstitutional in that they are arbitrary and unreasonable resulting in relatively little gain or benefit to the public, while inflicting serious injury and loss on the Applicant and Titleholders.

5.

To the extent the Unified Development Code of the City of Kennesaw allows or permits the Mayor and City Council to rezone the Subject Property to any category other than as requested, said Ordinance is further unconstitutional in that same violates the Applicant's and Titleholders' constitutionally guaranteed rights to due process, both substantive and procedural. Furthermore, any such action by the Mayor and City Council, or as allowed by the Unified Development Code of the City of Kennesaw, is an unconstitutional use of the

zoning power and would constitute an abuse of discretion with no justification or benefit flowing to the public welfare. Accordingly, said Ordinance or action would likewise represent a taking of private property rights without the payment of just and adequate compensation in violation of the Constitutions of the State of Georgia and the United States of America.

6.

The Unified Development Code of the City of Kennesaw is further unconstitutional in that the procedures contained therein pertaining to the public hearing held in connection with the Annexation/Rezoning Application also violate Art. I, § I, ¶¶ I, II, and XII of the Georgia Constitution of 1983 in that said procedures impose unreasonable time restraints, contain the absence of rebuttal, contain the inability to confront witnesses, contain the lack of procedural and evidentiary safeguards, do not restrict evidence received to the issue at hand and are controlled wholly and solely by political considerations rather than the facts and considerations required by law. These procedures fail to comport with the due process requirements of the Constitution of the State of Georgia 1983 and the due process requirements of the Constitution of the United States of America.

Respectfully submitted, this 25th day of June, 2026.

Dear Ms. Mabry,

Attached, please find an annexation and rezoning application submitted by Traton LLC, with legal representation by J. Kevin Moore of Moore, Ingram, Johnson & Steele, LLP requesting to annex and rezone approximately 12.216 +/- acres from County R-20, Single Family Residential and County Neighborhood Shopping (NS), to City RA-6, Residential District. The proposed annexation and rezoning would allow for the development of residential community consisting of single family detached units at the subject property. This letter and enclosed application are being provided in accordance with the House Bill 489 Intergovernmental Agreement on Services Delivery Strategy, Land Use section.

This case is set to go before the Kennesaw **Planning Commission on Wednesday, August 5, 2026,** at 6:30 p.m. and **Mayor and Council on Monday, August 17, 2026,** at 6:30 p.m. for public hearing as well.

Thank you for your attention. Should you have any questions, please feel free to contact Planning and Zoning at 770-590-8268 or send an e-mail to ccampbell@kennesaw-ga.gov.

proposed zoning category of RA-6, as established by the governing authority of the City of Kennesaw, Georgia, under and pursuant to The Unified Development Code City of Kennesaw, Georgia (hereinafter the "Unified Development Code of the City of Kennesaw").

3.

With respect to the Property within the NS zoning classification (Cobb County), Applicant and Titleholders do contend the Zoning and Planning Ordinance of Cobb County and the Unified Development Code of the City of Kennesaw (hereinafter collectively "Ordinances") are unconstitutional as applied to the Subject Property in that said Ordinances do not permit the Applicant and Titleholders to utilize the Property to the highest and best use set forth within the Annexation/Rezoning Application without the necessity of rezoning. However, Applicant and Titleholders do not contend the current zoning category of NS (Cobb County) is unconstitutional, per se, only as applied. Thus, the Ordinances deprive Applicant and Titleholders of their Property under and pursuant to Art. I, § I, ¶¶ I and II of the Georgia Constitution of 1983, and the Equal Protection and Due Process Clauses of the Fifth and Fourteenth Amendments to the Constitution of the United States of America. This deprivation of Property without due process violates the constitutional prohibition against the taking of private property without just compensation. Also violated are the Applicant's and Titleholders' rights to unfettered use of their Property, as stated above, in that said zoning classifications do not bear a substantial relation to the public health, safety, morality, or general welfare and are, therefore, confiscatory and void. Further, said Ordinances are unconstitutional in that it is arbitrary and unreasonable resulting in relatively little gain or benefit to the public, while inflicting serious injury and loss on the Applicant and Titleholders.

4.

With respect to the remainder of the Property within the R-20 (Cobb County) zoning classification, the Ordinances are unconstitutional as applied to the Property in that said Ordinances deprive the Applicant and Titleholders of their Property under and pursuant to Art. I, § I, ¶¶ I and II of the Georgia Constitution of 1983, and the Equal Protection and Due Process Clauses of the Fifth and Fourteenth Amendments to the Constitution of the United States of America. This deprivation of Property without due process violates the constitutional prohibition against the taking of private property without just compensation. The R-20 (Cobb Couty) zoning category, as it presently exists, together with any intervening zoning categories between the existing R-20 (Cobb County) category and the requested RA-6 (City of Kennesaw) category, violates the Applicant's and Titleholders' rights to unfettered use of their Property in that said zoning classifications do not bear a substantial relation to the public health, safety, morality, or general welfare and are therefore confiscatory and void. Further, said Ordinances are unconstitutional in that they are arbitrary and unreasonable resulting in relatively little gain or benefit to the public, while inflicting serious injury and loss on the Applicant and Titleholders.

5.

To the extent the Unified Development Code of the City of Kennesaw allows or permits the Mayor and City Council to rezone the Subject Property to any category other than as requested, said Ordinance is further unconstitutional in that same violates the Applicant's and Titleholders' constitutionally guaranteed rights to due process, both substantive and procedural. Furthermore, any such action by the Mayor and City Council, or as allowed by the Unified Development Code of the City of Kennesaw, is an unconstitutional use of the

zoning power and would constitute an abuse of discretion with no justification or benefit flowing to the public welfare. Accordingly, said Ordinance or action would likewise represent a taking of private property rights without the payment of just and adequate compensation in violation of the Constitutions of the State of Georgia and the United States of America.

6.

The Unified Development Code of the City of Kennesaw is further unconstitutional in that the procedures contained therein pertaining to the public hearing held in connection with the Annexation/Rezoning Application also violate Art. I, § I, ¶¶ I, II, and XII of the Georgia Constitution of 1983 in that said procedures impose unreasonable time restraints, contain the absence of rebuttal, contain the inability to confront witnesses, contain the lack of procedural and evidentiary safeguards, do not restrict evidence received to the issue at hand and are controlled wholly and solely by political considerations rather than the facts and considerations required by law. These procedures fail to comport with the due process requirements of the Constitution of the State of Georgia 1983 and the due process requirements of the Constitution of the United States of America.

Respectfully submitted, this 25th day of June, 2026.

Re: Petition for Annexation – Land Lots 126, 20th District, Parcels 20012600260 and 20012600270; Southside of Old 41 Highway, West of Robin Drive, Cobb County, Georgia; Notice of Non-Objection

Dear Mayor Easterling:

We are in receipt of the above-referenced annexation request. The subject property has the required contiguity with the existing Kennesaw boundary for annexation. No unincorporated islands will be created or extended; in fact, this annexation will reduce an existing unincorporated island created by the Acworth and Kennesaw city boundary. There are no county buildings or facilities on this property. Most of this property is zoned R-20 (Single Family Residential), with approximately 2.22 acres designated as NS (Neighborhood Shopping). Cobb County's Future Land Use Plan (FLU) designates this area as Low Density Residential (LDR). The applicant proposes 35 single-family detached homes, pocket parks, and designated open space. Based on our HB 489 Intergovernmental Agreement, this request is not objectionable.

In summary, please accept this letter as the County's formal **notice of non-objection** to the proposed annexation. Please see the attached comments from the Cobb County departments below. Should you have any questions or need any additional information, please contact Donald Wells, Intergovernmental Coordinator, at (770) 528-2199 or donald.wells@cobbcounty.gov.

Water System- Chris Duggan

Water service for the proposed annexed properties will be provided by the existing CCWS water mains on Old 41 Hwy

Wastewater for the parcels will be treated at the Northwest treatment plant where there currently is sufficient capacity. Permit issuances are subject to continued WRF compliance with EPD discharge requirements.

Because CCWS will continue to own and maintain water in public rights-of-way and public easements, there would be no infrastructure loss

Cobb DOT-Wilson Collins

Old 41 Highway and Wren Circle are located within the existing right-of-way and will continue to be owned and maintained by Cobb County. If additional adjacent parcels are annexed into the City of Kennesaw, Cobb DOT will reevaluate ownership and maintenance responsibilities at that time.

No known drainage infrastructure has been identified by Cobb DOT within or adjacent to Parcel PIN: 20012600270. Any existing or proposed drainage infrastructure located within the parcel will become the responsibility of the City of Kennesaw upon annexation, transferring ownership and maintenance obligations accordingly.

Since Cobb DOT will retain ownership and maintenance responsibility for the existing right-of-way and no county-maintained drainage infrastructure is present, no infrastructure loss is anticipated at this time.

RE: PLEASE TAKE NOTICE – NOTIFICATION OF NEARBY ANNEXATION/ZONING APPLICATION
Property: 3227 Old 41 Highway and 3137 Robin Drive, Kennesaw, Georgia 30144
Parcel ID Nos.: 20012600270 and 20012600260

To Whom It May Concern:

This correspondence is to formally notify you that the City of Kennesaw Planning and Zoning Department has received an Annexation/Rezoning Application for two parcels of land within two hundred (200) feet of your property. As a nearby property owner, you have the right to be informed of potential zoning changes.

The Application details are as follows:

Applicant:	Traton, LLC
Applicant's Representative:	J. Kevin Moore, Esq., Moore Ingram Johnson & Steele, LLP [redacted]
Property Address:	3227 Old 41 Highway and 3137 Robin Drive
Parcel Identification Numbers:	20012600270 and 20012600260
Description of Proposal:	Request to rezone from Cobb County zoning classification of R-20 (single-family residential) and Cobb County Neighborhood Shopping ("NS") to City of Kennesaw zoning classification of RA-6 (residential district) to develop a residential community consisting of single-family detached units

The Application will be reviewed and voted on at public hearings by the Planning Commission and the Mayor and City Council. The meeting details are as follows:

Planning Commission Meeting
Date: August 5, 2026
Time: 6:30 p.m.

Mayor and City Council Hearing
Date: August 17, 2026
Time: 6:30 p.m.

Both meetings occur in the City Hall Council Chambers located at 2529 J.O. Stephenson Avenue, Kennesaw, Georgia 30144. You may appear in person or be represented by an attorney to present any objections you may have. The Application is enclosed for your review. This notice is being sent to you by order of the Planning Commission and Mayor and City Council.

Very truly yours,

MOORE INGRAM JOHNSON & STEELE, LLP

Subject: Rezoning of 3227 Old 41 Hwy and 3137 Robin Drive

Date: July 13, 2026
To: The City of Kennesaw Planning Commission
Regarding: Public Hearing for 3227 Old 41 Hwy NW and 3137 Robin Drive (August 5, 2026)
Subject Property: 3227 Old 41 Hwy NW, and 3137 Robin Drive Kennesaw, GA 30144
Parcel IDs: 20012600270 & 20012600260

Honorable Commissioners,

I am writing as a nearby property owner to express my strong opposition to the proposed rezoning application to change Parcels 20012600270 and 20012600260 from R-20 to R-6. While I understand the inevitability of local infill development, the requested jump to a high-density R-6 classification would impose significant, direct negative externalities on neighboring single-family structures and the existing infrastructure of Old 41 Highway.

Specifically, I request that the Planning Commission recommend **DENIAL** of this application based on the following zoning metrics:

1. **Spot Zoning and Density Shock:** The request to jump from R-20 to R-6 represents an aggressive **333% density shock** that violates the established land-use fabric of this corridor. R-20 zoning acts as a critical low-density sponge for stormwater management and traffic mitigation along Old 41 Highway. Forcing an R-6 high-density subdivision into an area defined by large-lot R-20 metrics constitutes spot-zoning that serves only the developer's financial margin while degrading neighboring property values.
2. **The Setback Collapse:** Transitioning to R-6 allows the developer to legally collapse side setbacks down to a tight 5-to-7-foot margin and halve front setbacks. This extreme spatial reduction means a wall of multi-story structures will be built directly along our shared property lines, creating an immediate invasion of privacy, removing natural light, and choking out the native root systems of mature border trees.
3. **Incompatibility with the Future Land Use Map (FLUM):** The City's master plan sets clear expectations for character districts. Introducing an intensive R-6 footprint here breaks the low-density/suburban residential transition and compromises established neighborhood visual boundaries.
4. **Infrastructure Overburden on Old 41 Highway:** This corridor already faces critical peak-hour traffic pressure. Adding a high-density complex without a completed, independent Traffic Impact Study (TIS) compromises motorist and pedestrian safety.

If the Commission moves toward approval despite these severe conflicts, I formally request the attachment of the following binding stipulations to protect neighboring properties:

- **Setback Preservation:** No reduction of standard front, side, or rear zoning buffers.

- **Buffer Mandates:** A mandatory, developer-funded 30-foot undisturbed natural buffer paired with an 8-foot opaque structural privacy fence alongside adjacent single-family properties.
- **Lighting Mitigations:** Strict compliance with commercial "dark sky" standards to avoid security lighting bleeding into surrounding bedroom windows.

Thank you for your time, service, and diligence in protecting Kennesaw's neighborhood character.

Sincerely,

Kristin Goodrich

Subject: Opposition to Rezoning Application for two parcels at 3227 Old 41 Hwy NW and 3137 Robin Drive (Parcel IDs 20012600270 and 20012600260) from R-20 to R-6

This email is to state opposition to a rezoning application.
I just read a post on the Nextdoor App about a High-Density Development Proposed for 3227 Old 41 Hwy NW and 3137 Robin Drive, Kennesaw, GA 30144. The post says "A developer has applied to rezone the two parcels at 3227 Old 41 Hwy NW and 3137 Robin Drive (Parcel IDs 20012600270 and 20012600260) from R-20 to R-6."

Looking a map, for anyone who uses Old 41 near the Swift Cantrell Park, it is easy to see the unwanted congestion this high density development will cause. The congestion at times on Old 41 is bad enough now, adding more traffic for NOT ONLY THE ROAD, BUT ALSO Swift Cantrell Park. Both experience heavy use NOW.

FYI, Old 41 is often used by many to avoid the hellacious traffic on Cobb Pkwy. It offers an alternative route that many people use now to reach schools, doctors, shopping, etc.

Lastly, I cannot imagine the undesirable impact on adjacent housing residents. They bought with intent to have space/distance and privacy between their residence and neighbor per current zoning. The proposed rezoning destroys that vision of property ownership and will no doubt impact property values in a negative manner.

Please deny the rezoning application. Let’s protect our infrastructure, privacy, and property values.

Sincerely,
James F Musgrave

Subject: No more rezoning for Large development in and around downtown Kennesaw

Hi,

I am writing to you as a concerned citizen who lives and pays taxes to live in Kennesaw. I grew up here and I love it here. But enough is enough with all these developments and no commerce coming.

It is hurting the people who live here and pay taxes here. We want to enjoy our community and be able to spend our money i our community to give back, but the city council the past 10 years has let everything slide when it comes to residential development over what the people of kennesaw want.

I promise you we don't want any more apartments or townhomes no one can afford or another monster neighborhood that again no one can afford.
How about for a change we worry about our neighbors that have to sit in this traffic as they commute to their homes or to get to work or the store or kids to school. It takes 3x as long to go five miles around here than it did 2 years ago.

Also let's talk about all the vacant houses and businesses. Before we start building more stuff and destroying nature.

There is a house across the street from me that was built 8 Mos and is empty... still for sale because it priced outrageously.

These are just my two cents, but I am tired of my community and my taxes going to shit with nothing to show for it.

Thank you

Subject: Against rezoning Robin Drive to allow multi housing town home

I live on the corner lot [redacted] Kennesaw , Ga. 30144 . I oppose the rezoning of the property in question to allow the builder to build the town homes in this location and also City of Kennesaw to Annex this property . I don't have issue with single lot homes or a subdivision being build with single lot homes but town home or apartment style homes is not suitable for this location. My phone number is [redacted]. I plan on being at the August 5th. Meeting at the Kennesaw City Hall.

Subject: Rezoning

Ms Campbell,

I read a message last night that stated the property at the top of the hill in our neighborhood is possibly being rezoned. The address is 3137 Robin Drive. My family lives on Wren Circle. We have lived here since 1991. We LOVE our neighborhood! I must admit I do not understand all the terminology in a rezoning request. However, I do understand that putting more homes between Jiles Road and Nolan Road would be a huge detriment to this area. Already when existing our neighborhood from Robin Drive it is difficult to turn left onto Old 41. Oftentimes when we have our grandboys in the vehicle with us we will turn right and go way out of our way, just to feel safe. This area sits between 3 schools and a major park. The cluster that is being discussed to be rezoned, the one on Robin and 3227 Old 41 Hwy is really the only green space in this stretch of mile. PLEASE ENOUGH IS ENOUGH!!! I'm not sure how this could be stopped, but we do not need anything else built. We especially do not need traffic coming out onto Robin Drive, which would ultimately cause traffic on Wren Circle.

Thank you for your attention to this matter.

Memorandum

To: Valerie Aseff, Traton Homes
From: Abdul Amer, PE
Date: August 3, 2026
Subject: Trip Generation Memorandum for Res Dev at 3327 Old 41 Hwy NW, Kennesaw, GA 30144 | A&R Project No: 26-152

The purpose of this memorandum is to document the estimated trip generation for the proposed 35 lots single-family detached residential development that will be located at 3327 Old 41 Hwy NW, Kennesaw, GA. The development has one full access driveway on Old HWY NW.

The location of the proposed development is shown below.

Figure 1: Site Overlay

METHODOLOGY

Trip generation estimates for the project were based on the rates and equations published in the 12th edition of the Institute of Transportation Engineers (ITE) Trip Generation Manual. This reference contains traffic volume count data collected at similar facilities nationwide. The trip generation referenced is based on the following ITE Land Use: *210* – Single Family Detached Housing.

Land Use: 210 – Single Family Detached Housing: A single-family detached housing site includes any single-family detached home on an individual lot.

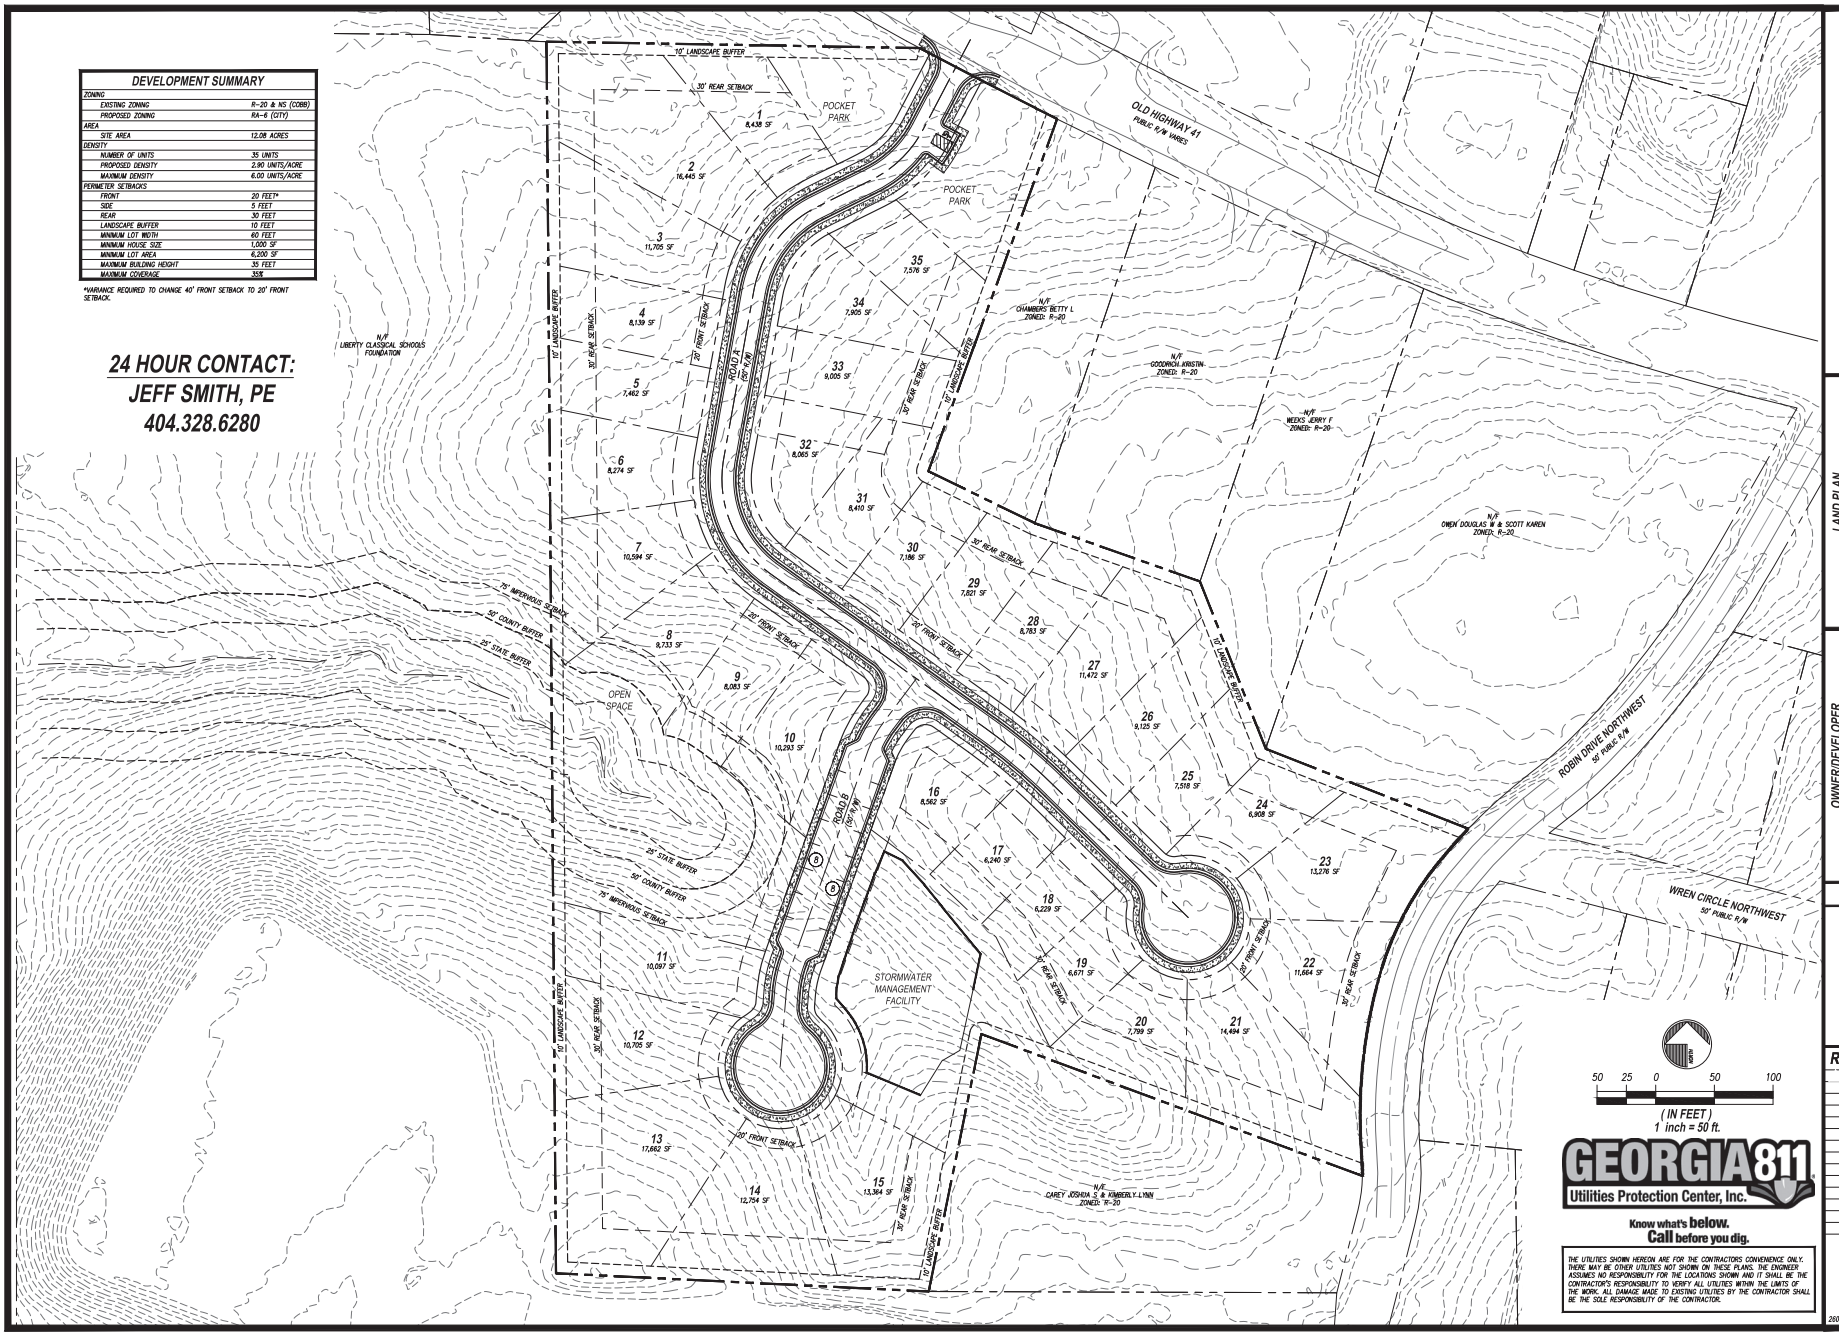

TRIP GENERATION

Trip Generation for the site plan is based on the rates and equations published in the 12th edition of the Institute of Transportation Engineers (ITE) Trip Generation report, is given below in Table 1.

TABLE 1 – TRIP GENERATION– SITE PLAN

Land Use	Size	AM Peak Hour			PM Peak Hour			24 Hour	
		Enter	Exit	Total	Enter	Exit	Total	Enter	Exit
ITE 210 – Single Family Detached Housing	35	8	21	29	23	14	37	274	274

Based on trip generation rates published by ITE, the proposed residential development is projected to generate 8 entering and 21 exiting trips during the AM peak hour and 23 entering and 14 exiting trips during the PM peak hour, equating to less than one vehicle per minute entering or exiting the site.

LOCATION:

The combined 12.216+/- acre tract is located off Old 41 Highway and Robin Drive and currently lies within unincorporated Cobb County. The surrounding area includes a mix of residential uses with limited commercial activity. To the east and north, the adjacent properties consist of various residential zoning classifications, including County R-20, Single Family Residential, and PRD, Planned Residential Development, characterized by single family detached homes. To the west and south, the property is bordered by a City zoned Office Institutional (OI) district, occupied by Northwest Classical Academy, a public charter school serving students in grades K–12.

The subject parcels are located in unincorporated Cobb County and are bordered to the south and west by City zoned parcels designated Office Institutional (OI). The parcels adjacent to the subject property to the north and east are also outside the City limits and are zoned County Neighborhood Shopping (NS) and R-20, Single Family Residential, creating a transition between City zoned institutional uses and County zoned commercial and residential districts.

Both subject properties are developed with older single-family homes. The property located at 3227 Old 41 Highway contains an approximately 1,874 sq. ft. single family dwelling constructed in 1964 on roughly 10.97 +/- acres, while the property located at 3137 Robin Drive is accessed from Robin Drive and includes an approximately 1,280 sq. ft. ranch-style dwelling built in 1955.

The Future Land Use Map does not categorize any land as Undeveloped or Agriculture/Forestry; development is anticipated throughout the county.

LOCATION:

The parcels are located in unincorporated Cobb County and carry a Future Land Use (FLU) designation of Low Density Residential (LDR). According to the Cobb County Comprehensive Plan, the LDR category identifies areas appropriate for low-density housing between one (1) and two and one-half (2.5) dwelling units per acre, with the option for non-supportive senior living housing to reach up to five (5) dwelling units per acre under specific circumstances. Allowable residential density is influenced by factors such as product type and mix, building height, tract size, topography, and overall compatibility with adjacent residential uses.

Under the HB 489 Intergovernmental Agreement between the City and Cobb County, any annexation and rezoning of County parcels with an LDR future land use designation into the City limits is subject to a maximum allowable density of 3 dwelling units per acre (DUA). This density cap ensures compatibility with surrounding County zoned neighborhoods while allowing the City to provide urban-level services and maintain consistent development patterns along jurisdictional boundaries.

Together, these parcels form a large, contiguous tract that establishes a strong foundation for the future development of a single-family subdivision. Their size, configuration, and existing residential character make them well- suited for a coordinated subdivision layout and compatible density transitions between County and City zoning districts.

Re: Petition for Annexation – Land Lots 126, 20th District, Parcels 20012600260 and 20012600270; Southside of Old 41 Highway, West of Robin Drive, Cobb County, Georgia; Notice of Non-Objection

Dear Mayor Easterling:

We are in receipt of the above-referenced annexation request. The subject property has the required contiguity with the existing Kennesaw boundary for annexation. No unincorporated islands will be created or extended; in fact, this annexation will reduce an existing unincorporated island created by the Acworth and Kennesaw city boundary. There are no county buildings or facilities on this property. Most of this property is zoned R-20 (Single Family Residential), with approximately 2.22 acres designated as NS (Neighborhood Shopping). Cobb County's Future Land Use Plan (FLU) designates this area as Low Density Residential (LDR). The applicant proposes 35 single-family detached homes, pocket parks, and designated open space. Based on our HB 489 Intergovernmental Agreement, this request is not objectionable.

In summary, please accept this letter as the County's formal **notice of non-objection** to the proposed annexation. Please see the attached comments from the Cobb County departments below. Should you have any questions or need any additional information, please contact Donald Wells, Intergovernmental Coordinator, at (770) 528-2199 or donald.wells@cobbcounty.gov.

City of Kennesaw

Water System- Chris Duggan

Water service for the proposed annexed properties will be provided by the existing CCWS water mains on Old 41 Hwy

Wastewater for the parcels will be treated at the Northwest treatment plant where there currently is sufficient capacity. Permit issuances are subject to continued WRF compliance with EPD discharge requirements.

Because CCWS will continue to own and maintain water in public rights-of-way and public easements, there would be no infrastructure loss

Cobb DOT-Wilson Collins

Old 41 Highway and Wren Circle are located within the existing right-of-way and will continue to be owned and maintained by Cobb County. If additional adjacent parcels are annexed into the City of Kennesaw, Cobb DOT will reevaluate ownership and maintenance responsibilities at that time.

No known drainage infrastructure has been identified by Cobb DOT within or adjacent to Parcel PIN: 20012600270. Any existing or proposed drainage infrastructure located within the parcel will become the responsibility of the City of Kennesaw upon annexation, transferring ownership and maintenance obligations accordingly.

Since Cobb DOT will retain ownership and maintenance responsibility for the existing right-of-way and no county-maintained drainage infrastructure is present, no infrastructure loss is anticipated at this time.

COMMUNITY INPUT AND STAFF FINDINGS

Staff has received numerous comments from community members regarding the proposed development. Based on the emails and calls received, the primary concerns relate to density and traffic congestion. Staff has reviewed these concerns with the following findings:

Traffic:

Both Old 41 Highway and Robin Drive are under the jurisdiction of Cobb County Department of Transportation (Cobb DOT). While the City does not have authority over roadway improvements or traffic control measures along these corridors, the application was transmitted to Cobb DOT for review as part of the intergovernmental coordination process.

Cobb DOT did not identify any objections to the proposed development and did not request additional off-site improvements. The subdivision proposes a single access point onto Old 41 Highway, which aligns with Cobb DOT's access management standards for developments of this scale.

Density:

Based on the application, the applicant is requesting to rezone the property to City RA-6, which permits low to medium density single family detached and attached residential uses. The proposed 35 single-family detached homes fall within the allowable density range for RA-6 and are consistent with the HB 489 Intergovernmental Agreement, which caps density at 3 dwelling units per acre (DUA) for annexed parcels originating from Cobb County with a Low Density Residential (LDR) Future Land Use designation.

The proposed development achieves a density of approximately 2.9 DUA, which complies with the HB 489 density limitation and maintains compatibility with surrounding County zoned neighborhoods. The lot sizes, ranging from 6,200 sq. ft. to 17,662 sq. ft., further support a transitionary density pattern appropriate for this location.

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **ANNEXATION & REZONING**

The applicant, Traton, LLC, represented by J. Kevin Moore of Moore, Ingram, Johnson & Steele, LLP, is requesting annexation and rezoning of approximately 12.216 +/- acres from County R-20, Single Family Residential, and NS, Neighborhood Shopping, to City RA-6, Residential. The request is intended to accommodate a new subdivision consisting of 35 single-family detached homes on lots ranging from 6,200 sq. ft. to 17,662 sq. ft.

The subject parcels are located in unincorporated Cobb County off Old 41 Highway and Robin Drive, surrounded primarily by residential uses with limited commercial activity. To the north is Cobb Vineyard Church, and to the south is Northwest Classical Academy, a public charter school serving grades K–12. This area reflects a transitional pattern of established residential neighborhoods supported by civic and institutional uses. The proposed homes are anticipated to be priced around $400,000, with the development intended to support workforce housing, providing attainable homeownership opportunities for households employed within the community.

The site plan features a cohesive residential layout supported by community oriented amenities, including pocket parks and dedicated open space gathering areas. Each home will include a two-car garage and additional driveway space with a minimum depth of 20 feet, measured from the sidewalk, allowing two additional vehicles to park without obstructing pedestrian access. The subdivision will be served by a single point of access from Old 41 Highway.

Exterior materials will consist of high-quality finishes, including brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten ensuring visual compatibility with surrounding development patterns and maintaining a consistent architectural character throughout the neighborhood.

A copy of the application was transmitted to Cobb County for review in accordance with the HB 489 Intergovernmental Agreement. Staff subsequently received the County's formal notice of non-objection to the proposed annexation and rezoning. No additional concerns were identified regarding the development's impact on existing public infrastructure or County provided services, indicating that the request is consistent with the coordination procedures outlined in HB 489.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **VARIANCE**

The applicant has submitted a concurrent variance application to deviate from section 2.01.03.10 of the Unified Development Code. The applicant is requesting to:

1. Request to reduce the front setback from forty (40) feet to twenty (20) feet.

The applicant has submitted a variance request to reduce the required minimum front setback from forty (40) feet to twenty (20) feet. Due to the irregular shape of the tract and the resulting limitations on building placement, the reduced setback provides necessary flexibility for the subdivision layout. This adjustment allows the homes to be sited appropriately while ensuring the land is efficiently utilized and that functional, adequately sized backyards remain available to future homeowners.

The request has been reviewed based on the standards outlined in *Section 9.02.00* of the Unified Development Code which states that variances may be granted using the following criteria:

A. There is extraordinary and exceptional conditions pertaining to the property because of its size, shape or topography;

B. The application of the UDC standards to property creates practical difficulty or unnecessary hardship.

C. The practical difficulty and/or unnecessary hardship are conditions which are peculiar to the property involved; and

D. Relief, if granted, would not cause substantial detriment to the public good or impede the purposes and intent of the UDC

The proposed site is encumbered by an on-site stream along the western boundary and has an irregular overall shape, both of which significantly constrain the developable area and limit the placement of homes in the development. These physical conditions create challenges for establishing a uniform lot layout and meeting standard setback requirements while still providing functional yards and maintaining compatibility with surrounding residential development.

Taken together, these extraordinary physical conditions create limitations that are unique to this parcel and not commonly found on surrounding properties. Because these constraints directly impair the reasonable use of the land under standard zoning requirements, the circumstances meet the threshold for considering a variance, as the hardship arises from the inherent characteristics of the property rather than from actions of the applicant.

STAFF ANALYSIS REPORT

ZONING CASE #: RZ2026-05/AX2026-01 & ZV2026-03

STAFF ANALYSIS - **RECOMMENDATIONS**

Staff has evaluated the applicant's request in accordance with the standards for decision outlined in Section 10.01.02, Rezoning Procedures, as well as the requirements of Section 2.01.03.10, RA-6 Residential District, Section 4.01.02, Development Standards for Development, and Section 9.02.00 of the Unified Development Code (UDC), with the following observations:

According to the UDC, the RA-6 Residential District is established to provide locations for the development of affordable single-family detached or attached residential dwelling units, including duplexes, triplexes, and quadraplexes, with access to public water and sewer. The district supports medium to high density residential classifications as defined by the City of Kennesaw Comprehensive Land Use Plan, as amended.

The proposed project aligns with the intent of the RA-6 district by introducing affordable, single-family detached homes within a density framework that supports attainable housing options. The subdivision layout, lot sizes, and anticipated price point further reinforce the district's purpose of expanding housing opportunities for a range of household types while maintaining compatibility with surrounding residential development patterns.

ZONING ADMINISTRATOR'S RECOMMENDATION:

Based on the findings outlined in the analysis section of the staff report, City Staff recommends:

1. **Approval** of the request to annex the property into the city limits
2. **Approval with conditions** of the rezoning request from County Neighborhood Shopping (NS) and R-20, Single Family to City RA-6 Single Family Residential consisting of 35 single-family dwelling units.
3. Further more City Staff recommends **approval** of the following variance request:
    1. Request to reduce the front setback from forty (40) feet to twenty (20) feet.

PROPOSED ZONING CONDITIONS:

1. The rezoning of the Subject Property to City RA-6, (Single Family) Residential zoning district shall be in accordance with the technical and conceptual site plans submitted concurrently with the application and shall comply with the required front, side, and rear setbacks as outlined in the UDC for RA-6 zoning district.
2. The Subject Property shall be developed as a residential subdivision consisting of a maximum of thirty-five (35) single family detached homes, each with a two-car garage and additional driveway space with a minimum depth of 20 feet, measured from the sidewalk.
3. The development shall maintain its workforce housing intent by offering homes at an anticipated price point consistent with the application (approximately $400,000, subject to market conditions).
4. Architectural style and building composition shall be in reasonable conformity with the renderings/ elevations submitted with the application. Exterior materials shall consist of high quality finishes, including brick, stone, stacked stone, cementitious lap siding, architectural shingles, board and batten.
5. The development shall include pocket parks and designated open-space areas, professionally designed and integrated into the subdivision layout.
6. Compliance with the recommendations from the City Engineer and/or the City's Public Works Director regarding detention, water quality and stormwater management.

7. Compliance with the recommendations from Cobb Department of Transportation regarding traffic infrastructures and access management.
8. Applicant agrees to the protection of all required stream buffers affecting the Property and shall utilize such areas as a passive amenity for the proposed development; any potential impact to the stream(s) due to revisions to the site plans will require a variance.
9. Landscaping for the entrance area, signage areas, amenity and all other common areas immediately surrounding the proposed buildings shall be professionally designed, implemented and maintained, which shall include the installation of an irrigation system in areas where appropriate.
10. The proposed community shall utilize the City or Cobb County utility services as is typical for such residential development.
11. Compliance with recommendations from the Cobb County Water System with respect to the availability and accessibility of water and sewer for the site.
12. Applicant shall create a mandatory Homeowners Association ("HOA") and prepare and file a Declaration of Covenants, Conditions and Restrictions ("CCRs") to be made applicable to the Property, which shall include, among other components, a restriction on the total number of units that may be rented at any one time to no more than 10% of the total number of units.
13. The homeowners association shall be solely responsible for the upkeep and maintenance of all common areas, mail kiosk, amenities, and amenity areas; including the entrance areas, boundary landscape buffers, stormwater management systems, driveways and parking lot.

CITY OF KENNESAW

Section 1909, Part 4 Standards for Decisions – Variances
(Amended June 29, 2026)

Zoning Variances may be granted in such individual cases of practical difficulty or unnecessary hardships as follows:

(1) There are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape, or topography.

The Subject Property is encumbered with an extensive stream presence and floodplain area; as well as, the overall shape of the property, resulting in extraordinary conditions for development.

(2) The application of this chapter to this particular piece of Property would create practical difficulty or unnecessary hardship.

Due to the challenges above, satisfying the forty (40) foot front setback requirement creates practical difficulties for successful development.

(3) Such conditions are peculiar to the particular piece of Property involved.

The conditions are unique to the Subject Property.

(4) Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this Chapter.

Reduction in the front setback from the required forty (40) feet to twenty (20) feet will not cause any detriment to the public welfare or the affect the intent of this Chapter; and, further, would allow Applicant to proceed with development of a quality single-family detached community, providing a nicer backyard living area for future residents of the proposed community, thus creating a nicer overall development and directly and positively affecting the City by providing additional benefits.

GENERAL NOTES

EQUIPMENT USED TO OBTAIN THESE MEASUREMENTS WAS A TRIMBLE S5 ROBOTIC TOTAL STATION.

BEARINGS ARE CALCULATED FROM ANGLES TURNED FROM A SINGLE GRID BASELINE.

THE DATUM FOR THIS SITE WAS ESTABLISHED UTILIZING GLOBAL POSITIONING SYSTEMS AND BASED ON POSITIONAL VALUES FOR THE VIRTUAL REFERENCE STATION NETWORK DEVELOPED BY eGPS SOLUTIONS. THE HORIZONTAL REFERENCE FRAME IS NORTH AMERICAN DATUM OF 1983(HARN)–STATE PLANE COORDINATE SYSTEM OF GEORGIA–WEST ZONE. THE VERTICAL REFERENCE FRAME IS NORTH AMERICAN VERTICAL DATUM OF 1988. ANY DIRECTIONS OR DIMENSIONS SHOWN ARE A RECTANGULAR, GROUND LEVEL PROJECTION OF THE STATE PLANE COORDINATE SYSTEM.

DATE OF FIELD WORK: 5–4–2026

ALL IRON PINS SET ARE 1/2" REBARS CAPPED WITH "GUNNIN LSF 1033" UNLESS OTHERWISE NOTED.

BY GRAPHIC PLOTTING ONLY, NO PORTIONS OF THIS SITE ARE SHOWN TO BE WITHIN THE LIMITS OF A 100 YR. FLOOD HAZARD AREA AS PER F.I.R.M. COBB COUNTY, GEORGIA AND INCORPORATED AREAS, COMMUNITY PANEL NUMBER 13067C0017H DATED 10/05/2018 AND 13067C0019H DATED 10/5/2018.

ABOVE GROUND UTILITY LOCATIONS WERE OBTAINED FROM FIELD OBSERVATIONS. THE UNDERGROUND UTILITIES ARE SHOWN HEREON BASED ON LOCATION OF MARKINGS PROVIDED BY:

RHD SERVICES
P.O. BOX 813399
SMYRNA, GEORGIA 30081
TEL. (404.874.8585)

THE UNDERGROUND UTILITIES (EXCEPT THE LOCATION OF EXISTING DRAINAGE) WERE LOCATED BY RHD SERVICES UTILIZING RADIO FREQUENCY TECHNIQUE. THIS TECHNIQUE IS CAPABLE OF LOCATING METALLIC UTILITIES AND TRACER WIRES. ANY NON–METALLIC UTILITIES (WITHOUT TRACER WIRE) ARE NOT LOCATED. THE SURVEYOR MAKES NO GUARANTEES THAT THE UNDERGROUND UTILITIES SHOWN COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN–SERVICE OR ABANDONED. UNDERGROUND UTILITIES NOT OBSERVED OR LOCATED UTILIZING THIS TECHNIQUE MAY EXIST ON THIS SITE BUT NOT BE SHOWN, AND MAY BE FOUND UPON EXCAVATION. THE SURVEYOR FURTHER DOES NOT WARRANT THAT THE UNDERGROUND UTILITIES SHOWN ARE IN THE EXACT LOCATION INDICATED ALTHOUGH THE SURVEYOR DOES CERTIFY THAT THEY ARE LOCATED AS ACCURATELY AS POSSIBLE FROM THE INFORMATION AVAILABLE. INFORMATION REGARDING MATERIAL AND SIZE OF UTILITIES NOT PROVIDED TO SURVEYOR AND CANNOT BE VERIFIED.

LOCATION OF JURISDICTIONAL WATERS NOT INCLUDED IN THE SCOPE OF THIS SURVEY. SUCH WATERS MAY EXIST THAT ARE NOT SHOWN HEREON.

AMENDED CONSTITUTIONAL CHALLENGE ATTACHMENT TO VARIANCE APPLICATION

COME NOW, Applicant, TRATON, LLC (hereinafter referred to as "Applicant"), and Titleholders, ROSEMARY JAMES STRICKLAND and VICTOR TORRES (hereinafter collectively referred to as "Owners" or "Titleholders"), and amend the Constitutional Challenge filed on or about May 15, 2026, by deleting the requested variance for reduction in the minimum lot size requirement under the proposed PUD-R zoning category, and now asserting the following due to amendment of the Annexation/Rezoning Application seeking rezoning to the City's RA-6 zoning category:

1.

By Amended Application for Variance, Applicant and Titleholders applied for a variance as to the requirements of the Unified Development Code for the City of Kennesaw and seek a variance for reduction of the front setback for lots located within the RA-6 zoning classification from the required forty (40) feet to twenty (20) feet; all as more fully set forth in the Amended Variance Application (hereinafter referred to as the "Front Setback Requirement").

2.

The Unified Development Code for the City of Kennesaw was established by the governing authority of the City of Kennesaw, Georgia, being hereinafter referred to as the "Unified Development Code of the City of Kennesaw" or in the alternative the "Ordinance."

3.

By Amended Variance Application, Applicant and Titleholders applied for a variance specifically as to certain real property lying and being in unincorporated Cobb County, Georgia, for which an Annexation/Rezoning Application was previously filed, a more particular description and delineation of the subject property being set forth in said Applications (hereinafter collectively referred to as the "Subject Property" or "Property").

4.

The Amended Variance Application seeks a waiver of the zoning requirements of the Front Setback Requirement, as applied to the Subject Property.

5.

There is no question but that enforcement of the Front Setback Requirement would create an unnecessary hardship in that same would deny reasonable use of the Property while causing no substantial detriment to the public good. The Amended Variance Application does not seek a use of the Property which is prohibited by any ordinance or resolution.

6.

The Unified Development Code of the City of Kennesaw and the Code of the City of Kennesaw are unconstitutional as applied to the Property in that said Ordinances deprive Applicant and Titleholders of their Property under and pursuant to Art. I, § I, ¶¶ I and II of the

Georgia Constitution of 1983, and the Equal Protection and Due Process Clauses of the Fifth and Fourteenth Amendments to the Constitution of the United States of America. This deprivation of Property without due process violates the constitutional prohibition against the taking of private property without just compensation. Said Ordinances, as they presently exist, violate the Applicant's and Titleholders' right to unfettered use of their Property in that a refusal to grant the requested variance from said Ordinances would result in unwarranted loss of existing and proposed reasonable residential use. Further, said Ordinances do not bear a substantial relation to the public health, safety, morality, or general welfare and are therefore confiscatory and void as applied to the Property. Further, said Ordinances are unconstitutional in that same are arbitrary and unreasonable resulting in relatively little gain or benefit to the public, while inflicting serious injury and loss upon the Applicant and Titleholders.

7.

The Unified Development Code of the City of Kennesaw and the Code of the City of Kennesaw are further unconstitutional in that the procedures contained therein pertaining to the public hearing held in connection with the Amended Variance Application also violate Art. I, § I, ¶¶ I, II, and XII of the Georgia Constitution of 1983 in that said procedures impose unreasonable time restraints, contain the absence of rebuttal, contain the inability to confront witnesses, contain the lack of procedural and evidentiary safeguards, do not restrict evidence received to the issue at hand and are controlled wholly and solely by political considerations rather than the facts and considerations required by law. These procedures fail to comport with the due process requirements of the Constitution of the State of Georgia 1983 and the due process requirements of the Constitution of the United States of America.
